

Warning That is Timely.

But few days ago the Portland Travelers' Aid Association of this city announced the preparation of a large number of leaflets and placards, to be distributed in the various centers of population, warning unskilled and unemployed young women against coming to Portland to seek positions simply because it is Exposition year.

It is very natural that many young women should be attracted to an Exposition city, in the belief that remunerative employment is to be had merely for the asking. This is a mistaken notion, nevertheless; dangerously so, in fact, as that young women may realize whose ambitious mission results in failure, and who finds herself without employment, means, friends or protection in a city like Portland, with great Exposition in full swing.

It would be well if the Portland Travelers' Aid Association called attention in its warning to the unfortunate fact that young women of the city who now have employment as clerks, stenographers and the like have cause to complain of the conditions which the cupidity of the landlord and boarding-house proprietor promises to impose.

The facts, if forcibly brought to the attention of young women who erroneously believe that during the approaching summer Portland will be a veritable industrial Mecca should be beneficially discouraging. These are not pleasant facts, even for Portland people to contemplate.

New Plan for Better Roads.

Albany, Or., May 6.—Some of the best road work in Oregon is being done on the roads of Linn County. The work is systematic and uniform throughout the entire county.

Many of the districts took advantage of this offer, and not content with raising \$100, doubled that amount, the county producing its proper proportion. As a result, more money has been spent improving the roads of Linn County this year than ever before, and the money has been spent to some purpose, because the work is uniform throughout the county.

One of the actions looking to good roads was the purchase of about a dozen reversible road scrapers, thus making 20 in all in the county. The preceding County Court put \$4500 into a big steam road roller, which was not a success for roads in this county. This machine was traded to a scraper company for the 12 machines.

Wherever the land is white or claylike the roads have been rounded up and will not be gravelled. They become compact and hard, and make the best roads in the county. Where the land is low, roads are rounded up with fine gravel.

Jimmy Britt Champion

San Francisco, May 6.—James Britt, of California, became lightweight champion of the world last night when he knocked out Jaboz White, of England, at the close of a magnificent 20 round battle.

With just 20 seconds to go, Britt hooked the Englishman with his left on the jaw and the foreigner went to the mat, where he lay flat on his back for eight seconds. White then staggered to his feet, but was powerless to defend himself, and Britt swung right and left to the jaw. The referee, to save the plucky Englishman from needless punishment, stopped the contest, while he was still on his feet, leaning up against the ropes in a helpless condition.

White was carried to his corner and in a few minutes revived sufficiently to make a little speech, in which he said: "I fought the best I knew how and received fair play. Britt is evidently the better man."

Japan Giving Battle.

Pebg Hushiang, May 6.—Oyama has begun active operations on the Russian left, and indications are that the Japanese are preparing an offensive movement on a large scale. Another general battle is believed to be imminent. The Japanese have concentrated their heavy columns near the neighborhood of the Liao river, and the advance forces are already in contact with the Russian guard on the main road from Gakomen to Bashi Chen.

Twenty miles to the west a force of Russians was engaged making a reconnoiter, and ran into a Japanese ambush. All except five of the party were killed.

Riverton Pick-ups.

The Riverton saw mill is now running at full capacity. They are turning out some splendid lumber.

Joseph Perry started steam in the boilers at his mine last week. He is now pumping out the water.

Dr. Russell, of Coquille, made a professional call in town last week. He was called in to see Mrs. Post while here.

Mr. Ferris, the peddler, is here distributing his goods.

The share holders in a proposed telephone line which is to connect Riverton with Coquille, met last Saturday and elected O. A. Kelly president; Wm. Robm treasurer, and L. E. Brown secretary. A committee consisting of Wm. Robm, Wm. Kay and Henry Collier was elected to manage the construction of the above line. It was decided to commence work immediately and push it to completion as soon as possible. We have subscribed \$210 already, besides the business men of Coquille have insured us that they will furnish the wire. The work commenced Monday morning and if the wire and other supplies are on hand in time, we will have the line completed on June 1st.

Wm. Howell is now hauling logs for George Martin. Their landing is in front of Perry's store in the center of our town.
