A Marshfield butcher shop has had to quit business because its most customer, Henry Hehn, is an alien German and the shop is in the prohibited area. Here's One on the Censor.

That's a mighty interesting letter about a transatlantic trip on an American transport, Earl Isensee wrote to his parents here and which we publish elsewhere in this issue. But it certainly looks as if the censor who deleted a few words in that letter wasn't on the job. He very carefully blacked out Earl's statement as to how many troops were moved the twenty-odd miles from Hempstead, Long Island, to New York City to embark on that flotilla, but allowed the information that the ship Earl was on carried 5,000 men and that there were seven ships in the fleet, to pass unchallenged. From what Earl writes there seems to be little doubt that his ship was one of the interned German liners—probably of the Hamburg-American line, in which Billy Hohensollern owns considerable stock. When the German divers fail to attack such a fleet conveyed only by a single destroyer, it looks as if something had put the fear of the Lord into the hearts of the Kaiser's captains.

Attends Aunt's Funeral.

Judge Watson went over to the Bay yesterday to attend the funeral of his mother's sister, Mrs. Annie E. Short, who died at Mercy Hospital Tuesday night after a lingering illness. She leaves three sons and a daughter, all living in Marshfield, except one son at Lake-side. The funeral services were held at the Presbyterian church and the interment was in the Odd Fellows cemetery.

Hawk Gets China Pheasant.

As a possible explanation of why the China Pheasants have failed to multiply as rapidly in Coos county as they do up in the Willamette valley and in Idaho, where they are a great nuisance to farmers, Lens Leneve tells us of shooting a hawk which lit among the tussocks where he was duck hunting. When he went to pick up the hawk he found the partially eaten carcass of a China pheasant rooster which the hawk had killed.

OFFERS TO FIGHT FOR A DRAFTED BROTHER

President Receives Patriotic Letter From Indiana—Cannot Be Accepted Under Draft Terms.

Terre Haute, Ind.—Robert C. Copeland, refused permission by a local selective draft board to take the place of his brother, who had been drafted, wrote direct to President Wilson.
Lieutenant Colonel Hugh S. Johnson, Judge advocate to Provost Marshal General Crowder, to whom the letter was referred, sent the letter to Adjutant General Smith of Indiana, with this comment: "The case of Robert C. Copeland is most interesting, and he is to be highly commended for his fine spirit, but under the selective service act substitution of one person for another is absolutely prohibited. I will thank you to notify Mr. Copeland that his patriotic offer could not be accepted for this reason."

Young Copeland wrote to the president as follows: "I know I am asking you a great favor, but if you will but read it over and think out what I am trying to let you know I think you will treat me all right. There are three boys of us—Curtis, twenty-five years old, married and living in Pittsburgh; Rea, twenty-three years old, lives at home and makes good wages; I, twenty years old; at home and learning the plumbers' trade at \$6 a week.
"My grandmother is seventy-two years old; my father died when I was seven months old, and my mother died last September. When you called for the new army Rea was drafted, and I am asking you if you can fix it so I can take Rea's place. I am in good health, good ears and good eyesight and don't touch any kind of intoxicating drink. I will lay down my life for the dear old flag.
"Now, Mr. Wilson, you can see for yourself that I am doing right, for you know I could not support my grandmother on \$6 a week. I am writing to you without saying anything to Rea about it. If you can, please let me know at once."

INDIANS IN AUTOS.

Many From Oklahoma and Nebraska Attended an Iowa Dance.
Marshalltown, Ia.—When Longfellow wrote of Hiawatha and his long journeys afoot into the land of other tribesmen the poet never dreamed that some day, and not so many years thence, his Indian brothers would be traveling by automobile.
The big powwow celebrating the harvest, or corn dance, of the Meskwakis, near Tama, is over, and in attendance at the celebration were several automobile loads of Nebraska and Oklahoma Indians, who many years ago were a part of the Iowa Sac and Fox tribe, from which the Meskwakis sprang.
The Indians drove good cars and left over the La Crosse, Tama and Kansas City trail for La Crosse, where they will visit friends among the Wisconsin tribes.

The Term "Prime Minister."
"Prime minister" is one of the many terms in English which seem to have been slung at one time. It was first applied to Sir Robert Walpole, but in a reproachful sense. Feb. 11, 1742, after twenty years' tenure of office, Sir Robert resigned all his employments; "Having invested me," he remarked, "with a kind of mock dignity and styled me prime minister, they impute to me an unpardonable abuse of that titular authority which they created and conferred." Such a personage as the prime minister or the premier is not even mentioned in the official table of precedence and is unknown to the written constitution of Great Britain.

I have used them off and on now for the past two years. They not only regulate the action of the bowels but stimulate the liver and keep one's body in a healthy condition," writes Mrs. Benjamin Hooper, Auburn, N. Y.
