Pig Club Meeting Saturday

H. C. Soymour, state club leader, and E. R. Peterson, county industrial club leader, were in town Wednesday, the former having come into Coos county the day before for a visit with each industrial club in the county.

A meeting of all the local industrial club leaders is to be held at Catching Inlet tomorrow, at which all these leaders, and representatives from the banks and newspapers of the county are invited to be present. The meeting is for the purpose of arousing greater interest in the industrial clubs, and outlining to the leaders what policy the clubs should pursue. A big chicken dinner given by the people of the Catching Inlet district is one of the big attractions on the day's program.

A special boat will leave Marshfield just after the arrival of the morning train, at the Bay and from the time the boat leaves there until its return those attending will be the guests of the Catching Inlet people, and the Bank of Southwestern Oregon, which is financing the excursion.

Road Located in the Ocean

The Larson Inlet road case was recently heard by Judge Coke, when it appeared that the papers were so defective that they described an impossible line with one end somewhere in the Pacific ocean. The case was thrown out of court and the county will have to start afresh if it is to get a road up the Inlet across Mr. Larson's land. Who drew or approved the original papers we are not informed, but will try to learn.

Prof. Horner on Holy Land

Prof. J. B. Horner, head of the history department at O. A. C., came over here Tuesday morning from the Bay and made a talk at the high school in the afternoon and in the evening gave his illustrated lecture on the Holy Land to a large audience at the Federated church. The pictures were mostly taken by Prof. Horner and his talk in connection with them proved especially interesting, a vein of humor running through it all. Those of us who have not seen Palestine, and hardly expect to, were gratified to see the hundred views of the country from Joppa to Jerusalem and Jericho including the holy sepulcher and the garden of Gethsemane.

The Professor recalled a former visit made to this county 25 years ago and was met and greeted by a number of people who remembered his former visit. He said that he was in the habit of visiting this section regularly every quarter of a century.

Prof. Horner's main object in this trip was to arouse the interest of our young people in O. A. C. and the industrial courses there taught. It was astonishing to learn from him that the number of students registered at the college this year is 4057, and yet he says there are ten positions waiting to be filled by each graduate.

While the country demands a certain number of professional men, yet for every doctor, lawyer or preacher, he asserted that from 300 to 500 trained industrial leaders are needed. He went on to say in his talk with us that the agricultural colleges are co-operating with the churches of the nation in the great new era movement in equipping young men and women to be the greatest possible service to the world. America is the one granary to supply bread for mankind. The demand for intelligent industrial leaders has never been equalled, in feeding and clothing a hungry world.

There are now registered at O. A. C. fifty-four students from Coos county, the list comprising twenty-three from the Coquille valley as follows:

Coquille—W. A. Ball, E. E. Fraedricks, A. L. Hooton, Etta McLeod, Mildred Norton, J. C. Nosler, C. H. Oerding, J. C. Oerding, Edna Robison, Lowell Simpson.

Myrtle Point—E. E. Carter, H. C. Gant, O. D. Gant, K. A. Leep, F. L. Maus, C. L. Nosler, A. E. Panter.

Bandon—S. W. Armstrong, G. C. Bord, E. F. Fish, L. N. Hadsall.

Cashier Pays Two Fines

Considerable excitement was caused in Marshfield Tuesday when W. E. Butler, cashier of the First National Bank, was arrested by Constable Goodman as he was coming up from the City of Topeka, just in from San Francisco, with a quart bottle of booze in each hip pocket. Butler tried to bribe the officer, offering to let him name his own price to hush the matter up, but the constable was adamant. Butler had to appear in the recorder's court Monday where he pleaded guilty to violating the city booze ordinance and was let off easy with a fine of \$25. That seemed like child's play to Justice Joehnk, however, and he had the cashier pulled again under the state law and stuck him for \$100. Booze appears to be costing a good deal at the Bay now, and if all officers charged with law enforcement did their duty as faithfully as Goodman and Joehnk times would soon get pretty dry even over there. Yet one of the papers there whines about "persecution" when a way up offender is let off with mere fines instead of being sent to jail as a hobo who was guilty of the same offense probably would be. Prohibition will be enforced in this nation some day without discrimination and then it will be about as hard to get a bottle of Cyrus Noble whiskey as to pass through the eye of a needle.

20,000 Yards of Slides

Roadmaster Sawyer had a couple of crews out yesterday at work clearing up the slides and filling the washouts on the Marshfield road. He says there are about 20,000 feet of slides to be cared for. It's a question whether the county has to do this work, after once having put the road on line and grade for paving, but the court thinks it best to play safe in the matter.

Ben McMullen, of Myrtle Point, and Joseph Murphy, of Marshfield, have been awarded the contract for cruising the standing timber of Douglas county at their bid of 9 cents per acre, and the county court has set aside \$25,000 for doing the work.

Do You Sleep Well?

To be at his best a man must have sound, refreshing sleep. When wakeful and restless at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose of these tablets and see how much better you feel with a clear head and good digestion.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.
