About Constipation. Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.

De Laval

CREAM SEPARATOR

They can't fool the creameryman.
He knows which machine skims cleanest, costs the least to keep in good working order, and lasts the longest.
He has to know. The wrong separator might easily mean a loss to him of several thousand dollars a year.
That's why 98 per cent of all the separators used in the world's creameries and milk plants are De Laval's.
It's just as important to you as it is to the creameryman that you make no mistake in your choice of a cream separator.

98 per cent of all Separators used in the World's Creameries are DE LAVALS

Why not be guided by the creameryman's experience.
The terms on which we sell a NEW De Laval are liberal. The machine will pay for itself out of its own savings. Come in and examine it before you buy. We'll be glad to talk it over with you.

Coins for Bullets. Secretary McAadoo has just received a letter bulging with German coins deposited to the account of W. Hohenzollern et al, though not through the regular banking channels. The letter is from a woman in White Bluff, Tenn., and she says: "I am sending you by mail 76 German and other coins; you will please place them in one of the munitions works where the metal will be made into bullets for the kaiser and his allies, paying him with his own coin. I have had these coins many years and it occurred to me it is a good use to make of them."

Items From Arago.

The Norway and Arago young ladies played basketball Saturday night at Arago hall. The game was won by Arago which causes these ladies to hold their heads very high—until the next game.

There was quite a large number of people at the Roy schoolhouse Sunday to meet the Thrift Stamp workers from Coquille. There were twelve speeches all of which were very instructive and interesting, which has set the live wires working in all directions.

The Coquille workers were at Arago and Fishtrap Saturday.

The school children of the Roy district are cutting gun wipes from flannel, three inches square, for the soldiers. The smaller pieces are cut and used in pillows for the Red Cross hospitals. The children are very enthusiastic in working for the soldiers, but they could hardly be expected to be otherwise when everyone is so energetically working about them. There are twin Beans at Roy, Clara and Clarence of eight years. Clara has nearly finished a soldier's sock, which is done very neatly, and Clarence is learning to knit. He walks over to the schoolhouse every time the knitting club meets so that he may carry the suitcase of finished socks for the soldiers up to Mrs. Wimer's, thus doing his bit.

A Hint to the Aged.

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

The Commercial Club meets every Wednesday evening at 7:30. Everyone invited.
