

Board of Trade Meeting.

The Board of Trade held their regular monthly meeting Monday evening with President W. T. Kerr in the chair. After the usual routine business was transacted, a general discussion was held on new advertising matter for the board, setting forth the resources of the Coquille valley. The opinion of the club was that a pamphlet with illustrations of the city and vicinity was the best method that could be used to interest future home-seekers in the Coquille valley. J. J. Stanley and Oliver Sanford were added to the printing committee to secure illustrations of residences, saw mills, factories and logging camp scenes.

The corresponding secretary was instructed to correspond with R. D. Hume in regard to moving his corn and pea canning establishment from Rogue river to this city.

Mr. Kerr announced that he had received a telephone message from Senator Coke, at Marshfield, in regard to the meeting in that city last evening which was to be addressed by Col. Hofer and Hon. Walter Tooze, of the Willamette Valley Development League. A warm and exciting discussion took place and was the means of adding four new names to the list of members. They were Stephen Gallier, George E. Peoples, W. A. Goodman and T. T. Land. Judge Sperry made a few remarks on the subject and among other things said that anything that helped Coos Bay surely helped this city and vicinity. His remarks were to the point, and he concluded with a motion that all of our citizens should take advantage of the occasion and go over to Marshfield strong and to invite the band to go along and their expenses to be borne by the Board of Trade, but objections being made to this an amendment was offered to appoint a committee of three to solicit funds. The chair appointed T. T. Land, Stephen Gallier and Geo. E. Peoples. The meeting was the best that had been held yet. Judge Sperry made a few remarks on the advisability of the Board of Trade investigating the sugar beet industry, but the opinion was that it was too far away to make it a success. The meeting adjourned until next Monday evening, and every member was appointed a committee of one to bring in one new member.

REPORTER.

Stage Goes Over Sugar Loaf Grade

The incoming Myrtle Point-Roseburg stage went over the Sugar Loaf grade, six miles from this place, about 11 o'clock Tuesday night. The place where the rig went over is very narrow and rock and fine dirt from above is continually falling into the road. The lead team usually sports up around this grade, but the grade is such that the wheel team has to pull the wagon to keep it in the road, and the consequence was when the leaders started in a trot the wagon pulled over the grade, likewise the wheel team. The wagon turned over twice and struck a rotten log about twenty feet down the hill. The lead team stayed in the road and held the rig from going further. The four passengers were thrown about forty feet but luckily lit in some dirt. Two of the men and the driver were shaken up and bruised some, but not seriously. The harness of one of the wheel horses broke and let it into the river, breaking its neck. The other animal was cramped under the rig in such a manner that it was also killed. The grade at the place where the accident happened is about one hundred and fifty feet and the fact that the passengers and driver escaped death is due to a case of extreme good luck.—Enterprise.

The schooner Ruby sailed into the river on Saturday, after being towed from San Francisco by a tug. We understand that the Prosper Mill Co. expect to follow up this plan of towing their schooners against the trade winds to make time. This it seems would be a good plan as the voyage against the wind is slow and tedious at times.

E. church, in Coquille City, Oregon, Monday Nov. 27th, at 2 p. m., for the purpose of organizing a county Sabbath school convention. Col. E. Hofer, of the Capital Journal, at Salem, and Hon. Walter Tooze, a prominent merchant and shipper of Woodburn, arrived at the bay Saturday by the Drain route and have favored the people with some rousing good talks along the line of the development of our section. Mr. Hofer is president and Mr. Tooze treasurer of the Willamette Valley Development League, and are thoroughly posted on the needs of their own section as well as our own, and are out on a development campaign at this time, urging the needs of both sections of the state. The gentlemen spoke at Tuesday afternoon addressed a large audience at Myrtle Point, and last evening they spoke to a large mass meeting at Marshfield, which was largely attended. A special train was run over to Marshfield, and a large number of citizens with the band went over from this place and helped boost things along.

Anyone wishing to go into business will do well to see Gatchell, of Myrtle Point.

J. B. Moomaw, the Arago hop man, was in town Monday on his return from a business trip to Portland. He informs us that he has consigned his hop crop to New York parties, the coast dealers not offering as good prices as he thought he ought to have.

An extra large blast was put into the Tupper rock at Bandon on Monday and huge chunks of it were thrown for quite a distance, several of which fell uncomfortably near to some of the residences in that vicinity. Considerable excitement prevailed for a while.

The many friends of Virgil Wilson will be pleased to learn that he is taking a prominent part in the athletic sports of the Lowell school, at San Francisco, which he attends. Recently he was second in a two-mile foot race at a school day meet and was only beaten by a few seconds.

The regular union Thanksgiving services will be held in the M. E. church South Nov. 30th, at 11 a. m. Rev. Browne, pastor of the M. E. church, will preach the sermon. There will be a union choir practice in the M. E. church South on Tuesday evening preceding this service. All the singers of the various churches are requested to be present.

The Bandon Manufacturing Co. is the name of a new firm which has been organized recently, and the sign appears on the old woolen mill building at that place. They have a shingle mill in place and an excelsior machine will soon be introduced. There is a good opening for an institution of this kind and we surely wish them well in the venture. It will be remembered that the excelsior exhibited at the Lewis and Clark fair by the Coos Bay factory took the first prize, and as we understand, a good and steady market for the product is easy found.
