The Coquille Myrtle Point Sewing Association will be held at the Coquille Myrtle Point Sewing Association on May 27 and 28.

One of the chief objects of this school is to teach the use of the dress forms but there are fitting patterns, finishing garments and new methods of construction will be given. Every woman is welcome to attend the lectures whether she has signed up or not. For further information phone Mrs. C. J. Fuhrman, who is making local arrangements.

It is disgraceful the way some irresponsible auto drivers are taking advantage of the fact that Coquille now has no police officer on duty by running around the streets at a 20, 25 or 30-mile rate, with cut-out open, to the inconvenience and danger of everyone. A new yellow bug has been the worst offender of that kind this week.

Dairymen Take Warning
The organization committee of the Dairymen's League for Coos and Curry wishes to warn all dairymen against contracting their product to any private corporations at this time; or taking stock in such corporations proposing to establish manufacturing plants within our bounds. We believe this to be a move to hold up or prevent the proper and expedient organization of a strong marketing association among the dairymen of this district; which they see is sure to be brought about through the Oregon Dairymen's Co-operative League to which the products of over 7000 cows has already been contracted up to date by our organization committee.

Yours respectfully,
ORGANIZATION COMMITTEE
Albert Seelig, Marshfield, Chm.
E. M. Burns, Arago.
A. W. Cope, Langlois
H. H. Hanson, Langlois.
W. T. Warner, Broadbent.
A. W. Bigelow, Gravel Ford
W. E. Cross, Coquille.
Clarence Zumwalt, Sixes.
J. S. Capps, Denmark.
Jess Clinton, Myrtle Point.
E. S. Reed, Lundy.
Theo Clinton, Norway.

May Have Chance to Fly
J. J. Mahoney, representing the Oregon, Washington and Idaho Airplane Co., was in town this morning trying to arouse interest in an airplane exhibition here the last part of this month. His proposition was if twenty people could be secured at \$10 apiece to take a 10-minute ride, going to an elevation of 3000 feet the company would include Coquille in their tour of Coos county. They will bring two planes, one a three-passenger car and the other for exhibition purposes. They also have another purpose in view, that of determining best air routes for regular transportation. Whether he secured the guarantee we are not informed, but he took the matter up with the Commercial Club members, and if the fight is held it will be on the 29th and 30th.

Nothing Wet But the Ocean

A girl on horseback makes a flying leap over a chasm a hundred feet deep, barely making the jump, in order to save her sweetheart from death by a lighted bomb. "In Old Kentucky" at the Liberty Theatre May 25 and 26.

The Oregon Farmer is still furnished for \$2.15 in connection with the Sentinel, and why its publishers shouldn't ask a dollar or a dollar and a half a year for a paper as good as they furnish, we don't understand.

Little Girl Struck by Car
About seven o'clock last evening as Philip Johnson was driving an auto on Spurgeon Hill a little 3-year old girl, named Richmond, ran out from behind another car in front of his and was struck and knocked down. He was driving slowly, however, and she was not run over or seriously hurt.

Pay in Advance Plan Popular
Under the Sentinel's pay in advance subscription rule, we have to drop a number of names each month of those who for some reason do not care to renew. When we adopted the system we supposed this would be the case and expected to print fewer papers. On the contrary the new names that are constantly being added to our list have more than overbalanced the losses and instead of fewer we are printing more papers than before—even though we were compelled to increase the subscription price very soon after making the cash in advance rule.

A thrilling rescue of a thoroughbred racer from a blazing barn by a slip of a girl. "In Old Kentucky" at the Liberty Theatre May 25 and 26.

NOTICE TO WATER USERS
All water users of the City of Coquille will please take notice that it is necessary to conserve every bit of water possible, as the dry season is rapidly approaching. There was a great shortage of water last season, and we have many more water users

now than last year, so it behooves every one to not waste any water from this time until the fall rains commence.

A leaky faucet will waste more water in twenty-four hours than an ordinary family will use in that time, so look after these leaks. It is a violation of the City Ordinance to allow any water service to leak or waste water and the person allowing any such waste on his premises is subject to fine. I hope every person will realize that it is to their own interest to save water wherever possible and that it will not be necessary to resort to the law to enforce these regulations.

I ask the co-operation of every good citizen in this matter.

S. V. Epperson, Water Superintendent.
