### O. & C. Money on the Way.

The first move in the disposition of the Oregon & California grant lands by the government was made at Roseburg Wednesday when the officers of the land office there received notice to advertise for bids for the sale of a block of fir and cedar timber in Curry county, which is situated on grant lands forfeited to the government.

The minimum price to be accepted, according to the notice is one dollar per 1000 for the fir and \$2 for the Port Orford cedar. Oswald West, agent for the federal government is expected in Roseburg Thursday, to make payment of the back taxes due Douglas county, which amount to over three hundred thousand dollars.

One of the largest payments of back taxes on the O. & C. lands was made Wednesday, when Sheriff James C. Parker signed the biggest receipt for tax money and received the biggest check ever received by Lane county, when he received to Oswald West for \$276,991.76.

Sheriff Parker said that his office would have the tax money segregated in about 10 days and ready to turn over to the county treasurer. Mr. Parker estimates that about 150 of the school districts of the county and a large proportion of the road districts will participate in the distribution, they having grant lands within their borders.

Inquiry at the sheriff's office here yesterday elicited the opinion that Gov. West will probably get around to pay Coos county's \$150,000 of O. & C. taxes, interest and penalties some time next week. He was at Roseburg yesterday and will probably go on down the line and settle with Josephine and Jackson counties at Grants Pass and Jacksonville before visiting Curry and Coos counties.

It is probable that all the clerical work of distributing the \$60,000 Boutin taxes and this \$150,000 can be finished in time to call the warrants the \$210,000 will pay as early as the first of January.

### He Has Served Eight Years.

Probably there are not more than two or three officials at the court house who have a more comprehensive knowledge of county affairs than Deputy County Clerk Osmundson, whose resignation will take effect at the close of the present month. He has long been a standby in the clerk's office where he has been employed for the past eight years; having begun his work there in the fall of 1908.

Although Mr. Osmundson proposes to spend the winter in California for the benefit of his wife's health, all his financial interests are still in Coos county and he still reckons it as his home. He proposes to return here in the spring.

### Leslie Schroeder Badly Hurt.

Leslie Schroeder, of this city, who entered the State University at Eugene in September, met with a severe injury in that gymnasium of that institution last Monday. He was just coming out of the shower room where he had been taking a bath when he slipped on the cement floor and in falling tore the ligaments of one of his legs, an accident which will probably keep him laid up for the next two months. Every one will sympathize with him in meeting such a misfortune at the beginning of his university career.

### Woodrow Wilson's Double.

Charles F. Lyon, of the Great Northern shows, who was here at the Seaside Tuesday night looks so much like President Wilson that he might easily be mistaken for him. Indeed we should certainly have thought his picture was that of the president. Mr. Lyon was a gunner's mate on the Olympia nineteen years ago and played his part in the Battle of Manila Bay, where the Spanish fleet was wiped out. He enjoys to the full the things people say about him when they see how much he resembles the president.

### A Penny for Uncle Sam.

When the new war tax law goes into effect Nov. 1, it may be that every one who goes to a moving picture show will have to provide himself with coppers to add to the price of admission. Whether to require that or to charge more every other night to get money to meet the tax is the problem Manager Pendleton, of the Seaside, is studying. For the ticket seller to make change in pennies for all who come, he thinks would be almost impossible.

For Henryville Coal at \$6 and \$7 per ton, see C. W. Hill.

The two "500" clubs of the city will give a card party at the W. O. W. hall for the benefit of the Red Cross on Thursday evening, Oct. 25. Admission 35 cents. Everyone invited. Urge your friends to come and help in the good work.

### Berkeley Sextette Here Seen.

The Berkeley Sextette, which is to appear here Nov. 6 is a company which has come to the front as the foremost exponent of an entirely different type of orchestra program than is usually heard. There have always been two program theories in concert work, one that a program of music that was popular must be composed of cheap music, and the other theory that a program of GOOD music must be more or less uninteresting but necessary to uphold the dignity of all concerned. Mr. Louis Runner, the well known critic and coach who organized this company, has been studying the concert orchestra problem for twelve years, and the Berkeley Sextette is the result of all these years of study and effort. In giving the descriptive term "entertainment - orchestra" to this company we include orchestra as meaning the standard orchestra type of program of recent years. It has been well said of them that they have the rare faculty of making classical music popular. One of the most successful numbers of the past two seasons has been an instrumental arrangement of operatic airs composed by Puccini. And no less interesting is their original interpretation of the old popular composition, "The Mosquito Parade," which never fails to convulse the audience. Their costume songs are as well received as are the instrumental numbers. They are the most expensively costumed orchestra in the entertainment field. There are readings, pianologues, instrumental solos of all kinds, descriptive instrumental numbers, serious musical moments, vocal solos, action songs, with orchestra numbers featuring each individual member as soloist with orchestra accompaniment, and for two hours there is not one moment of wasted time, not one number like another, and there is not one moment in which any member of the audience will lose interest.

### Thank God We Can Pay Taxes.

All these war taxes that are going on soon will make us all lots of bother as well as expense; but that is nothing to what it would cost to have the Germans occupy our town and run it for a week or a day even. It is for insurance against such an awful fate as has befallen the people of Belgium and northern France and Serbia that we must pay these war taxes. In Belgium there is said to be no girl nor woman between the ages of twelve and 75 who has not been made the plaything of the German soldiers and suffered indignities worse than death—suffered until she could no longer stand on her feet.

It is to protect ourselves against such a fate and against the death that befalls anyone, man or woman, at the caprice of a German soldier, that we have gone to war, that our boys are training for the trenches, and that we have to pay war taxes. Don't grumble about them. There are things a million times worse.

### Mrs. T. B. Currie Entertains.

The Wednesday "500" club was elegantly entertained day before yesterday by Mrs. T. B. Currie at her lovely new bungalow home on Front street.

The decoration scheme was autumn leaves in the living room and carnations in the dining room, where an appetizing repast was served.

The prize, a beautiful linen centerpiece, was won by Mrs. Wickham.

Those present were: Mesdames Currie, Collier, Neiman, Walker, Tuttle, Pierce, Gratton, Dobbins, Wickham, Osmundson, Hartson and Misses Hedman and Young.

### Pennies Winning Their Way.

Pennies, or coppers, have never got really naturalized in Oregon; but when it comes to paying one cent war tax on every dime or nickel it costs to get into a moving picture show the smallest coins will be in demand everywhere and the bars will be lifted so that they will circulate freely enough.

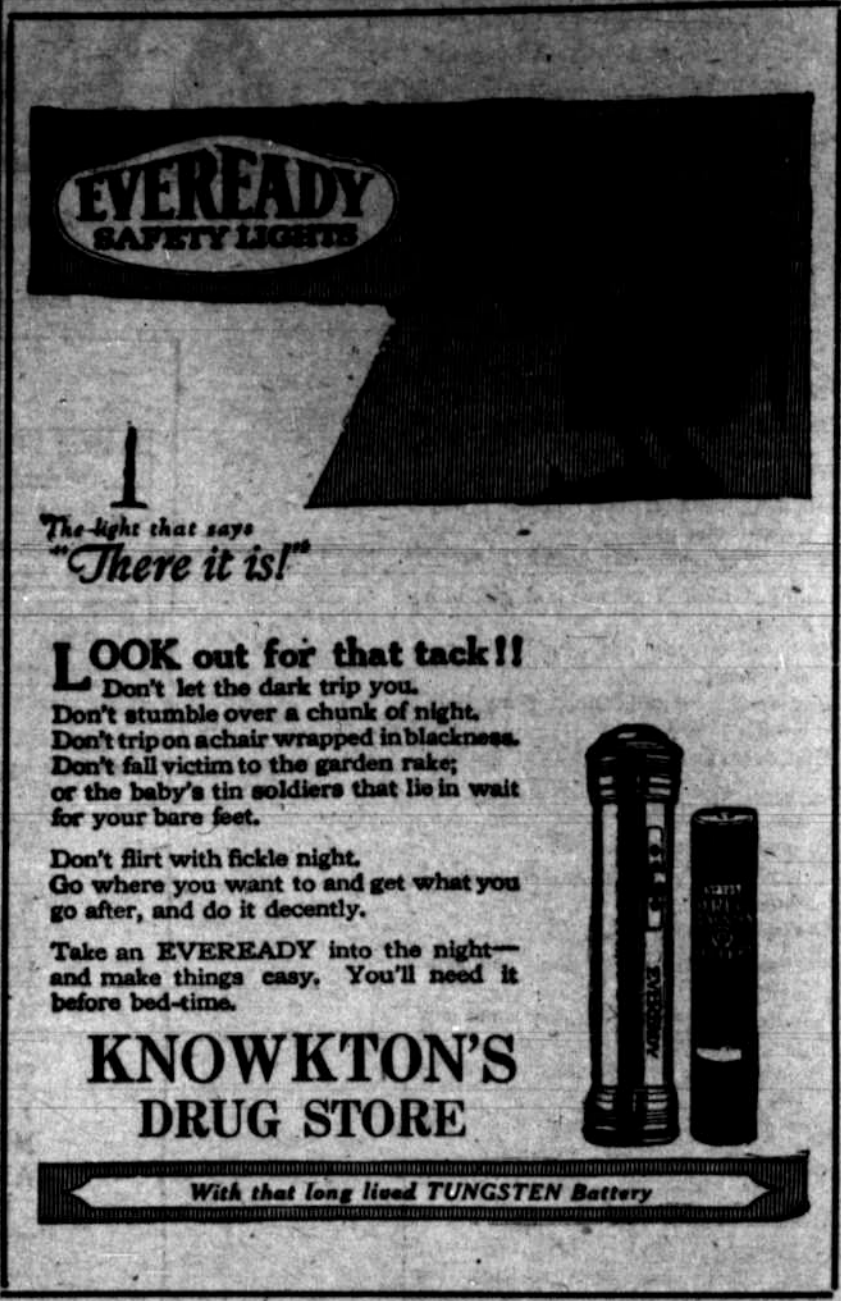

Uncle Sam looks out for the kids. Children under 12 years of age will have to pay only one cent war tax for a show that costs more than a dime though everyone else who pays over ten cents will be taxed more than that.

The express business between Coos Bay and Portland has grown so big that one man can't handle it all and Storey Cannon has been employed as messenger. He goes out on the morning train to Eugene and there transfers to the south bound train.

The application of five of Kaiser Wilhelm's subjects to be received as American citizens in the Circuit court here last week were "laid on the table," pending the termination of the war.

Let the motto be now, "A Liberty Bond in Every Home."
