FUHRMANS PHARMACY

Out of accumulated capital have arisen all the successes of industry and applied science, all the comforts and amenities of the common lot. Upon it the world must depend for the process of reconstruction in which all have to share.
 —JAMES J. HILL

The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

Mrs. E. E. Johnson Hostess

One of the most delightful parties of the season took place last Friday evening when Mrs. E. E. Johnson entertained the J. G. W. club.

The home was artistically decorated for the occasion. The living room wore an air of spring-time, greens and pussy willows were the unique decorations, while the room was lighted by the glow of many lights beneath rose shades.

The dining room was prettily adorned with poinsettias and ferns.

Delicious refreshments were served, the hostess being assisted by Mrs. W. H. Lyons, Mrs. J. A. Lamb, Miss Helen Lyons and Miss Mary Esther Johnson.

The evening was delightfully spent with sewing and music. Mrs. E. W. Lorenz favored the club with several selections.

Election of officers were:
 Mrs. H. N. Lorenz—president.
 Mrs. W. H. Lyons—sec. and treas.

The following were present: Mesdames M. O. Hawkins, C. J. Fuhrman, J. A. Lamb, W. H. Lyons, H. N. Lorenz, E. W. Lorenz, Bert Folsom, Fred Slagle, M. J. Hartson, Chas. Skeels, C. W. Endicott, O. C. Sanford, Frank McKenna, of Corvallis, and Mrs. F. G. Jennings, of Eugene.

The club meet at the home of Mrs. J. S. Lawrence Tuesday, Jan. 20.

Doubling Up On Power

A novel appearing car drove up on the streets here Monday morning, bringing V. C. Gorst, Guy Mintonye and G. R. Hart from the Bay. The car is best described as a four-wheel drive Ford, the front wheels of one car having been removed and the front of that auto bolted to another car in front.

They left Marshfield Sunday morning and arrived at John Yoakam's place that evening over the new road, coming on the next morning. They were on their way to Roseburg. They were only stuck once coming over but lost the greater part of the day in getting out of that mudhole.

MRS. BONNIE WALKER, Prop.

The woman suffrage amendment to the national constitution was ratified by the Oregon legislature Monday, shortly after it convened, without a dissenting vote. The Oregon politician that would oppose action of that kind doesn't exist.
