Thoroughly Good—and Looks it!

If you do any driving today, the chances are you will see a new Pontiac before you have gone very far—for more people are driving Pontiacs than ever before.

Take a good long look at the next new Pontiac you see. Some of the reasons why its owner is so proud of his car will be quickly apparent. You can see that Pontiac stands out above all other cars for rare beauty. You can see that Pontiac is a big, luxurious automobile. You can see that Pontiac

glides away in traffic and strides smoothly along the open road.

Some things you can't see, but they are there nevertheless. Things like Pontiac's dependability year after year—things like the deep pride and satisfaction of owning and driving this immensely respected automobile—things like Pontiac's real economy.

One look is very convincing, but a few miles behind the wheel is the surest way to know that dollar for dollar you can't beat a Pontiac!
