### MYRTLE POINT ITEMS

Saul Colver, a pioneer of Oregon, passed away at his home in Myrtle Point Dec. 24. The remains will be taken to Canas Valley to be laid at rest.

Mrs. Milton Miller and baby were Coquille visitors Wednesday.

Mrs. Ethel Stewart was in Myrtle Point Wednesday from Powers doing her Christmas shopping.

Mr. and Mrs. F. D. Medlock and baby of Powers were in Myrtle Point Wednesday and Thursday spending Christmas with Mrs. Medlock's mother, Mrs. Louisa Corbin.

Mrs. Isabelle Whittington and granddaughter, Leah Gradee, went to Broadbent Wednesday to spend Christmas.

Mrs. Taylor Dement, accompanied by Wallace and Alice, who have been attending Stanford University in California, arrived home Dec. 24 to spend the holidays with Mr. Dement.

Glenn Neighdeigh, who has been going to school in Salem, returned home Wednesday to spend the holidays with his parents, Mr. and Mrs. F. L. Neighdeigh.

Mr. and Mrs. James R. Cotton, of Gravel Ford, are the proud and happy parents of a new baby.

Mr. and Mrs. W. W. Northup, of this city, are also rejoicing over the arrival of a baby.

Dewey Byers, who has been employed in the Sumerlin and Lawhorne camp at Gravel Ford, had the misfortune of breaking his leg Monday. He is now in Dr. Clarke's sanitarium.

Homer and Orvin Gant, both of Myrtle Point, returned from the Oregon University to spend Christmas vacation with their parents, Mr. and Mrs. Calvin Gant.

Charley Harris came over from Lakeside Tuesday to spend Christmas vacation with his mother, Mrs. Ida Harris.

Metta Hansen, who is teaching school on Coos River, came home to spend Christmas vacation with her parents, Mr. and Mrs. H. K. Hansen.

Elton and Margaret Corbin were in Powers Monday visiting their sister, Mrs. F. D. Medlock.

Oliver Corbin, a returned soldier from the U. S. Navy, came home from Sixes river Friday to spend the vacation with his mother, Mrs. Louisa Corbin.

Forest Marir, who has been attending Reed College at Portland, returned home Sunday to spend Christmas vacation with his mother, Mrs. Ward.

Supt. Ashcraft's mother, Mrs. P. T. Ashcraft, of Ashland, came Sunday to spend Christmas vacation with her relatives here.

Miss Nellie Barton, Mabel and Audrey Lundy, were in Marshfield Tuesday visiting friends.

Mrs. Rice, nee Hazel Carey, returned to her home in Myrtle Point Sunday where she will spend the holidays with her folks.

Mrs. J. S. Whitaker came over from Lakeside, where she has been teaching, on Monday to visit.

Karl Kauffman, went to Marshfield Wednesday to spend Christmas vacation with his mother, who resides there.

Miss Faye Wells, one of the High School teachers, went to her home in Salem Saturday to spend the vacation with her mother.

Kay Lee, one of the 1917 high school graduates and who has been attending the university of Oregon, returned home Monday to spend Christmas vacation with his mother, Mrs. K. A. Leap.

Jack Adams, son of Non. Adams, returned home Monday from San Francisco where he has been in the navy.

Miss Gladys Carter, who is attending the Willamette university, is home spending Christmas vacation with her parents, Mr. and Mrs. C. C. Carter.

Mrs. Jimmie Arrington, of this city, died at her home Monday at 4 p. m. and her body was taken to Marshfield Tuesday, where the funeral was held Wednesday.

Mr. and Mrs. T. G. Sumerlin and family, of Gravel Ford, were in town Monday doing some Christmas shopping.

Irene Hayes, daughter of Mr. and Mrs. Jim Hayes, of Gaylord, was in Myrtle Point Monday and Tuesday.

Velma Biglew, one of the M. P. G. S. students this year, went to her home near Gravel Ford Monday to spend her Christmas vacation.

Ora Carter was a Gravel Ford

## HOLIDAY GREETING

As the year 1919 draws to a close we wish to express our appreciation of the favors and splendid business extended to us by our many friends. And it is our wish that the New Year will bring to you the fullest measure of happiness and prosperity.

## The Busy Corner

visitor from Friday to Monday. Mrs. O. H. Clarke, Attorney Thompson and Mrs. Brown, of his city, were in Coquille Tuesday on business.

### Testing Sunflowers for Silage

In order to determine just how much value the sunflower has when made into silage as a producer of milk in the place of other forms of ensilage the Kansas experiment station filled one of its silos this last fall with tons of that variety of "Helianthus" which is so common to all natives of the "Sunflower State" and very shortly now will start some very extensive feeding tests on the station herd and will compare it with good old corn ensilage, peas and oats, grains etc.

Although there have been many trials made with the sunflower for ensilage this will probably be the first accurate test that has ever been made by an experiment station, and will be watched with interest.

Jim Jenkins, of Parkersburg, who came from Kansas, says he can't believe that weed to be much for silage and they will have to have some good proof before he will give up the corn.

R. M. Preasey, of Dew Valley, is having some actual experience with sunflower silage right now and he says the cows are going wild over its flavor and would eat sixty pounds if he would give it to them. Mr. Preasey is of the opinion that he can secure larger yields of this than other ensilage crops grown in Dew Valley, although he was not able to take actual weights this season.

The Ontario experiment station reports the following average production per acre for a period of 13 years as follows:

Mammoth Russian ..... 18.05 tons  
White Beauty ..... 16.18 tons  
Black Giant ..... 22.86 tons

According to the last census the United States grows 4731 acres of sunflowers commercially and Illinois grows the majority of this area with 3979 acres.

### County Agent Work Pays Big

A single Farm Bureau project in Deschutes county added sufficient wealth to the county in a single year to pay the entire cost of all county agent work in the State of Oregon for the year 1919 and one-fifth of the expense for the year 1920. The project was the sulfur project. According to authentic reports \$120,000 worth of hay was produced by a single large shipment of sulfur. The

entire cost of the county agent work for the year ending June 30, 1919, was \$100,000.

The sulfur project is one of the eight such projects being carried out in Deschutes county, and Deschutes is but one of 24 Oregon counties similarly organized.

### Improving Holstein Herds

We have recently purchased two of the very best young registered Holstein bulls that money could buy; one for Dr. Geo. E. Dix and one for Herbert H. Haines, both of Marshfield. These bulls are not only show bulls with splendid type and quality but they are backed by yearly records on both the sire and the dam's side. They were bred by Hugh McCall, of Prineville, who has the greatest producing herd of Holsteins in the state. Official yearly records on his herd throughout will prove it.

Dr. Dix has just purchased the Davis place on Coos River, which is without doubt one of the best farms in the county. Dr. Dix is sparing no money to improve it in every way and intends to stock it with purebred Holsteins and will make L. J. Simpson go some with his fine prize winning black and whites at Shoresacre. Meanwhile L. J. is not loafing on the job; he has imported a purebred Swede herdsman, Carl Lundberg, from Minnesota, a graduate of the state university and an experienced breeder and manager of Holsteins, and we predict that man will hang up some records with the Shoresacre herd. Mr. Simpson expects to increase the size of his herd right soon.

If we had a few more like L. J. and Geo. E., verily, verily this would be some dairy country. Go to it, fellows, nobody's holding you. — J. L. Smith, in Farm Business.

### Give the Children a Calf

Good cows mean good calves and vice versa. If you want to get good cows now days you just about have to get the good calves first. That may not sound like good poetry but it's true anyway.

Boys and girls, how would you like to have a nice little purebred calf for a New Year's present? A good registered heifer calf is just what you need for a foundation to give you a good start in life. If you would start now with a good pure bred heifer and take proper care of her and all of her calves and their calves and their calves' calves, it

would not be many years before you would have a fine pure bred herd of which you would be proud—a better herd of cows no doubt than the one which your father has.

Did you ever stop to think how much better your father's cows might be today and how much more money he might have in the bank if some one had encouraged him just a little when he was a boy, by giving him a pure bred calf?

Now if you are made of the right kind of stuff with an aim in life and a determination that within a few years you are going to be a real live progressive dairyman, and not just a plain ordinary farmer with old, common every day cows, which produce only about one hundred and fifty to three hundred pounds of butterfat in a year instead of four hundred to six hundred pounds and more as regular honest to goodness cows do, then here is the stunt for you to pull: Slip around on the good-natured side of your daddy or your mammy and lead them over to either the First National Bank at Bandon; the Farmers & Merchants Bank at Coquille, or the Bank of Southwestern Oregon, Marshfield, where we feel sure you can work them pretty easy for that calf, if you will promise to develop it into a high producing cow, which will some day start a little bank account for you—Farm Business.

### Good Cows Are Wanted

We have calls here at the banks right now from about a dozen dairy-men, who each want cows; their wants in this line total 69 cows. We have succeeded in locating and buying cows for several farmers recently, but the list of wants is still increasing, and we are still hunting cows. There are a few good cows on the list and we are on a hot trail of some others for sale. If you want cows, you are welcome to see the list or if you have any or hear of any for sale we would appreciate it very much if you would leave description of same on the desk of the Agriculturist at any of the three banks. — J. L. Smith in Farm Business.

Do you want a Portland daily. If you subscribe for it in connection with the Sentinel it will be money in your pocket.

Call and spend an evening at the Liberty Theatre, cozy and comfortable, and hear the \$6,000.00 Wuritzer Orchestraal Oregon with the pictures.
