WEDNESDAY, JUNE 23, 1905.

It seems that our people are a little slow in getting exhibits to the Portland exposition. A great deal depends on the people if we get our proportion of benefits from the fair. All exhibits which may be prepared at this time should be forwarded at once and all possible effort put forth to prepare others. There is a lot of circulars being prepared for distribution, which will no doubt answer some of the many questions already being asked by interested persons already there. Dr. Haydon is putting forth every effort, but we fear he is not getting the support he should.

One more triumph must be placed to the credit of "American diplomacy," which discarding the simulation and the deceit of old fashioned diplomatic methods, goes directly to the point and acts while half the world wonders if action would be judicious. From the standpoint of humanity the bringing about of direct peace negotiations between Russia and Japan constitutes a great achievement. Two days after the defeat of Rojostevsky's squadrons Roosevelt had put in operation the negotiations which have so far been successful. While Europe awaited, America acted and the results are too well known to require reiteration. Here and there a time stranded member of the way party of Russia or a belated fighting Jap will deny that peace can come out of the direct negotiations which the President has brought about, but those who hold this view are isolated fewer today than yesterday and with England and Germany behind the United States peace is more than possible. In the process of giving honor where honor is due it would be unjust, however, to overlook John Hay, Secretary of state for to him belongs a fair share of the credit for the success of the good offices of the United States. Months ago, when no other believed peace to be in sight John Hay had mapped out the programme to be followed when the psychological moment arrived and in every detail Theodore Roosevelt following the programme of his accomplished Secretary of State, prepared with the most careful attention to detail long before the fall of Port Arthur. Europe diplomats in this country are free in their expressions of admiration of the new world diplomacy and there is every reason to believe that this case will not be without its effect on future negotiations of a similar character, whether it fall to the United States to initiate them or not.

It is a matter of no little gratification to those engaged in international commerce that the Russian vessels in Manila harbor will not be allowed to make such repairs as shall render them seaworthy. It is pointed out that there can be no reason to believe that these little Russian cruisers hope or expect to attack Japanese naval vessels and their only remaining mission would be to prey upon commerce. The United States has long sought to secure the adoption, as a tenet of international law, of the proposition that "the goods of neutrals, found in neutral bottoms ships shall not be regarded as contraband of war unless consigned to a belligerent." Russia has been obdurate in her opposition to this doctrine and, as in the instance of the night commander, did not hesitate to seize and destroy American flour carried in a British vessel and consigned to Hong Kong, on the ground that in might eventually fall into the hands of the Japanese commissariat. The bottling up of the Russian cruisers in Manila Bay will therefore materially enhance the safety of neutral vessels and cargoes, the property of citizens of neutral powers.

General Henry V. Boynton, who recently went to his last rest, will be gratefully remembered by old soldiers of the federal and confederate armies as the man who conceived and brought into operation the scheme of erecting monuments to the confederates on north battle fields and to the federals on Southern battlefields.

It requires wisdom to know when to quit. It would be a blessing to humanity if the Czar were possessed of a little wisdom of this character.

## Coos County Will Have a Building

The dedication of the Coos County building, which was to have taken place today, has been postponed to July 19 by the action of Commissioners Harlocker, Fenton, Kerr, Topping, Flanigan, Brigham and Shine of the Coos County Lewis and Clark Exposition Commission, because of the desire to secure several additional exhibits of special interest. On the day that the building will be formally opened to the public a most interesting program will be carried out. Citizens from all parts of Coos county will be in attendance and speeches will be made by executive officers of Coquille City, Myrtle Point, Marshfield, North Bend and Bandon. Addresses will also be made by President Goode of the exposition corporation, Jefferson Myers, president of the state commission and probably by Governor Chamberlain. This structure, made possible by the liberal contributions of the citizens of Coos county, is one of the unique features of the exposition. It is the only county building ever erected at a fair and is constructed of one of the most wonderful woods in existence, Port Orford cedar, a beautiful aromatic white cedar, peculiar to Coos and adjoining counties.—Oregon Journal.

**Acute Rheumatism**  
Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Ill. writes, Feb. 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." sold by R. S. Knowlton.

(Daily Coast Mail.)  
Dr. Haydon leaves overland today for Portland where he goes in the interest of the Coos county exhibit, and also to purchase material for the 4th of July celebration.

Mrs. L. W. Mauzey, on whom an operation was performed at the Horsfall hospital about four weeks ago walked across the floor yesterday the first time she has been able to put her foot to the ground in three years.

The grinding of rock in the new crusher has not yet begun. About 100 cubic yards of rock have been brought down from Coos river, and are waiting the arrival of the expert who, according to a recent telegram from Portland will leave that city for the bay immediately.

The new sewer system is now complete, and the city may expect to derive immediate benefit from its installation. This is one of the most sanitary and common sense moves ever made by the town, and will undoubtedly prove an active agency toward a clean and healthy city.

**Have You a Cough**  
A dose of Ballard's Horehound Syrup will relieve it. Have you a cold?

Try it for whooping cough, for asthma, for consumption, for bronchitis. Mrs. Joe McGrath, 327 E. 1st Street Hutchinson, writes: "I have used Ballard's Horehound Syrup in my family for 5 years, and find it the most palatable medicine I ever used.—sold by R. S. Knowlton.

## HAS COME TO COOS COUNTY.

**A Bonanza for Those Wanting Pianos.**

**High Prices Done Forever.**

It is not generally known that a new condition of affairs confront the piano-buying public, that the agent who deals on consignment and adds a seventy-dollar average to each piano, is gradually becoming a superfluous being in this particular branch of industry, and as this condition of affairs seem to be strictly in accordance with the trend of trade, and as the E. M. Furman Co. have been instrumental in bringing about this advantage to those wishing to buy, is the very reason they have become so well and favorably known as an up-to-date firm, and their success has advertised them as the fair dealing piano firm of Coos county. They recognize the fact that public criticism is now far more advanced than in the past, and it is then ambition to stand aloof from that criticism. Hence the child and the expert trade on exactly the same terms. All this is the logical outcome of years of experience, and that all business is valuable and should be earnestly sought, is a motto brought into daily use. Having located here as dealers who buy directly from the factory for cash, we save the buyer many a hard earned dollar. We ship pianos across the continent in car lots in harness, and our freight from New York to Coquille averages only \$24.65 on a piano. We shall demonstrate to those wanting goods in our line that we realize dependence on our fellow-man, and that each buyer will realize an average saving of \$75.00 on the purchase price of a single piano.

A good piano means education for the daughter and the son. A good piano keeps the boys at home. A good piano brings sunshine to the household. Tin whistles bought for the boys at Christmastide won't do it, it takes a piano, a good sweet toned, durable piano, such is sold by the E. M. Furman Co., and indeed it does not require much money or any great effort to possess a fine piano all your own. Twenty-five dollars down and ten or a dozen dollars a month will put you in immediate possession of any one of the various makes we handle, finished in fancy manogany, weathered oak, quarter-sawed oak, golden oak, or beautiful burl walnut.

This certainly looks easy, and is easy, and the saving in the price now possible, is enough to give the younger ones a good start in music. Remember that we deliver our pianos free of transportation or transfer charges, that old pianos and organs will be accepted at a fair valuation toward payment of any new piano included in our stock, and that a stool to match goes with each instrument sold. Remember too, that all pianos are fully and unconditionally guaranteed. Our piano wagon is especially constructed for the business, and we deliver our goods to the country home same as in town, free of charge.

**FOR SALE.**  
A one-fourth interest in the equipment of the Coquille Steamboat Co., consisting of the steamers Dispatch and Favorite, and three barges. Inquire of Capt. T. A. White, Bandon.

**Found a Cure for Dyspepsia**  
Mrs. S. Lindsay, of Fort William, Ontario, Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, get well and stay well? For sale by—R. S. Knowlton.

**For SALE!**  
I will sell my Restaurant and Bakery on Front street at a very reasonable figure, as I wish to make a change. Have got a good business and trade for the right parties.  
Also have 10 furnished rooms.  
OLIVER WILSON.

## Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know that this disease is, and ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by R. S. Knowlton.
