

# Cletrac

## TANK-TYPE TRACTOR

### No "Off Season" for The CLETRAC

There is no off season for the Cletrac. It is a year 'round investment paying you a steady interest.

When not necessary in the fields use it to do the other work that you formerly did with horses or the stationary engine. The Cletrac is a master at belt work and knows no equal at dragging dead weight.

It is ideal for orchard work and because of its small size, its short turning radius and its power, has become the standard tractor among orchardists.

The Cletrac runs on metal tracks like a

**HUGH HARLOCKER**

Coos and Curry Counties

Phone 251

Coquille, Ore.

locomotive. No extra power is required to push it through the soil. It runs on its tracks on top of the ground and consequently most of the power goes into drawbar pull where it belongs.

The Cletrac operates on a small amount of kerosene, gasoline or distillate. It does more work more days in the year and does it better, cheaper and faster.

Order your Cletrac now for prompt delivery. With it you are assured of a service fully in keeping with the machine. Send today for booklet, "Selecting Your Tractor."

#### Coquille Teachers Meeting

The Coquille Teachers' Association held its second session for 1919-20 last Monday evening at the home of W. C. Chase. The object of the meeting was to hear reports of delegates who attended the Oregon State Teachers association in Portland during the holidays.

A general outline of the program followed by the state association was presented by the chairman, Inez R. Chase. Other Coquille members, who were in attendance at the O. S. T. A. were City Superintendent R. E. Baker, County Superintendent C. E. Mulkey, H. S. Tuttle and Miss Lois Tuttle.

County Superintendent Mulkey being a member of the committee on Retirement Funds, explained in condensed form, the report given by this committee at the O. S. T. A. The report was referred to the same committee for alterations, and at the next state session a bill will be framed for the next regular session of the legislature.

Mr. Mulkey attended the county superintendents association held in Salem immediately following the O. S. T. A. His report of the way in which the superintendents would handle the school tax situation was interesting to teachers and especially to taxpayers.

The Thrift projects of the public schools are now in the hands of the county and state superintendents, and a strong influence will be brought to bear upon the pupils to save and invest.

City Superintendent R. E. Baker was very busy attending committee meetings and working out problems with others in the corridors while in Portland. The appreciation of his influence in "Placing the Schools of Oregon on a Business Basis," was evident. At the local meeting, Mr. Baker reported the resolution as adopted by the O. S. T. A. He also gave a brief history of the origin and growth of the state organization.

H. B. Wilson, city superintendent of the Berkeley public schools, was the most attractive speaker at the general assembly meetings of the O. S. T. A. H. S. Tuttle reproduced many of the attractive features of Dr. Wilson's lectures, at the local meeting. Mr. Tuttle also gave an interesting account of the address given to the state teachers by Mrs. Eva Emery Dye, who has done so much for Oregon history.

During the three day session of the O. S. T. A., the evenings were kept free for conferences, social intercourse and amusements. Fortunately on one of these evenings the wonderful soprano, Madame Tetraxini, entertained music lovers at the Municipal Auditorium in Portland. Miss Lois Tuttle experienced the great pleasure of hearing this remarkable woman, and she very kindly and vividly described to the local teachers her impression of Madame Tetraxini's personality, general appearance and above all the magnificent voice that produced, with perfect ease, the clear, marvelous tones that enchanted that vast audience.

Two members of the school board were present Monday evening and talked of the new school building that all of Coquille is looking and longing for.

With one exception all the teachers of the Coquille schools were present, also the county superintendent, county supervisor, two school directors and several visitors.

#### What Bad Booze Did to Him

The late post-mortem examination of Joe Johnson at Port Orford should be a warning to those who are drinking wood alcohol concoctions, says the Port Orford Tribune. Johnson, naturally a robust man, had softening of the brain, an enlarged heart, a diseased kidney, and other impaired organs from the heavy drinking of substitutes. And one other thought here; the men who sold Johnson the poisonous stuff are morally if not legally his murderers.

Sunshiny days and sharp frosty mornings have been the rule here this week and we have had some afternoons as genial as May. That is just the weather a good many people delight in, but the mornings don't have to be much colder to make us long for a good old Chinook with plenty of rain.

Call and spend an evening at the

### Service First Advice Second Sales Third

There's our policy in a nutshell.

First—When the customer comes in, find out what *HE* wants. Give him satisfaction at the lowest charge consistent with a good, thorough job.

Second—Tell him how to prevent battery trouble. We're not anxious to repair his battery, except to make it last longer.

Third—When he really needs a new battery we want him to buy it from us, naturally, and to buy a Willard with Threaded Rubber Insulation—because that battery will last longer and give him less occasion for expense on repairs than any other battery he can buy.

Come in and find out the wonderful service records of Willard Batteries with Threaded Rubber Insulation.

#### Courier.

Cars loaded with logs from the surrounding camps have been arriving in Powers in such numbers lately that the local yards of the Smith-Powers company, which supplies logs for the Marshfield mills of the C. A. Smith company, now has a surplus of approximately a hundred cars on the tracks.

During the last week it has been necessary to run extra trains to Marshfield for the first time in several months, but the accumulation continues. It is said that the labor situation which interfered with logging operations for some time, is now in a satisfactory condition, and that no shortage of logs is looked for in the immediate future. —Coos Bay Times.

The offer of the Sunset and the Sentinel both for one year for \$3.00 still holds good.

#### More Cars Needed

The mills operating here are feeling the effect of the shortage of cars. Unless relief comes soon it is possible that the mills will have to close down until the cars can be had. The only permanent relief is to get lumber craft to come and take the lumber away by a water route and not have to depend upon railroads for this purpose, and the sooner a move is made for this purpose the better. —Reedspport
