

Paint Makes Housework Easy

Bare, unfinished floors require almost daily scrubbing. Paint makes scrubbing unnecessary. Dirt, grime and grease clean perfectly from this smooth hard surface without the back-breaking work of scrubbing.

ACME QUALITY

FLOOR PAINT

gives a durable, non-absorbent, sanitary finish for floors and for any inside surface to be walked upon. It is inexpensive and easy to apply—a quart is enough for one coat on the average kitchen floor.

The Acme Quality Painting Guide Book tells all about painting, varnishing, and waxing floors—what to use, how much will be required and how the work should be done. Free at our store.

Lower Postage in Two Months.

Two months hence, or on June 30, the rates for postage will drop from three cents to two cents on letters and from two cents to one cent on city letters and all postal cards. In view of this impending change

Postmaster Leneve says he has received instructions to run his stocks down as low as possible before July 1, and it may be that three-cent stamps will be off the market before that time as it only requires a little more licking to replace one of them with a one and a two.
