Photographs—Stadden in Coquille every Saturday.

J. C. Savage came over from the Bay last Friday and spent three days packing up his goods for moving to North Bend. Tuesday morning he and Mrs. Savage and their son left on the early train for that place. Mr. S. has been employed on the road work north of the Bay, but expects to be associated with D. L. Buckingham through the winter months.

At midnight last night Dr. Richmond performed an operation for appendicitis at Grayce Hospital. The patient was Mary Blalock, a girl of 13, who is the eldest of a family of nine children living six or seven miles up the river. There were grave complications in the case and the patient is in a serious condition. The County court this morning made an appropriation to help take care of her.

Since the downpour and gale last Sunday night, our weather has been on its very best behavior and we have had such delightful November days as are seldom seen elsewhere in this latitude. And everybody has been more than delighted to see these golden Indian summer days continued until Coquille's annual show has been staged. It was what we had all hoped for but none of us dared to expect.

By an inadvertance the Sentinel last week attributed the shortcomings or idiosyncrasies of two men to one. It was Julius Larsen and not Julius Nelson who put one over on Coos county by failing to make any return on his \$8,000 and over of farm buildings. He, too, was a witness for the Julius Nelson, who wanted \$5,000 for 2 1/2 acres of land taken for a county road, when his whole 180 acres stands for \$1100 on the tax rolls.

To Use Two Kinds of Stamps.

Postmaster Leneve informs us of some new kinks in the war taxes, we will have to learn in a couple of weeks. After the first of December all parcels post packages on which the postage is more than 25 cents will have to pay a special tax, and this tax will have to be paid not by adding another postage stamp but by putting an internal revenue stamp, which the postmaster will have to sell, on the package in addition to the postage stamps.

If the postage is anywhere from 26 to 50 cents, a one cent internal revenue war tax stamp will be required in addition to the postage, from 51 cents to 75 cents postage will mean a two cent war stamp, from 76 cents to one dollar, three cents war tax and so on. This reminds us of the way the parcel post business was started with a special stamp differing from those used for letters and papers, and the result was such endless bother that the bars were let down and any old postage stamp taken for parcels post packages. So it will be now. To buy two different kinds of stamps for one package is going to make it take its more time to do business and require more clerks in many postoffices. And the government already accepts common postage stamps for the extra war tax postage on letters.

Sheriff Tax Statement.

Sheriff Gage, at the November term of the county court, made his report on the taxes of 1916, showing the amount collected on county taxes, port taxes and the taxes of each school district of the county and also the amount still remaining unpaid. In this report, which was approved by the county court, we find the following items, which we are sure will interest many of our readers:

Amount Tax List	\$692,108.59
Sheriff assessments	1,094.64
Interest	1,325.98
Total	\$694,529.21
Net amount collected	\$577,556.73
Interest collected	1,326.98
Errors etc. allowed	1,804.37
Amount yet due	114,941.56

Total \$694,529.21
Of the total tax levy of \$16,407.54 for the Port of Bandon there has been collected \$13,264.25 and there is yet due \$3,050.71.

Of the total tax of \$10,679.50 levied in the City of Coquille for 1916 there has been collected \$8,833.71 and there is \$1,845.79 remaining to be collected.

In the Coquille school district, No. 8, of a total of \$8,567.23 taxes, there has been collected \$7,086.73 and there remains to be collected \$1,480.50.

Creamery Meeting Tuesday.

F. E. Conway asks the Sentinel to announce that there will be a meeting of the patrons of the Coquille Valley Creamery and the business men of Coquille at the creamery at 11 o'clock next Tuesday morning.

The question to be discussed is an important and in fact a serious one, nothing less than whether the creamery shall be continued in operation or shut down. Owing to war conditions and what is claimed to be the attempt of a Portland company to absolutely control the dairy products business in this state, prices have been rendered so uncertain and erratic that it is claimed the creamery will have to be run at a loss if it is kept in operation longer; and it is in order that all parties interested may get together and discuss the situation and decide upon the best course to pursue that this meeting has been called. The dairy business is so vital to Coquille that it is hoped all our business men will accept the invitation to attend this meeting.

Bargain Days For Telegram.

The remainder of the present month until Dec. 1, is the bargain period of the Evening Telegram, and we can make subscribers of the Sentinel a special rate for the two papers for that time. The Sentinel price is \$1.50 a year and the bargain price of the Telegram is \$3.75 a year. This makes \$5.25 for the two, but we can make the combination to our subscribers at \$4.75. And not only will that pay for the Sentinel and the Daily Telegram both one year; but we will add to that for good measure a three years' subscription to the Oregon Farmer.

The offer of all this for \$4.75, however, will not be good beyond Nov. 30. Better fix it up at once if you want your papers at a low price.

Talk With an Old Belgian.

Chris Torres, who lives a couple of miles down the river, grew up in Belgium very near the German line, and he talks so interestingly of conditions in that region we believe it would be well worth while to induce him, if possible, to tell some of his recollections to the classes in our city high school. He says that his grandfather was a soldier under Napoleon and that when the Franco-German war began in 1870 the old man hurried, thinking the result would be that the country would become a part of France again as it once had been.

Mr. Torres' father drove a wagon over the hills from Belgium into Germany and back for fifty years, making the trip several times a week, more frequently in the summer, less frequently in the winter.

Of Mr. Torres' eleven brothers and sisters, seven lived in Belgium and four in the adjacent section of Germany. He knows that in some of their families all the men have been killed in the war; and of the fate of others he has heard nothing. Practically everyone in his section, he says, learned to speak three languages, French, Dutch and German; and it was common for French and German speaking families to exchange children for a time, in order that they might more easily and quickly familiarize themselves with the languages they needed to learn—for in order to do business, even, it was necessary to be able to speak these various languages.

Jack Goes to Gold Beach.

Jack Guyton and John Juza and family started on Tuesday for Gold Beach where Mr. Guyton takes over the Gold Beach Reporter and Mr. Juza becomes manager and editor. The paper will be incorporated with Mr. Guyton holding the controlling interest. The Reporter is the official county paper and has a good patronage from the county and also receives considerable business from the land office, in publication of land notices, mineral and homesteads. They go from Bandon in one of the new cars Mr. Catterlin is taking down the coast. Mr. Guyton returns to Marshfield the latter part of the week, and he will not go to Curry county for the present, at least, to identify himself with the Reporter. Mr. Juza has worked at Coquille and was recently with the Coos Bay Harbor at North Bend. The Reporter will install a linotype, and thus increase its efficiency.—Record.

OLD MAN LIKES TO HUNT.

Seen at It For Seventy Years and Does Not Intend to Stop Now. Chicago.—"Been hunting for seventy years, and, by George, I don't intend to stop now!"

H. H. Harmon of Bluff, eighty years old, but a sportsman still, made the statement the other day when he appeared before City Clerk Davenport to secure a hunting license.

Harmon, according to his conversation, had tried to secure a license at Jacksonville, Petersburg and other places nearer his home and on failure there had gone to Springfield for that express purpose.

Mr. Davenport in explaining the reasons for Harmon's failure to get a license said that it was probably due to the fact that the license blanks and forms had not yet been distributed to the places where the old gentleman had tried to get his permit.

FORM REGIMENT OF WOMEN.

Soldiers' Wives in Oklahoma and Texas Ready to Go Abroad.

San Antonio, Tex.—An organization of women in Texas and Oklahoma has been quietly formed and offered to the government as a regiment to go to France and if necessary to fight in the trenches. The women are the wives of soldiers in the regular army, national guard and of men who are entering the national army. They enroll their membership to train and enter the army either as a fighting unit, 1,500 strong, or for such other service as the war department may designate. Believing the war department would not accept them as a military organization similar to the Battalion of Death of Russian women, they are taking the places of the men soldiers on guard duty, patrol and scout work and other service for which women are especially fitted.

CAT SELF IMPRISONED.

After Three Days' Search Pussycy is Found Near Roof of Church. Woodford, Me.—Walter E. York's cat wandered, and it was not until after three days' search by members of the household that it was discovered in the partitions of the Universalist church, so near the roof that boards had to be ripped up to reach the animal.

Every place in the neighborhood where a cat might hide or become concealed had been visited by the York family. Then some one suggested that it might have been locked in the church. There they could not see the cat, but heard a faint meowing. Only after considerable difficulty was the location of the animal discovered. The triumphant procession home was preceded by a very hungry puss.

AMERICANISM.

That in us which more distinctively than anything else we can call Americanism—our faith in humanity, our love of equality. One cannot claim that Americans of English origin are alone the depositaries of this belief, this passion. . . . The ideal America, which is the only real America, is not in the keeping of any one race. Her destinies are too large for that custody. The English race is only one of many races with which her future rests.—William Dean Howells.
