## AUCTION OF SOULS

7 Reels of Fact, not Fiction

You will see a film that will make your blood boil. One that will make you thank Providence that you live in the good old U. S. A. An epic film produced with 5,000 people and 83 principals. Aurora, herself, takes part in the picture. She is the human document that gives this marvelous picture its sympathetic appeal.

Scene from 'Auction of Souls'

Aurora Mardiganian, a girl of twenty, who spent two years of her life in the hands of Kurds, Slave Markets and Turkish Harems and escaped to America to relate the story.

How girls were torn from their homes by the barbarous Turks and sold in the Slave Market for sums less than an American Dollar.

How the Turkish Atrocities allow only one girl out of 500,000 to escape and tell the story.

These are but mere incidents of what you will see.

In New York, Chicago and other large Cities it was shown to adults only at \$10.00 each.

Arrangements are being made with the various Ladies Clubs to give them a large percentage of the receipts for the Armenian Relief Fund and we have agreed upon the

## Scorched!

It will happen at times under the eyes, even, of the most responsible of housewives.

It may be an overheated iron, or momentary forgetfulness—but the damage is done. The garment may be scorched beyond all further usefulness. At the very least a mark is left that no washing can ever erase.

Such scorching occurs in the home because irons must be heated by fire and electricity that attain high temperatures.

But it can not take place when you send your washing to us.

Our presses are all heated by steam which never becomes hot enough to scorch. If you were to hold a gossamer silk over the steaming spout of your hot water kettle, the steam would not injure the fabric. We use the same steam in our laundry.

With its help we are able to give a beautiful lustre to your work with never a brown-tinted scar so mar it.

We will do YOUR ironing this steam-heated way if you will send your family bundle to us. Our driver will be glad to call.

## Jersey Breeders Association

The Coos County Jersey Breeders association held their first annual meeting in the council chambers of the city hall at Coquille on Friday, Feb. 18th. Unfortunately there were not as many present as by all means there should have been, but those who were present were brimful of "pep" and much business was attended to.

The meeting was called to order at 10:30 o'clock by the president and the regular routine of business carried out after which the following officers were elected for the ensuing year:

President, John Carl, Norway.  
Vice-pres., C. D. Jarman, Bullards.  
Sec.-treas., G. E. Hampton, Norway.  
Board of Directors: I. Nordstrom, Bandon; J. T. Jenkins, Bandon; Theo. Clinton, Norway; J. F. Schroeder, Norway; Ralph Bunn, Arago; W. C. Cutler, Myrtle Point.

The president made the following appointments:

Exhibition manager, Ralph Bunn.  
Sales manager, W. C. Cutler.  
Publicity manager, C. D. Jarman.

It was voted to hold the first annual Full Blood Jersey Bull Sale at Coquille on Sat., March 13th. Anyone having a bull they wish to enter at this sale should communicate with W. C. Cutler, of Myrtle Point, at once.

A motion to adjourn was made and those present left feeling very optimistic regarding the future of the association.

Association 75 Strong.

The Coquille-Myrtle Point association has commenced tests for 1920. Seventy-five dairymen owning 1550 cows have secured the services of Messrs. L. S. Trigg and J. H. Carver as official testers to keep accurate records of their cows for 1920. They commenced work last Monday.

These records will show what each cow produces for the year and how much profit each individual cow returns.

Mr. Trigg and Mr. Carver are both local men and are familiar with local conditions which especially fits them for cow testers.

President W. C. Cutler, of Myrtle Point; Leslie Trigg, Norway; W. N. McNair, Myrtle Point; Frank Willard, Coquille; Ralph Bunn, Arago; Thos. Bell, Lee and Clarence Backus, Lee, are the Board of Directors in charge of the Association, which will work in close harmony with the Coos County Farm Bureau, after its organization on April 15.

Iowa Dairymen Cuts Down on Feed Cost by Eliminating Unprofitable Animals in Herd.

(Prepared by the United States Department of Agriculture.)  
A good example of what cow-testing associations are doing to help dairymen cull unprofitable milk producers is shown in the experience of an Iowa dairymen who reports that through the cow-testing association he learned that one cow was paying him \$2.40 for each dollar's worth of feed, while another returned only 58 cents. This dairymen lost no time in selling the poor cow and five others which showed by test that they were not paying for the feed they consumed. This year he will be able to produce milk at less

cost, thus increasing his profits. He writes, "I have cut down on the feed cost by eliminating the boarders, and can still further reduce it by using more clover and alfalfa than was available last year."

**Dwarf Tree Nearly 200 Years Old.**  
A species of Greenland fir, believed by scientists to be nearly two hundred years old, is growing on the Sherk farm in Bullfrog valley, near Hummelstown, Pa. The unique tree is less than two feet high, but its branches have a spread of 45 feet and a circumference of about 90 feet. It resembles a collection of shrubs, and is one of the largest specimens known.

**Right and Wrong Methods.**  
A passionate man turneth even good into evil, and easily believeth the worst. A good, peaceable man turneth all things to good.—Thomas a Kempis.

**Where All Could See.**  
My most embarrassing moment was experienced at an evening church wedding a short time ago. As we were late, most of the seats had been taken, so it was necessary to go almost to the front row. I sat down and calmly removed my hat, when to my mortification my escort asked if I thought I was at the movies. The hat was hurriedly adjusted, but I felt self-conscious during the entire ceremony. —Chicago Tribune.

**Varied Gifts.**  
Some women are remarkable for their poise; others for their avoirdupois.

**Huffman Sent to Asylum**  
Holland Huffman, charged with attacking Miss Anderson on the street in Marshfield, has been declared insane.—The case was being taken up by the grand jury at this session of court and witnesses had been called to tell of his arrest and confession. In the meantime proceedings were started in the county court to inquire into the young man's sanity. He was found insane and was committed to the asylum at Salem and the grand jury dropped further investigation of the case.—Times.

**What That Tree Would Make**  
From a Coos Bay fir tree was cut 43,280 feet of merchantable timber, enough to build a small village. The smallest of the six logs into which it was cut was 65 inches in diameter, the largest 90 inches. The six logs together had a length of 174 feet. Yet the Coos Bay loggers say they have much larger trees they haven't tried to tackle.—Portland Journal.
