To Fight Standard Oil

New York, June 19.—While aroused the west is making thrilling preparations for a practical fight against Standard Oil Company, to be begun in the state of Kansas, and the battle against corporate corruption and oppression is getting into full swing. The governors of Missouri, Minnesota, Nebraska and Kansas have invited Thomas W. Lawson to go to their states in July and address the people. Lawson has accepted the invitations. This journey of the crusader against "frenzied finance" promises to be a picturesque and stirring campaign. Preparations to receive Lawson have been made on a large scale. Other anti-monopoly speakers of national reputation, Governors Folk and La Follette, and District Attorney Jerome, will make addresses.

The gravest defect in the jurisprudence of this country as administered, is the lack of personal responsibility of the officials of large corporations. The expression, Ecorporations have no souls "has almost come to mean that corporations have no responsibility and to this fact is largely due the grave violations of law which in some instances have become so general as to cause well defined statutes to become "dead letters". For instance, a powerful railway flagrantly defies the law by granting rebates. Finally the officers of the government discovers the violation and there follows not a prosecution of the officers of the road, but a suit for an injunction to compel the railroad to obey the law. In the course of time the road is again caught violating the injunction and with great show of righteousness the Department of Justice commences a prosecution the outcome of which is a fine imposed upon the railroad. The railroad does not seriously object. The fine probably represents but a small part of the profits which have resulted from the illegal transaction and is charged up to profit and loss, causing a diminution of dividends which when spread over the entire stock issue, becomes infinitesimal. No disgrace attaches to the officers of the road because of the detection of illegal procedure. They carry their heads as high as ever and continue to be described as "among our most prominent citizens. In England, where they have a stricter code of public morals than in this country, it is the officers of the railroad who would be fined might even go to jail. The courts there would hold that even if no overt act on the part of the officials could be proven to be the direct cause of the violation of law, such officials could not escape the responsibility for the acts of their subordinates and must be held accountable for not seeing that the law was observed. It is to be hoped that the President can be brought to realize this weakness in the present system of the administration of the law and that he will insist that the Department of justice prosecute the officials of every railroad and every trust found to have violated the law prosecute them for neglect of duty even if it cannot be shown that they instigated such violation.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by R S Knowlton.

WANTED:—Women to represent us in their home and adjoining counties to distribute samples and advertise our goods. Salary \$21 per week and expenses, guaranteed. Expenses advanced. Experience unnecessary. Address, with stamp, stating age, Reeve Co., 415 Dearborn St., Chicago.

Gold in City Limits.

Olympia, Wash., June 27.—A discovery of gold-bearing ore within the city limits is claimed by W. F. Carter and T. M. Rowden, two experienced miners. Samples of the rock brought in today are said to yield \$40 to the ton. The discovery is on land owned by F. D. Heunstin, from whom the men have obtained a lease. It is a half-mile above the mouth of Percival Creek in West Olympia and is near the Northern Pacific railroad track. Geologists assert that the formation here is of the Tertiary Period, the rock of which is seldom ore-bearing. The body of rock which Carter and Rowden claim contains gold is extensive. The ore requires smelting.

Forest Fires in Alaska.

Seattle, June 28.—Forest fires along the banks of the Yukon River, between the mouth of the Tanana River and Eagle City, have cut off all communication with Nome and St. Michaels, and for the past four days the local cable office has been unable to establish any communication with those points on Bering sea. "There is no telling just when the line at that point will be up again," said Major Glassford, today, at the cable office. "It will be impossible to get anything out from or into Nome on account of the fires for several days." Advice reaching here from points this side of the break state that the fires are worse than for several years in the district affected. Miles of wire and poles are believed to have been burned down.

Forest Fires in Colorado.

Denver, June 27.—Forest fires are burning fiercely on Government lands in the mountains southwest of Denver. Since Sunday morning a fire has been raging ten miles northwest of Pine Grove, in Platte Canyon. Government rangle riders have been sent out from different points to check the progress of the flames. The loss thus far will reach \$50,000.

CHOLERA INFANTUM.

Child not Expected to Live From One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E N Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by R S Knowlton.

Secretary Wilson has issued a treatise on the hair-worm in cabbage. Has the Secretary a proprietary remedy for cabbage baldness?

General Miles doubtless believes that the reason the President's efforts to bring about peace were successful was that the General had deserted the Russian cause.

It was most unkind of the United States Supreme Court to declare that insurance was not commerce thirty-seven years before Mr. Roosevelt could tackle the Equitable.

A Delaware exchange deplors the fact that no one seems interested in the prospects for the Delaware peach crop. There are too many peaches in the sweet girl graduate crop, just now, Brother.

Japan has determined to commemorate Togo's victory by erecting a monumental light-house which will light the Korean Straits to the benefit of mariners for centuries to come. But then, Japan is not civilized.

Poor Paul Morton was to receive only \$50,000 a year from the Ryan Syndicate, so it was natural he should have had to accept a little job like the Equitable chairmanship at \$100,000 a year just to help pay expenses.

Sailor Dies on the Isthmus of Babonic Plague.

Panama, June 25.—A fatal case of bubonic plague occurred at La Boca yesterday. The constant arrival of steamers from infected South American ports, which are received at La Boca without any extra precautions being taken, must be a source of contagion. The man had been working on board the British steamer Chili, which the authorities of Guayaquil would not allow to enter that port. The companions of the diseased laborer have been isolated. Rats taken from the steamer Chili are being examined.

Driven Insane by Thirst.

Goldfield, Nev., June 26.—Prospectors coming into Bullfrog today report that they found two men wandering aimlessly about in Death Valley down beyond the Funeral Range. These two men were insane and absolutely naked. Their tongues were black, swollen and protruding. Their limbs were also swollen. The men had evidently become delirious from thirst while prospecting through Death Valley. Their misfortune is but a repetition of the disasters of that region during the past week. The springs are drying up and the usual supply of water is lacking.

The prospectors are so scattered over the vast region that there is no way of warning them. Carcasses of men and burros heavy laden and without owners have been found in numbers. This season of the year is unfit for all prospecting. The men are being nursed back to health and steps are being taken for their identification.

Odd Advertisements.

An observer of peculiarities of people copied the following advertisements from various sources:

"Annual sale going on. Don't go elsewhere to be cheated—come in here."

"A lady wants to sell her piano, as she is going abroad in a strong iron frame."

"For Sale—A pianoforte, the property of a musician with carved legs."

"Wanted—A room by two gentlemen about 20 feet long and 20 feet wide."

"By a respectable girl, her passage to New York; willing to take care of children and a good sailor."

"Mr. Brown, furrier, begs to announce that he will make up gowns, capes, etc., for ladies out of their own skins."

"Bulldog for sale; will eat anything; is very fond of children."

"Wanted—A boy to be partly outside and partly behind the counter."

"Wanted—For summer, a cottage for a small family with good drainage."

"Lost—Near Highgate, an umbrella belonging to a gentleman with a bent rib and bone handle."

"Widow in comfortable circumstances wishes to marry two sons."

"To be disposed of—A small phaeton, the property of a gentleman with a movable headpiece as good as new."

The last is a copy of an inscription painted on a board which adorned a fence in Kent:

"Notis—If any man's or woman's cows gets in to these here otes, his or her tail will be cut off as the case may be."

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at R. S. Knowlton's drug store; price 50c.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver tablets. For sale by R. S. Knowlton.

NOTE AND COMMENT.

Secretary Taft brought Secretary Loomis and Minister Bowen face to face in his private office.

There is still some hope for the country. Nan Patterson's tour as a theatrical star has proved a hopeless failure.

It is hardly surprising that Norway, the mother of the Vikings, should imagine she can paddle her own canoe.

The Czar is intensely anxious for peace. His only fear is that having made peace with Japan he will have to face war at home.

Perhaps a count would prove that by this time that Equitable surplus has become pure fiction. It is high time somebody made a count.

It is its proximity to the Kaiser not to the Czar which put the Hague out of the running as a place to hold a peace conference.

Grover Cleveland can never hope to carry those states which have adopted female suffrage even should he decide to run again.

The newspaper talk of war between Germany and France, most of which emanates from Paris is all strongly suggestive of a French duel.

Nothing has been heard from United States Chemist Wiley since he started to investigate Limburger cheese. His friends hope it is not a case of asphyxiation.

Those anti-imperialists who want the United States to give the Philippines to Japan should first make sure that Japan would accept them. They are an expensive luxury.

Two young women who appeared on the streets of Pittsburg wearing old fashioned hoop-skirts were mobbed. Pittsburg may not be long on gallantry but it is possessed of a fair amount of common sense.

Dancing masters have renounced the title of "professor." Gentlemen who play the piano, train monkeys and sell shoe blacking on the street corners may now enjoy a monopoly of the title.

The argument in favor of electing United States Senators by direct vote of the people will have more force when the people by their direct votes send a higher class of men to the house.

President Castro has suggested the possibility of his coming to the United States to settle the asphalt controversy. Let him come and have a heart to heart talk with our strenuous President. The Anglo-Spanish translator will have a hot time.

The weather Bureau experts will not admit that the exceptionally cool summer is due to the fact that the Vice President is making so many speeches. That is natural. Even the Weather Bureau experts are federal employees.

It is to be hoped that one of the reforms which may grow out of the committee which the President has appointed to investigate the business methods of the federal departments will be a single purchasing division which shall be charged with the duty of buying all government supplies. Such a division under the supervision of a competent head would save the government millions of dollars every year. Recent investigations conducted by newspaper men show that some departments of the government pay double as much for the same supplies as is paid by others. Moreover the purchase of supplies in larger quantities would enable the sellers to make lower rates than they can where they are compelled to engage in a dozen transactions for the disposal of an equal amount of merchandise.

Notice.

Notice is hereby given that the undersigned will prosecute any and all persons in any way trespassing on the farm known as the McCleary and Grady place near Norway.
Henry Grady.

Knowlton's Drug Store
