The EASY-DOES-IT CORNER

G. B. HOWE

4. Stir Standard Aluminum Asbestos Coating thoroughly and apply with roofing brush.

5. Use long, easy strokes. One or two strokes over a given spot cause the material to flow out to a natural thickness. Further brushing results only in "balling" of the coating.

Standard Aluminum Asbestos Coating actually adds years of service to roofs. Call us about it today. We'd like to show you the service that has helped us grow in this locality.

How To Put New Life into Old Paper and Metal Roofs. There's no time like now for money-saving action on your roofing-paper and "tin" roofs. It's so easy to preserve your roof, keep it cooler with Standard Aluminum Asbestos Coating.

Here's the routine we recommend for brush application:

1. Clean roof thoroughly.
2. Inspect for defects; if badly worn, re-roof.
3. If roof is secure, patch major holes and tears.

"All my life I've wanted to own a Buick"

Power Steering now available on Super as well as Roadmaster—optional at extra cost.

IT seems that owning a Buick is something that a lot of folks dream about—plan for—and finally do.

We say that because, so many times, they say so in words like those above.

Those words make us happy, of course—happy to know we sell a car which means so much to those who own it.

But they make us feel just a little bit sad as well—sad to realize all the years of fun such folks have been missing for no good reason at all.

For the fact is this:
If you can afford any new car, you can afford a Buick.
You can afford the thrill of bossing around that big Fireball 8 Engine that purrs forth a mighty flow of power.

You can afford the gas bills—as any owner of a 1952 Buick will tell you—because that high-compression, valve-in-head marvel gets a lot of miles from a gallon of fuel.

You can afford the extra luxury of a real million dollar ride—the silken smoothness of Dynaflo Drive*—the extra room and comfort and style that have put Buick popularity right up at the top of the list, next to the "low-priced three."

So if you want to own a Buick—there's just one thing to do:
Come in—pick the one of your choice—

and let us show you how close the figure that goes on the bill of sale comes to what you'd pay elsewhere.

As we've said before, your first car can be a Buick. Why not take the Big Step right away—today?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

Sure is true for '52

When better automobiles are built **BUICK** will build them
