

**ACME QUALITY VARNO-LAC**

More shabby, surface worn furniture is discarded each year than is destroyed by fire.

You insure your furniture against fire. Is it insured against wear? A good piece of furniture will last a lifetime if its surface is properly protected.

Once a desk, chair or table loses its newness—begins to look shabby—it travels a fast road to the junk heap. Renew its surface with Acme Quality Varno-Lac and you renew its life. You've saved the price of a desk, chair or table, and enhanced the appearance of your home. By saving the surface you save all.

Acme Quality Varno-Lac stains and varnishes at the operation producing handsome imitations of expensive hardwoods. Good for floors, furniture and woodwork.

Being in the business, we can probably give you some helpful hints about painting.
