### Re-Boring Cylinders

WE CAN STOP that leaking cylinder in your car by re-boring it with the new regrinding machine we have just installed and putting in larger piston rings. Another result will be the increased power from the larger cylinder.

With this machine the re-boring is reduced to an exactness that will completely stop the leak and make your cylinders as good as new—better, in fact, on account of the increased power.

Bring your auto to us and we will put it in first class condition.
