G. M. Thorp, who has been traveling over the county of late in the interest of the Portland Portrait Co., took it upon himself to put out a fire on the upper river one day last week which was getting under considerable headway, and would soon have been beyond control. It was very considerate in Mr. Thorp to do this, as no doubt more or less damage would have resulted. Persons so careless as to put out fire and leave it should be prosecuted.

We can see large smokes rising in different directions, indicating that there are fires burning in the woods, which at this season of the year may become very serious. A great portion of the wealth of our county lies in its valuable timbers and a very little carelessness on the part of the people may result in the destruction of great portions of it, beside there are stringent laws against starting fires, and such laws should be enforced to the letter by all means. Great damage may not result to timber only, but to farms, bridges and other kinds of property.

Just Thrown in

We know just how our watches are made and just what they're made of. We have picked up some pointers about watches in the 20 years we've been buying and selling them. We'll tell you what is in the watch we sell you, because we can and because you have a right to know. We'll tell it to you honestly, because we cannot afford financially to misrepresent our goods. To the watch buyer we offer a good many advantages that some other people can't offer and it costs no more to buy of us, for it's just thrown in.
