

say the Coos Bay... regular passenger... South... waters... treadmill...

Saturday evening... able to get through South... street... 100 feet deep at the... Fourth and Golden. This is the point where an error in the survey several years ago resulted in the land surface being below the established grade.

Saturday night, the... got married in the water on the road near the old... The water was about up to the hub and concealed the roadway so that the driver could not pick his way. He ran into a mudhole and the water got into the carburetor, stopping the car. Finally a boat was secured to take off the passenger and another car was brought out and pulled the stranded machine out.

In the darkness, a bicyclist ran into the water and landed up to his knees before he discovered where he was at.

Re-Boring Cylinders

WE CAN STOP that leaking cylinder in your car by reboring it with the new regrinding machine we have just installed and putting in larger piston rings. Another result will be the increased power from the larger cylinder.

With this machine the re-boring is reduced to an exactness that will completely stop the leak and make your cylinders as good as new - better, in fact, on account of the increased power.

Bring your auto to us and we will put it in first class condition.
