

Plywood Show Coming

Colorful Story Of Modern Plywood Set In Special Show To Appear In Coquille For Two Days During October

The Fir Plywood Jubilee traveling display—a free show with entertainment and information for the entire family—will come to Coquille on October 3-4 for a two-day stay. Honoring the 50th anniversary of the plywood industry, the show has one display incorporating the most dramatic features of the "Fifty Golden Ideas" for fir plywood construction unveiled during the industry's annual meeting at Portland, Oregon, in mid-June. Other displays tell the story of plywood's wide range of uses—"You can build anything with fir plywood"—of industry promotion through the Douglas Fir Plywood Association, and the story of markets and shipping. Something of interest to every member of the family has been built into the displays of the plywood caravan. Included are a fir plywood menagerie—colorful circus animals constructed of the versatile building panels; a sound-

color educational movie showing how plywood is manufactured, and some absolutely new ideas for modern living. The entire show is built on a circus format, complete down to the big red caravan wagons emblazoned with Jubilee announcements. The main exhibit is set up in a carnival square framed by two highway semi-trailers. It tells the story of the birth, growth, size and importance of the West Coast fir plywood industry. This element of the show is built around the central exhibit theme, telling communities visited that fir plywood is "Made Here—Sold Everywhere." The story is told with accurate, detailed scale models, dioramas, photos and other graphic illustrations. Following its stay here, the Jubilee show goes to Coos Bay, continuing its tour of the West Coast regions where fir plywood is manufactured.

lie Carlson, Bandon and Barbara Juanita Wesel, Bandon; William N. Monson, Hauser and Dorothea N. Sedy, Hauser; Gary D. Holman, Mapleton and Sallyann Poole, Mapleton; John Clifford Call, Sacramento, Calif. and Carrie Ann Rebekah Hayes, Sacramento; Nolan Odell Stevenson, Bandon and Lucretia Olivia LeMay, Bandon. ASSUMED BUSINESS NAMES Charles H. Petersen, Coos Bay and Orville W. Tobin, North Bend are conducting a retail feed and garden supplies business under the assumed name of "Eaton's Garden Supply." Indian Skull Is Startling Discovery Of Coos County Road Crew Last Week

It's not every day that one finds a human skull when widening roads, and William Dinsmore and Ben Chandler aren't anxious to find them daily. But find one they did as Dinsmore ran the scoop shovel cutting into the sandy bank along the edge of the Bandon-Bullards road just inside the Bandon city limits. When Ben Chandler saw the bone in the scoop, he picked it out and members of the county road crew looked carefully for other bones and found jaw fragments and a few neck vertebrae. The skull proved to have only four remaining teeth; to be very porous, and when Deputy Sheriff David Tankersley checked on it for age and location, he hazarded a guess that it had been buried for 50 to 75 years. Folks in the Bandon area state that it may be the skull of an Indian, many of whom are buried around the edges of the river as it widens at Bandon. See "Spike" Leslie for insurance of all kinds, phone 4891. ttc

ENLIST IN NAVY Charles (Chuck) Dunn, son of Mr. and Mrs. George E. Mason, enlisted in the U. S. Navy June 27 at Bend and is now in training at the U. S. Naval Training Center in San Diego, Calif. His cousin, Lowell Martin, Jr. enlisted at the same time and is also receiving his training at San Diego.

Wider Streets Recommended By Planning Body

Wider roadways on Second and Tenth streets were recommended to the City Council by the City Planning Commission at its meeting last Wednesday.

The commission recommended that Second street be widened to a full 68 feet from Collier to Gould as the money becomes available to do the work. The width is deemed necessary by the group in anticipation of heavy traffic and prospective business increases along the street.

The widening of Tenth from Central to Folsom to 48 feet was also recommended, as was the completion of sidewalks where necessary along the street.

The commission voted to send a recommendation to the State Highway department that the First National Bank corner at Third and Adams streets be rounded to allow better traffic flow.

A second access road from the Sanford Heights area was also discussed by the group. All felt that a second road is badly needed by the area.

The commission recommended that Eleventh street be extended from Knott to Myrtle at a width of 50 feet and that it be extended from Myrtle to the highway at a width of 60 feet by the most economical route. City Engineer Mike Huddleston is currently studying the feasibility of various routes to the highway.

Rio de Janeiro and Sao Paulo, Brazil's two largest cities, have erected the world's tallest concrete buildings. Although this method of construction is not a Brazilian invention, the techniques were advanced there. Now foreign engineers visit Brazil to learn about concrete structures.

News on the... Public Records

CIRCUIT COURT An action at law has been filed by Dealer's Installment Defaults, Inc., against James C. Smith. The plaintiff alleges that on August 22, 1953, Smith entered into a conditional sales contract with Rose Motor Company for a used car at a cost of \$567.60. Plaintiff claims that Smith still owes \$464.57 on the contract. Plaintiff asks judgment for that amount and for \$150 attorney's fees.

Western Mercantile Agency, Inc. has filed an action at law for the recovery of money from Malcolm Reid, seeking money for payment of room and board which Reid received in Salem in April, 1951. The agency also asks for interest at the rate of six percent from April 7, 1951, until paid.

A complaint has been filed by Credit Bureau Adjustment Department, Inc., against LaVerne R. Black, seeking the recovery of money. The complaint alleges that Black owes money to Campus Super Market; Avon Products; Dr. H. H. Faust; Drs. Goetter & Kludt; Dr. Barker; Portland Gas & Coke Company, and South Corvallis Motor Court.

Calvin Gumm has filed a complaint against Dewey Logue seeking to recover damages suffered when the Gumm and Logue automobiles collided at Empire on November 9, 1953. The plaintiff seeks to recover damages to his car; rent paid for the use of a car while his was being repaired, and attorney fees.

A complaint has been filed by Nola Smith against Evans Products Company, a Delaware corporation, and Emroy Curley, seeking \$25,000 in general damages

and \$1,350 special damages. The plaintiff alleges that the corporation, which owns and operates a Coos Bay plywood plant, was negligent in such a way as to cause her injuries on August 16, 1954, in an accident at the factory. Curley, as her foreman then, was also negligent, the plaintiff charges.

Boyd H. Shields has filed a complaint against the State Industrial Accident Commission of the State of Oregon asking for an order to refer plaintiff's claim for compensation back to the Commission and granting the plaintiff compensation for temporary total disability from January 14, 1955, until such time as his condition becomes stationary, and after his condition becomes stationary, granting plaintiff compensation for permanent total disability. In his complaint, Shields states that he was injured while employed by the E. & E. Logging Company as a loader. The Commission had previously rejected his claim for disability.

DIVORCES FILED John H. Paxson vs. Luta Paxson; Bessie C. Woods vs. Lawrence E. Woods; Vivian Ann Carver, by and through Beulah Franson, her guardian ad litem, vs. Lawrence Eugene Carver; Janice Marie Luke vs. Norman Richard Luke; Lester H. Wiebke vs. Adeline M. Wiebke; Harry Jefferson Foster vs. Myrna Ruth Foster; Delbert A. Morey vs. Barbara B. Morey.

PROBATE COURT Gudrun Marken has been appointed guardian of David Michael Sanderson, Marie Louise Sanderson and Sonja Sanderson, minors.

MARRIAGE LICENSES ISSUED Douglas Pennington, Coos Bay and Virginia Yelter, Coos Bay; Norval Gary De Lore, Coos Bay and Betty Lou Prosa, North Bend; Darrell Lee Perkins, Reedsport and Mary Joyce Hathaway, Reedsport; Harvey D. Cook, Coos Bay and Goldie E. Rinker, Empire; Don LeRoy Fisher, Coquille and Shirley June Moore, Coquille; Les-

Most Modern, Shortest Stroke V8's* in any leading truck!

New Chevrolet Task-Force Trucks

Here's the measure of a truly modern V8 engine—Chevrolet's advanced oversquare design. It means less friction... longer engine life!

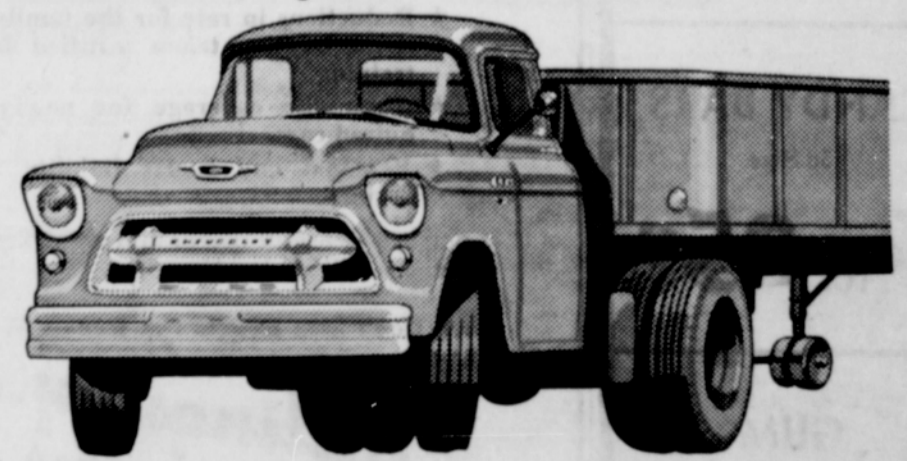

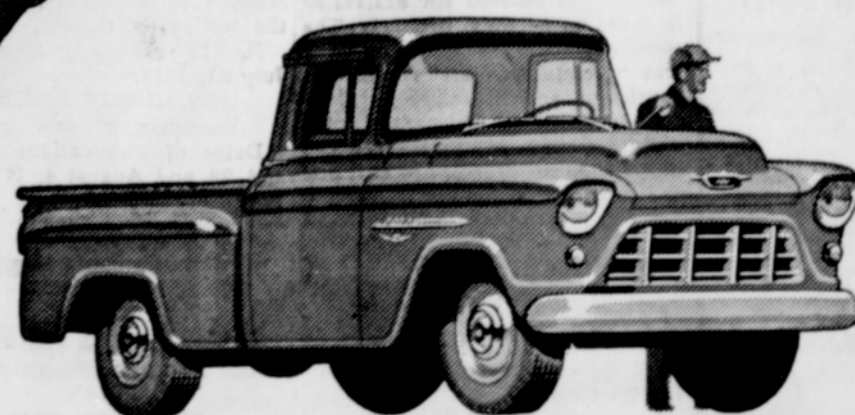

Here are more dollar-saving reasons why new Chevrolet trucks offer you the most modern V8's* your money can buy!

- MODERN 12-VOLT ELECTRICAL SYSTEM You get double the punch for quicker starting (up to 30 percent faster cranking speed) and a hotter, fatter spark for more efficient ignition. GAS-SAVING HIGH-COMPRESSION RATIO With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power—and work—out of every tankful of gas. EXTRA-HIGH POWER PER POUND Since these V8's deliver high power per pound of engine weight, more of the power is actually available for hauling.

- ADVANCED AIRCRAFT-TYPE VALVES Valves function independently, as in modern aircraft engines. Valve action is more positive at all speeds for finer, smoother performance. FLOATING OIL INTAKE... FULL-PRESSURE LUBRICATION New floating oil intake selects the cleanest oil for engine lubrication. Full-pressure lubrication system provides positive protection for vital engine parts... extends engine life. *V8 standard in the new L.C.F. models, an extra-cost option in all others except Forward-Control models.

Year after year... America's best selling trucks
