Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars Free. All Druggists, The F. J. CHENEY & CO., Toledo, O.

More Cordiality Urged.
Mr. Editor:—Having been a soldier a short time away from home during the Spanish-American war and located at Camp Ship, Anniston, Alabama, I know a soldier appreciates the hospitality of the homes near where soldiers are quartered and as I was invited into and partook of the unselfish hospitality of some of the finest homes in that city, I know how these volunteer soldiers who are here in our midst, doing their bit at this time, would appreciate being taken into your homes here in Coquille and made to feel that they are royally welcome to the best we have. As for me I feel I owe a debt of gratitude to the people of Anniston, Alabama, for the manner in which they treated me and I solemnly promised them that if I ever was in my power to hand back to the soldiers, especially soldiers from the Southland, where hospitality is the rule and not the exception, I would, and the opportunity has come to Coquille to do that this time and I am glad it is being talked up in the Red Cross of our city. I should surely urge that each home in the city seek out some one or two or three soldiers among us and extend to them only such hospitality as we would want others to show to our boys who are at this time far from home doing their bit for Uncle Sam. And these boys are nearly all volunteers, not in the Spruce Division to keep out of active service in France, but in the Spruce Division because rejected on account of physical defects. They have tried vainly to get into active service on the battle front. So they are every whit soldiers and are here working to help get out timber for planes to help whip the stuffing out of the Hun and we owe it to ourselves as a patriotic and loyal community to see to it that these brave boys are given a royal welcome to our city and our homes. Respectfully—A. T. Boldon.

Patriotic Duty to Hold Bonds.
To successfully finance the war it is necessary that owners of Liberty bonds hold their bonds if possible. Where for any good reason it is necessary for them to turn their bonds into cash they should seek the advice of their bankers.
Liberty loan bonds are very desirable investments, and crafty individuals are using various means to secure them from owners not familiar with stock values and like matters. One method is to offer to exchange for Liberty bonds stocks or bonds of doubtful organizations represented as returning a much higher income than the bonds.
There are various other methods used and likely to be used, some of the gold-brick variety and others less crude and probably within the limits of the law. All offers for Liberty bonds except for money and at market value should be scrutinized carefully. The bonds are the safest of investments and have nontaxable and other valuable features.
To hold your Liberty loan bonds, if possible, is patriotic. To consult your bankers before selling them is wise.
