The High School department of the Coquille public school, which has heretofore given excellent satisfaction to patrons, is to be made better than ever the coming year. A number of students from outside districts received instruction in this department during the past year and all were well pleased. Several who have not yet completed their full course, have already signified their intention of again entering and a certain number of others can be accommodated. The directors have secured the services of one of Oregon's best instructors and intend making the course especially interesting and profitable to those who, for various reasons, are not able to attend higher institutions of learning. The commercial course will be made a special feature. Those desiring to enter should send their names to O. C. Sanford, clerk, at once to insure their being able to enter September 11th. Rates of tuition will be made known by him upon application. A limited number of pupils can also be received in the lower grades.

T. J. Little has received his stock of groceries, nuts, candies, fruits, etc., and is finding a good trade for his goods.

Teachers' Institute.

It is known to probably all of our teachers that the Institute Law is suspended for the year 1905, in Coos county and that there will be no annual teachers' institute held in the county this summer. This is in harmony with the provisions of Senate Bill No. 133 the Second Section of which reads as follows:
Section 2. In case any county superintendent shall dispense with his Annual Institute for 1905, in accordance with the provisions of this act, then all law and all part of laws relating to the apportionment of money to school districts in consequence of institute attendance, and all laws pertaining to teachers' attendance at county institutes, are hereby suspended in such county for the year 1905, but shall be in full force and effect after January 1, 1906.
The Educational Congress to be held in connection with the Lewis and Clark Exposition, and which is intended to take the place of the Annual Teachers' Institutes of the various counties will convene on the Fair Grounds August 28, and continue for five days. A very strong program has been prepared on which appear the names of many instructors of national reputation.
While teachers are at liberty to attend or not attend this Congress as best suits them, yet it would seem that the opportunity to be present at such a gathering of the educators of this and adjoining states, and at the same time see the wonders of the Exposition, affords an opportunity rarely met with in a life time.
It is my plan to leave Roseburg for Portland on Friday morning, August 25th. If as many as ten can arrange to go by the same train, special ten day rates of \$6 for the round trip are granted. Since a number of teachers are going from this county some time during the latter part of the month, I would suggest that we take advantage of these special rates by meeting in Roseburg on the date named.
Respectfully,
W. H. BURCH,
County Supt.

The president of the Rebekah assembly of Oregon, Mrs. Ella Frazier, accompanied by Mrs. Kate Laido, of Marshfield, arrived in Coquille on last Monday morning's train for the purpose of paying the Rebekah lodge of this place an official visit. They were met at the train by Noble Grand Georgina Hayes and Past Grand Annie Lawrence, the latter taking the President to her home for entertainment while Mrs. Laido paid Mr. and Mrs. Lawhorn a visit. Early in the evening a free attendance of the members of the order met at the I. O. O. F. hall, all anxious to meet the President and glad to extend to her a hearty welcome. Instead of meeting a woman of a gushing flattering nature, or one who was so exceedingly nice that all about her were made miserable, we were introduced to a kind friendly, plain-speaking woman, who looked us squarely in the face, and appeared to mean all she said.

After lodge was called to order, Mrs. Frazier entered and the members extended to her the honors of the degree. She was then stationed at the N. G.'s right and proceeded to instruct whenever necessary, and examine the ritualistic workings of the lodge.
The initiatory work was exemplified by a team of nineteen sisters under the management of Captain Annie Lawrence, and James Watson was instructed into the mysteries of the degree. Mrs. F. spoke of the floor work as being remarkable well done and called attention to very few errors all of which was very acceptable and pleasing to the team as well as the Captain who deserves great credit for her interesting energy and enthusiasm.
The hour devoted to the good of the order was both profitably and pleasantly spent, most of the time being taken up by the President who succeeded in putting as much real worth into the hour as was possible, laying aside all meaningless "eloquence." She was here for business and took hold of the work in a business like way.
After lodge closed the members were conducted to the banquet hall where the tables were laden with all the delicacies heart could wish, the decorations being dozens of tall vases filled with trailing sweet peas and mounds of fruit placed at regular intervals, and with the snowy cloths and rich center pieces the tables presented a beautiful sight. All appeared to enjoy the spread also the witty toasts that followed.

This is the first official visit the Rebekah lodge Coquille has had for a number of years and it was thoroughly appreciated by all present. Mrs. Frazier made many warm friends while here who extends to her their best wishes in the name of friendship, love and truth.

We know just how our watches are made and just what they're made of. We have picked up some pointers about watches in the 20 years we've been buying and selling them. We'll tell you what is in the watch we sell you, because we can and because you have a right to know. We'll tell it to you honestly, because we cannot afford financially to misrepresent our goods. To the watch buyer we offer a good many advantages that some other people can't offer and it costs no more to buy of us, for it's just thrown in.
