Commissioner Commended.

Judging from the endorsements that County Commissioner Geo. J. Armstrong is receiving throughout the county he will again be nominated. His home community, which has not been slighted in road work during the past few years, should show like appreciation of his services. There has been considerable agitation in the county at different times to beat Armstrong. Accusations of a wild nature have been heard. But whenever an investigation was made the charges and the accusations vanished into thin air. He has always stood ready to be investigated, which together with the fact that nothing has ever been proven against him, is a pretty good indication that he has been on the square.

Mr. Armstrong has gained valuable experience in road building in this county during the past eight years, it would be nothing short of sheer waste to turn him out and put in an absolutely new man who would have to acquire this experience.—Bandon World.

Geo. P. Laird,
Republican Candidate for Sheriff of Coos County.

The Huns Have Come! Many may have heard the report of the terrible blasts of dynamite which caused the earth to tremble in the vicinity of the Stauff ranch Tuesday evening about dusk that the Huns had surely come; but it was given to express the hearty wishes to the newly weds, Mr. and Mrs. William Stauff by their many friends. They are both early pioneers of Coos county and were married Thursday, April 25, at the home of the bride's parents, Mr. and Mrs. J. S. Root, of Montague, Cal. They arrived at Fishtrap via the river boat Monday afternoon, where an auto met them and conveyed them to their home at Arago, while their many friends were waiting to greet them with a hayrack of old shoes, rice, potatoes, etc. at the Arago wharf. They were hunted down, however, and a jolly time was the experience of all present. Refreshments were served in the evening and music enjoyed. From the Arago Sunday School they received a highly appreciated gift of silver and cut glass.
