The croquet event was won by Sally Studivan in Class A and by Tommy Engen in Class B. Candy bars are the prizes offered for competitive activities and the candy bar papers have a way of becoming scattered around so the final event was a paper picking contest which was won by Terry Percy.

On July 6th, a doll show and ball throwing contest was featured for the girls, and home-made toys and top spinning contest for the boys.

There are now eighty-two children registered at the Washington school playground. Remember that the playground is not just a place for children of working parents or the underprivileged. It is a city-supported program and is for all the children who care to make use of it.

Long and Short

(Continued from Page One)

A definite feeling that the rural area will not favor adding another wing to the present elementary school near the football field came out at the hearing on the budget last Friday night. It had been publicly stated before that the people would be asked to vote another three year continuing levy to add another segment to the building. And (from the looks outside at present we need something done) now the problem is, if we do vote on another \$145,000 bond issue, what will the building be used for? We think it should be definitely made into an elementary school. The population bulge is in that age group. Later if necessary a high school could be built, or if necessary, the Lincoln junior high school could be used as a high school annex.

General opinion is that the President finally woke up to the threat of Communism. Senator Taft's spanking of Truman and Acheson was well done and due. The common man has had more practical awareness of the threat of Stalin and his cohorts than the government seemingly had. We were willing, but the government was not ready. The American people took a stand at Concord, they are still willing to take a definite stand.
