Items From Arago.

Mr. Warner, represented the Nestles Food actory from Bandon last Wednesday night at Arago hall. About 65 farmers were present. Although Mr. Warner was complimented on the manner he presented the subject negotiating for the milk from this large milk section, the farmers figured they were doing as well if not better with the local cheese factory considering the by products and convenience.

Nine of the members of the Arago Progressive club met at the residence of Mrs. C. E. Schroeder last Thursday. Miss Kalbus gave a demonstration lesson in fitting a dress model for home dressmaking purposes. There was no question as to the great need of Miss Kalbus' work in the club and as one present expressed it, should Miss Kalbus' work be discontinued we should be left as helpless as babes without a mother.

Mr. and Mrs. Wren, the Bandon light house keeper, came up the river in their launch visiting the week end with Mr. and Mrs. Glenn Collier and family and to enjoy the warmth and peacefulness of the valley as compared with the ever restless ocean.

Rev. Lewis Anderson will preach at

Arago at 2:30 p. m. next Sunday.

While cutting corn ensilage last Wednesday J. D. Carl accidentally cut his great toe, necessitating a doctor's attention.

The Progressive Club mentioned the following list of vegetables and flowers which might do well to plant now for early spring use: turnips, kale, lettuce, radishes, mustard onions, peas, spinach, cabbage, broccoli, swiss chard, sweet peas, pansies and snap dragons.

Everyone is busy as can be filling their silos since the frost.

Chester Krantz, who has been working for Henry Schroeder at Granada, California, the past summer, returned Thursday.

Perry Brewer has located at San Louis Obispo, California.

Mrs. James Allen Collier and daughter, Alice, were visiting at the Glenn Collier home the first of the week.

Rev. Mr. McDonald, the presiding elder of the U. B. church, will preach at Johnson's Mill Saturday night and at Willowdale Sunday morning and afternoon, with a basket lunch between services.

Trapped a Fat Bear.

On the upper North Fork the ranches have been having lots of trouble with bears which have been playing hob with young orchards and tearing the trees all to pieces. So M. J. Wilson and C. N. Wygant started trapping the marauders, and so far have succeeded in catching two of the bears. One caught early last week was hog fat and yielded between seven and eight gallons of oil. Mr. Wilson says the fat was 2 1/2 inches thick on the small of its back. He thinks they must have got fat on salal berries as it was too early for huckleberries to have done the work.

Some Fine King Apples

Our good fairy, little Marguerite Goodrich on Tuesday brought in a bunch of very attractive apples grown on the place of her father, George Goodrich. The Kings were the finest we ever saw, some of them being not only unusually large but red all over. A twig of Spitzbergs less than 18 inches long, was loaded with over two dozen specimens. This has certainly been a prolific year for fruit of all kinds in Coos county.

Hundreds, if not thousands of bushels of Gravenstein apples, that could have been sold for \$1.75 a bushel in this county this fall have been allowed to rot on the ground.

Nearly Half New Students

Nearly one-half of the student body of the University of Oregon, including the big Freshman class of more than 600, are new to the Eugene campus this year, according to statistics compiled by Registrar Spencer. Of the three upper classes, senior, junior and sophomore, one student out of every five started his higher education in some other university and decided later to come to Oregon. One result is an increase in total enrollment this year running nearly 70 per cent over that of the corresponding days last year.

Can Now Eat and Sleep in Comfort

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and sallow as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleaned my stomach, that time I can eat and sleep in comfort. They invigorated my system, and since then I am today entirely well."

Make Your Winter Pay Big
A VAUGHAN DRAG SAW WILL DO IT

Because it is built for long hard honest service and has more time, labor and repair saving features than any drag saw made. Investigate for yourself. The Vaughan is the only saw with the jiffy sawholder which grips or releases saw-head in instant; the only saw with metal to metal clutch that cannot burn out; the only one with the accident preventing safety angle; the adjustable Pitman-head, the single unit crank case; heavy malleable sprocket etc., that gives long life and cuts wear and repairs.
