Lots of real estate is changing hands. One large property is advertised in the Sentinel this week—a Curry county ranch on which an upset price of \$18,000 has been fixed and for which bids in excess of that amount are asked.

J. A. Hatcher, of Fairview, and Will Matthews have both been in to warn people against buying the Ford starters. They were induced to invest about \$16 each in these much lauded appliances, and both pronounce them a fake utterly worthless on a cool morning.

Ed Ellingsen and Ed Lorenz returned last evening from a two weeks' hunt down through Curry county. They started into the hills three miles above Powers and came out into civilization again seventeen miles below Port Orford. Needless to say they found deer.

The Girls Hiking Club took a tramp out to the county farm and a picnic supper in that vicinity last Sunday. Bert Gould partook of their hospitality and then gave three of them whose feet were already blistered a lift in his car along with the empty fish fry cans.

Rev. W. E. Couper, of the Episcopal church, asks us to say that there is to be a change in the announcement for the Episcopal church here, which is already printed. He will be at Bandon Sunday morning so that there will be no morning service at the church here.

Mr. and Mrs. S. V. Epperson are enjoying a visit from Mr. and Mrs. G. A. Sutherland, of Portland, Mrs. Sutherland being Mrs. Epperson's sister. When Mrs. Sutherland was down here four years ago the Sentinel published a thrilling story of her narrow escape from being washed out to sea while coming down here by the beach route. Well those old times passed with the coming of the railroad, and a trip from Portland isn't anything like as exciting as it used to be.

Real Estate Changing Hands

Edwin Aasen has bought the old Daymont home of Miss Mary Davidson for \$2,000. This includes half a block in the bottom adjoining the Henry street bridge as well as the quarter block where the residence stands, and Mr. Aasen is being congratulated in getting one of the best properties in the city at so moderate a price. The L. P. Brantseiter family which has been living there for two or three years has rented the Kronenburg place in this block of Mrs. Ida Owen, who retains one room.

Topekans Here to Visit

Mr. and Mrs. C. L. Squier, of Topeka, Kansas, have been visiting at the Ed Johnson home here this week. Mrs. Squier and Mrs. Johnson are sisters, but it is 20 years since the Squiers have been in Coos county. It was like old times for the editor to meet a native Kansan and swap reminiscences, going way back to the grasshopper days in 1875, as well as to recall lots of mutual acquaintances in the Sunflower state.

Her daughter-in-law was called last Friday to Monmouth, so the granddaughter, Miss Nellie was hostess.

Census Figures Confidential

"That the facts and figures gathered by the enumerators, supervisors and special agents of the Fourteenth Census will have absolutely nothing to do with valuation of property for taxation purposes is a point I desire to emphasize with all possible vigor," says Director of the Census Sam L. Rogers in speaking of the forthcoming 1920 enumeration.

"Some difficulty has been experienced in the past," continues Mr. Rogers, "in getting absolutely accurate values of land and other property because of a certain amount of confusion over this point. Many people were erroneously inclined to connect the Census with taxation. We hope to avoid any such confusion this time."

The act of Congress which, under the Constitution, provides for taking of the Fourteenth Decennial Census makes it unlawful for any enumerator, special agent, supervisor or other employee of the Census Bureau to divulge any information whatsoever concerning the census returns. A heavy fine and possible imprisonment, or both, is the penalty prescribed for violation of the law.

The proper tabulated figures of the Census are given out nowhere but in Washington D. C., and then only upon the express authority of the Director of the Census Bureau.

Actual work by the enumerators in the various census districts will begin on January 2, 1920. It is expected that the population statistics of all cities and towns will be gathered in approximately two weeks. Final figures for rural districts, however, can hardly be gathered in less than a month.

Born Much Too Late

Speaking of "thoroughbred" records the Rural New Yorker says they are sometimes faked, like almost every other good thing in this world, and it instances a case where it traced down a Holstein record that did not fit the cow—in fact it made her the daughter of a mother that died several years before she was born.

See the program of the Liberty Theatre for the coming week on page 9 of this issue.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of the war, the Red Cross sent to Serbia a sanitary commission that effectively checked the scourge of typhus, but after the United States entered the conflict, the Red Cross was able, in August, 1917, to send a full commission that carried on extensive relief operations among the suffering refugees of the tortured nation. Hospitals were established, the refugees fed, clothed and given medical attention, the army supplied with much needed dental treatment, farm machinery, and seeds provided to help the Serbs redeem their land to productivity, and, not least, measures undertaken for the succor of the children. The terrible condition into which these helpless victims of the war had fallen is well portrayed by this photograph of a little Serbian girl wearing the rags and expression of hopeless dismay that were all she possessed when the Red Cross came.
