How to Care for Your Hair

TIME was when it was considered sufficient to wash the hair occasionally, and that nature would do the rest. That old theory has been exploded.

As well believe a drink of water will sustain the human body as to think that merely washing the head will keep the hair in proper condition.

Rexall "93" Hair Tonic

is valuable in the care of the hair, because it offers the needed nourishment for the delicate cells and pores and invigorates the scalp, and stimulates its circulation. It adds to the luxuriance and soft silky glossiness of the hair, making it easier to dress. It also helps to preserve the natural color.

Harmony Quinine Hair Tonic

An invigorating, health giving, treatment for the scalp, containing all the ingredients for the eradication of dandruff and to prevent the hair falling out.

To get the best results from these or any other hair tonics, the scalp should be cleansed once a week with Rexall "93" Shampoo Paste, or Violet Dulce Shampoo Crystals. Easy and delightful to use.

How They Kept Them There.

Mr. Curry, of the dairy division of the U. S. Department of Agriculture, was one of the speakers at the Barn opening picnic at the Perkins' place down the river last Saturday. Mr. Smith introduced him as a handsome man and an unmarried one who would especially enjoy the evening's fandango.

When Curry came to the bat he proceeded to play for even. He had a dream the other night, he said, and went to heaven. Before he came down here he had been hearing a great deal from Mr. Smith about the sort of a dairyman's paradise Coos county furnished and that might or might not have affected his visions of the night.

At any rate, arrived in the celestial realm he became lost in admiration of its beauties and entranced with its delights. St. Peter was at hand with a "Seeing Heaven" car to show the newcomer all the sights, and one landmark after another within the pearly gates was pointed out while group after group of the happy hosts were passed enjoying all the delights of the life supernal. But all of a sudden a strange and startling sight met their gaze—a group of men, who with ball and chain attached to their legs, looked as if they had just been convicted of some misdemeanor in a police court on earth. Among this chain gang bunch he recognized his old friend Smith, and turned at once to St. Peter to inquire.

"What have these men done to be undergoing such penalties here in the realms of bliss?"

"Those men," his mentor replied, "are all from Coos county and if they were not restrained in some way would be back on the Oregon coast in a jiffy."

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by P. J. Chesney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

The McKinley Red Cross.

The list of workers in our Red Cross last Friday were as follows: Mesdames Walter Lawhorn, Myrtle Glenn, Lawson Lawhorn, Alva Brown, Lee Mast, Wm. Forbes, W. H. Bunch, Chas. King, Georgia Bunch, Anna Wilcox, and Arthur Brown. Several were absent on account of sickness. Five pajama suits were completed. We are getting our workers classified so that we accomplish much more in the same length of time than we did before.

The Red Cross extend their thanks to Mr. Frank Snow for the \$2.50 which he donated this week.

Mr. and Mrs. Walter Lawhorn expect to move to Powers about April 1st. They will be greatly missed in the community.

Mrs. Lee Mast donated a cutting table. Our work room is still in need of one more.

At the close of our meeting Friday we noticed a Tub Brigade coming up the road. It turned in at the hall and upon inquiry was informed that it was "scrubbing day." The men from Aasen's camp had, after their day's work was done, carried up six wash tubs of water, three hot and three cold. Besides that they donated their help in scrubbing our work room, which greatly improved its appearance.

Mr. and Mrs. Bud Ingram and family expect to move to Powers soon. Mrs. Ingram's cheery smile as well as her help will be missed at our meetings.
