**German Lie About Red Cross.**

The Bandon World says:

"Local Red Cross workers are beginning to think that some active German propagandists is being circulated in Bandon. At least they are kept busy explaining what are thought to be deliberate lies spread concerning the organization. The latest report that the articles made by the Red Cross are not given to the soldiers but are sold to them.

"Whoever is passing out this kind of talk must know that it is untrue and that it will tend to hinder the work. A determined effort is to be made to hunt down the sources of such reports and when the guilty parties are apprehended they will be reported to Federal authorities."

In this connection we want to add that in a letter accompanied by photograph of himself just received by Mrs. H. A. Isonage from her son, Earl, he said that the sweater shown in the picture was given him by the Red Cross. It was a complete outfit of wristlets, helmets, etc. The entire 17,000 men in that camp whose departure for France was imminent were similarly equipped absolutely free of cost.

Then a well connected but not well associated youth of our high school had smoked cigarettes and Jim had him.
