tar makes a good base for the punch because it has more body to it than does a fruit juice. It has beautiful color and its flavor combines well with other ingredients.

Frozen salads are good-tasting

this time of year. Fill them with assorted fresh fruits and crisp chopped or slivered roasted almonds and hold them together with a whipped cream and cream cheese base. This can double as a salad or a dessert.

"I traded for a New Ford while my old truck was still worth something"

"My old truck was just about ready for retirement, but I couldn't get myself to take the big step of buying a new one," writes Roy Gigi, of Globe Produce Co., San Francisco.

"But, when the classified ads showed that used truck prices were slipping, and when I heard about the big trade-in allowances my Ford Dealer was making, I decided to deal."

"I traded for a new Ford while my old truck was still worth something. If I had waited a few months longer, I would have had to take a couple of hundred dollars less for my old truck."

The Ford F-6 Cab-Over-Engine shown has a G.V.W. rating of 16,000 lbs. G.T.W. rating is 28,000 lbs. as a tractor. Ford offers over 150 other models from 145-h.p. Big Jobs down to half-ton Pickups. Three engines; two V-8's and a Six. Million Dollar Cab.

3 reasons why it's smart to order heating oil Now!

All set for the first cold spell—that's how you stand when your heating oil tank is full and ready for instant use. If it's next week or next month—when ever you want heating oil—comfort it's there...at your fingertips. You can't beat this full-tank insurance for warmth in your home when you need it most. Order today!

No more remembering Once you order Standard Furnace Oil now, we take care of it all season automatically. You never have to worry about it. You get more for your money in fast, clean heat because 100% distilled Standard Furnace Oil burns without waste. That means extra economies for you.

No fuel contamination—When your tank is empty, water vapor in the air inside condenses on the tank walls, contaminates your oil. The one sure way to prevent this is to keep the tank full so that there can be no condensation. We'll be glad to give you more hints on the care and use of your heating equipment.
