Big Crop of Evergreens Canned

(From J. L. Smith's County Bulletin)

Hundreds of tons of Evergreen blackberries have been going to waste in this county each year, but this year the little canning factory at Myrtle Point came back to life and from the following report from that factory it shows that it did manage to save part of the crop this year even though it was difficult to get people to pick them at 5 cts. per lb.

The cannery also put up quite a lot of prunes and pears for which there has not been much of a market heretofore.

Report of amount canned at the factory:

Gallon Cans	
Evergreen blackberries	3838
Italian Prunes	3829
Pears	1467

Total 9133

Mr. A. C. Chase, the superintendent, expects to enlarge his plant next year and handle a greater quantity and variety of fruit and some vegetables, especially the "Burpee's Stringless" bean. He agrees to furnish this variety of bean seed to the farmers at cost and has asked this

office to help him in getting the seed distributed to those who will agree to grow it for the cannery.

We believe this is a business, which deserves more attention and support from everyone in the county for there is an awful lot of all kinds of good fruit going to waste here every year but if more will become interested in trying to prevent such crops from being lost, such a factory may save thousands of dollars to this county.

For Sale or Rent.

The Robt. Tyrrell place at Arago, consisting of one hundred and seventy-three acres, now under lease to Clarence Schroeder. For further particulars apply to Geo. E. Hanson, 3414 Fortuna, Calif.

Calling Cards, 100 for \$1.00.

Chamberlain's Tablets.

When you are troubled with indigestion or constipation, take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition.

Watchmaker—V. R. WILSON—Optician DO YOUR CHRISTMAS SHOPPING EARLY

Wrist Watches and Swiss Watches and all grades of American watches skillfully repaired

Glasses fitted, Optical Examinations with eye tests. Special Lens Dispensing.

East Park Items.

Bonnie Laird is in the Graves Hospital at Coquille. She was operated on for appendicitis and is getting on well.

Kenneth Laird, a cousin, who is in the same hospital and was operated on two weeks ago, will be well enough to be brought home in about a week.

Born Nov. 5 to Mr. and Mrs. Thomas Krewson, a son. Tom is at Camp Lewis. Mrs. Krewson is at the home of her parents, Mr. and Mrs. James Benham.

Tuesday night Mrs. Colfax, Harry and two children were returning home with Henry Charlton in his car and had stopped a short distance above Mountain Glade ranch. When Mr. Charlton cranked the car he thought he had it in neutral, but it was in reverse, the car ran back and the hind wheels went over the rock cribbing and the car hung by the fore wheels. It hung so that the hind wheels did not get a grip on the ground and thus a serious accident was avoided. They walked on to Charles Shepherd's where they stayed over night and in the morning Mr. Harry came down with his team and hauled the car into the road.

That is great news that Turkey and Austria threw up the sponge. Billie 2, me boy, all you have left is your "Kultur" and your "Frightfulness" and they only carry you in one direction—down the shaft. R. A. E.

Items From Arago.

J. D. Carl with his truck delivered at Myrtle Point 318 cases of cheese from his Arago and Myrtlewood factories Friday and Saturday for shipment to Seattle, total weight being 12 tons. This shipment of cheese nets better than 35 cents per lb or \$3,400. The above shipment is about two thirds of the October output. Mr. Carl says the milk supply at the factories is holding up exceptionally well for this season of the year.

Mr. Gouthier and son, Grover, are the happy possessors of a new Buick and are now wishing for summer roads.

Miss Hockema, the teacher of lower Fishtrap, who has been quite ill with the influenza, is now able to sit up. Mrs. Priscilla Robison and Mrs. Jim Robison, who been ill, are recovering. They are all of the same house.

Mr. and Mrs. Barnett, of Fishtrap, accompanied Mrs. Barnett's nephew, Zack Grant, in their auto to Grenada, Cal., last week.

E. A. Wimer has sold his ranch on the river where they have been living to Mr. W. E. Cross, who will take possession as soon as Mr. Wimer can secure their house in Coquille, where they will move.

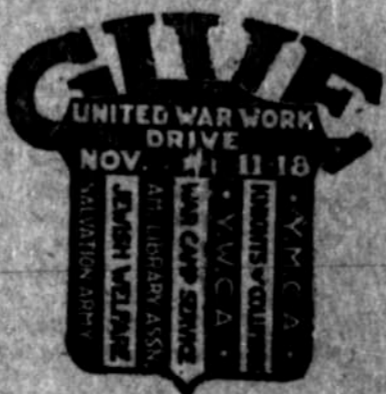

The young daughter of Mr. and Mrs. Ben Knife who has been seriously ill for some time at Coquille is now recovering. They have brought her to L. A. Pinkston's for a while.

The E. M. Beckham camp at Upper Hall's Creek has closed operation. The rains hindered them from getting quite all the timber they had cut in the woods out, on account of bad roads.

Many Donations Received.

The collection of canned fruit for the Louise Home and the other homes under the same management grows apace, but many jars are promised, which have not yet come in. It is now necessary to get the lot together in order that we may know how many barrels to order. We figure on shipping just before Thanksgiving. Canned vegetables, pickles and other things are also acceptable. The donation may be left at the Red Cross headquarters, or as heretofore, with Mrs. H. L. Johnson or with me. Each donor is requested to put her name on jar.—Frances E. Epperson.

Butter Wrappers and Trespass Signs at the Sentinel office.

A Dream of What May Be

Editor Sentinel: The Civics class in our High School have been taking considerable interest in the appearance of Coquille, and has often discussed the possibility of some definite steps toward making it the beautiful spot which it might be. As a member of the class I should like to ask the community if such a dream as this may not come true:

"It was in the year 1920. I was returning home after an absence of two years. When the conductor called out the station, "Coquille," I roused myself from my slumber and began to gather my things together. When I had started up town I began to think that I had gotten off at the wrong place; for there were paved streets clear up to the depot and on both sides of the street from the depot to the city were attractive parkings. The parkings were well kept, beautiful and green. Lovely shade trees bordered the walks. Instead of finding the bankings rugged and steep, they were leveled off and planted in green lawns. Beautiful buildings were standing in many of the vacant lots.

"As I passed on up town I noticed that the streets were free from rubbish and on every corner were the names of the streets. What was my surprise to find a new concrete hotel. The street by the hospital was paved. All the burged and dilapidated buildings were cleared away. It was with great joy when I beheld the new High School, with its flowers and lawn.

"As I wandered over the town I noticed all of the vacant lots were cleared up and planted to some useful crop. I was told that a new and better water system had been put in so people could have plenty of water for irrigation. Finally I found my own home and came to the conclusion that I was in the right town."

The realization of such a dream may not be within our reach immediately; but the first step is entirely feasible. Why can we not have a "clean-up day?" We should all feel a lesser pride in our town if we unite to clean parkings and vacant lots some day not far distant. Will not some one take the lead in planning a "clean-up day?"—Audrey M. Stanger.

Notes From the Ranches

From Coos County Bulletin
Jas. Landrith on Coos River has just finished harvesting 2,000 bushels of potatoes from five acres. This is some yield, the best we have heard of in the county this year. This variety of spuds is known as the "Early Bunkers." Mr. Landrith got his first start with this variety four or five years ago when someone sent him just four of the potatoes from New York, and they have been yielding good each year since.

We would suggest that some of our potato growers might do well to get hold of some of this seed from Mr. Landrith.

J. C. Hervey & Sons at Leo have recently imported a herd of twelve registered Jersey cows.

John Haga, near Parkersburg, sent to this office a fine sample of the third cutting of rye grass about thirty inches high cut from his field on Nov. 2. Mr. Haga is cutting some of this each day for green feed, it is a heavy growth.

J. L. Stevens and Geo. Clinkenbeard, from Coos River, have leased the fine big dairy farm of J. C. Watson 1/4 mile north of Coquille and have just brought in from the outside a foundation herd of fourteen registered Jerseys.

Hardy Mast, of Leo, and W. D. Newton, of Coquille, have each fixed up a drying room for seed corn, where it can be heated up right with steam pipes from a little boiler.

Jobs for Conscientious Objectors

In the future all conscientious objectors will be sent to France to do necessary agricultural and non-military work, according to the War Department.

At present these men are given domestic employment in the camps and elsewhere. They are allowed no more than the army wage, any surplus they earn going to the Red Cross, the council announced.

Sorghum For Sweetening.

(From J. L. Smith's County Bulletin)
Do you want some sorghum, good old fashioned molasses, the pure and sweet, on your hot cakes in the morning? Then why don't you raise cane and make your own syrup and save money for you know that sugar and all kinds of sweet stuff are too high to buy?

Last spring we started the battle cry, "raise cane," as a substitute for sugar. We are pleased to state that the following farmers have given it a trial this year with good results:

- Selden Warner, Broadbent.
- Fred Massey, Broadbent.
- Jack Hartley, Broadbent.
- W. R. Roselle, Broadbent.
- Milton Hoffman, Broadbent.
- Joe Mast, Broadbent.
- W. A. Fish, Bancroft.
- Will Lett, Bridge.
- D. W. Baker, Leo.
- Chas. Watson, Dora.

Forty gallons of good thick sorghum was the yield from just 1/4 of an acre, exact measure raised by Joe Mast. This would be at the rate of 160 gallons per acre, which would amount to \$240.00, figuring it at \$1.50 per gallon, which was the price Mr. Mast got for all that he did not want to keep for his own family.

Selden Warner had 65 gallons from 1/4 of an acre and Dave Baker made 12 gallons out of a little patch not much bigger than his hand. We haven't heard yet how much molasses the other men made.

When molasses is made right it is just as clear and sweet as any syrup and has a flavor hard to beat, but we have eaten some awful punk sorghum, strong and black, simply because it was not watched closely enough during the making.

Cane is a three-in-one crop, that is, it can be grown for sorghum, silage and seed. It yields an abundant amount of green feed, which makes fine silage and produces much seed, fine for chicken feed.

To those living in the warmer parts of the county we would suggest that they get a little seed from the above mentioned men and try it out next year. If it does as well for everyone as it did for them, we believe next year we ought to start a slogan, "Raise Cane," which we think sounds more war-like than the much used term "Carry On."

Portland Market Report.

Portland, Nov. 4, 1918.—With a light run of 1600 head of cattle in the Stock Yards at North Portland over Sunday, the week's trade opened in a healthy condition. The middle grades a shade higher. The run of cattle today is mostly good to choice and competition is strong. Quotations are: Prime steers, \$12.00-12.50; good to choice steers, \$11.00-12.00; medium to good steers, \$9.75-11.00; fair to medium steers, \$8.25-9.25; common to fair steers, \$6.00-8.00; choice cows and heifers, \$8.00-8.50; medium to good cows and heifers, \$6.00-7.50; canners, \$5.00-4.00; bulls, \$5.00-7.50; calves, \$9.00-12.00; stockers and feeders, \$6.00-8.00.

The run of hogs over Sunday is approximately 2500 head, the majority of which are choice well finished stuff. The order buyers are in the alleys today and the market is strong to 35 cents higher. Quotations are: Prime mixed, \$17.50-17.75; medium mixed, \$17.00-17.25; pigs, \$15.50-15.75; bulk, \$14.00-15.00; bulk, \$17.40.

1500 head of sheep and lambs arrived in the sheep alleys over Sunday, trading is steady and the market on lambs has righted itself to the extent of a 50 cent rise over previous quotations: Prime lambs, \$11.50-12.50; fair to medium lambs, \$8.50-10.50; yearlings, \$10.00-11.00; wethers, \$9.00-10.00; ewes, \$6.00-8.50.

At the Mouth of the Coquille

That the improvement at the mouth of the Coquille river are bringing results was proved last Wednesday, says the Bandon World, when Captain L. Christensen while sounding on the bar found 20 feet of water at the shallowest place. The soundings were taken at a medium high tide. The tide was 7.3 feet. The soundings were made from the tug Kihyam.

Cured at a Cost of 25 Cents.

"Eight years ago when we first moved to Metton, I was a great sufferer from indigestion and constipation," writes Mrs. Robert Allison, Metton, Ill. "I had frequent headaches and dizzy spells, and there was a feeling like a heavy weight pressing on my chest all the time. I felt miserable. Every morsel of food distressed me. I could not rest at night and felt tired and worn out all the time. One bottle of Chamberlain's Tablets cured me and I have since felt like a different person."
