Francisco.
No Stop-over at Way Ports.
Electric Lights. Everything in First
Class Style.

New Naturalization Bill

Washington, Feb. 26.—The House committee on immigration and naturalization submitted a favorable report today on a bill to create a Bureau of Immigration and Naturalization under the Department of Commerce and Labor and to amend existing naturalization laws. Representative Bonyng, of Colorado, prepared the report, which reviews naturalization frauds and says two principles controlling naturalization are incorporated in the bill, namely:

That before an alien can be naturalized he must be able to write either in his own language or in the English language, and read, speak and understand the English language.

That the alien must intend to reside permanently in the United States before he shall be entitled to naturalization.

(Bandon Recorder.)

Nick Collas returned last week after an absence of about a year, during which time he has been globe trotting, visiting New Zealand, Cuba, the Hawaiian and other islands of the South Pacific.

J. E. Fisher reports the following sales in Fisher's Addition: A. H. Post, 6 lots; Fred Lockwood, 2 lots; W. M. Hite, 2 acres; Claude Dygert, 1 acre; Henry C. Adams, 1 acre; Geo. M. Hite, 1 acre. Several of these people intend to build in the spring.

The Bandon Mfg. Co. this week received a large raft of red cedar from Olsen Bros., above Coquille, which they will manufacture into shingles. Mr. Philpott informs the Recorder that they expect to put on a night shift soon and run the plant to its full capacity.

Notice the advertisement of the Coquille Valley Land Company in this issue. This is a new business enterprise in Bandon just started by A. E. Hadsall and D. P. Straug, Jr. They have opened an office in the El Dorado building and will do a general real estate business. They have a good list of property for sale, consisting of timber and coal lands, farms, dairy and stock ranches and city property. Call and see them if you wish to buy or sell any kind of property. Mr. Hadsall is a practical surveyor and can give this branch of the business his personal attention.

About 5,000 tons, or half of the rails necessary for the building of the Drain-Coos Bay railroad, have already arrived at Drain and more are arriving daily. Thomas Krewson, an experienced house mover, is busy moving buildings from the right of way between Drain and Elkton, 16 miles west of here, and it is expected that an army of laborers will be at work grading for the new road next month. Real estate is changing hands rapidly and a lively building boom is expected for Drain this spring and summer. Many substantial buildings are contemplated and the town is expected to develop into a great and thriving city within a surprisingly short time. The railway officials say that when this road is completed Drain will be a division point, and with the carshops and round-houses, this alone will mean an increase in our population of 2500 to 3000 people. Watch Drain grow.—Drain Nonpareil.

The Best Cough Syrup.
S. L. Apple, ex probate judge, Ottawa co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c and \$1.00. R. S. Knowlton.

HOUSE FOR RENT.
A five-roomed house and four lot near the Christian church, with plenty of fruit, 2 1/2 lots being rich bottom. No charge for the garden lots if rented for the summer. Inquire at the HERALD office.

In the spring time you renovate your house. Why not your body? Hollister's Rocky Mountain Tea drives out impurities, cleanses and enriches the blood and purifies the entire system. 35 cents. R. S. Knowlton.

Ashland Normal Notes.

Notwithstanding President Mulkey's absence, the work in the various departments of the Normal school is progressing smoothly, and much the same as usual.

Mrs. C. E. Payne is conducting Mr. Mulkey's classes in literature and elocution.

Miss Belle McFarland of the junior class is severely ill with the appendicitis.

On Thursday morning Mr. Buchanan, of Roseburg, made an interesting talk to the students. His subject was "Work." "No laudable ambition," he said, "can be realized without work." Mr. Buchanan is a man of some note in literary as well as in political circles, and the students felt honored in being able to hear him.

The Athena Literary Society will meet next Friday afternoon at 3:20 o'clock. Some of the numbers on the program are: Instrumental solo, Miss Minkler; reading, Miss Story; debate, resolved that, "Whatever is, is right," affirmative, Miss Swinney; negative, Miss Jarvis. C. M. D.

(Coos Bay News.)

Mrs. Tyrer, who had a goitre removed about two weeks ago, was able to leave the Horsfall hospital yesterday.

The old Caladonia mine on the Isthmus slough, upon which some work was done many years ago by A. J. Davis and others, was sold lately to G. Barnum, of Idaho.

Jas. A. Weymire, one of the principal stockholders in the Central California Land, Water & Coal Company, who are operating the mine at Maxwell, arrived on the Homer, and is looking after business matters here. Mr. Weymire is very favorably impressed with Coos Bay and its resources, and is more than pleased with the coal mine at Maxwell and the prospects for a successful development.

We learn from Capt. Nelson, of the Plant, that a bill has passed Congress making an appropriation for the survey of that portion of the coast lying between Cape Blanco and the mouth of the Nehalem river. It seems this portion has never been surveyed by the United States, and the charts now in use are copied from the old English chart, which only gives an outline of the coast, and is practically worthless. A thorough survey, locating the numerous rocks, shoals, etc., would be of great value to shipping. Although the money is available, it is not probable that the survey will be made this summer, as the surveyors have all the work they can attend to for the present in the Philippines.

Champion Liniment for Rheumatism

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the store keeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by R. S. Knowlton.

If, as reported, the Milwaukee Club has met with disaster, there is the comforting thought that it stands alone. Every other business concern in this neighborhood is prosperous.—Oregonian.

For every 25c worth of goods you purchase at Mrs. Nosler's store the purchaser will be entitled to a guess at the \$10 gold piece to be given to the best guesser.

FOR SALE—Or trade for cattle, two fine mares, weight 1100 and 1300. Enquire of W. B. Rohrer, Arago

A Safe Cough Medication for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by R. S. Knowlton.

Similarity of Slang and Poetry

"What is the difference between slang and poetry?" asked a bantam-weight philosopher the other day. "It all depends on who wrote it. If one man writes it, it is poetry; if another writes it, it is slang. All the slang that Walt Whitman created is called poetry. All the poetry written by George Ade is called slang. Slang is poetry before it has taken out its license. That's the only difference. If you write about the 'snow upon the old man's brow,' that is poetry; if you speak of the alfalfa on the old man's chin, that is slang. I challenge the world to combat my theory."—Oregonian.

A writer in the New England Magazine points a tendency of the foreign-born to increase much faster than the native races in the New England States. It is due to the factory system, to which foreigners take more kindly than the old native stock. Again, the statistics show that in 1904, of the children born that year in Massachusetts, 23,365 were of native parentage, 37,047 were of foreign parentage, and 14,473 of mixed native and foreign parentage. The death ratio was 33,795 native to 14,376 foreign. These figures show unmistakably that the old stock is losing ground. Both the birth rate and the death rate are against it.—Oregonian.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overworked, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by R. S. Knowlton.

Beginning with the February, 1906, number, our magazine will be called Watson's Magazine. It will have a handsome cover. Several new features will be added. The price at bookstores and news-stands will be 15 cents. To be just to our present subscribers, we have decided to receive renewals and new subscriptions at \$1 a year, up to March 31, 1906. After that the subscription price will be \$1.50 per year. This is a golden opportunity for those who are not within reach of news-stands. If you have never seen the magazine, ask for sample copy, mentioning this paper and address, Tom Watson's Magazine 121 West 42d St., New York City.

Gives Health, Vigor and Tone.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly regenerated and the cold or becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shrieff, Middlesborough, Ill., writes, "I have been troubled with liver complaint and poor blood and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's life time." 50c. R. S. Knowlton.

For Sale.

A three-disc Hancock plow will be sold at a bargain, also a span of young horses well broke. Inquire at this office.

Physical Culture and Expression

Mrs. Wootton, of the Columbia College of Expression, Chicago, will take a limited number of pupils.

Apply at N. E. corner 2nd floor of school building between 4 and 5 o'clock p. m.

Robinson has completed shelving 67 dozen of the Brown Shoe Company's shoes. They are up-to-date in style and finish, in fact the most "nifty" lot of shoes ever brought to town. Call and see 'em.

Note and Comment.

News from Santo Domingo says that Morales has a sprained ankle. His self-confidence has probably had a hard wrench as well.

A North Carolina citizen has discovered that whiskey will kill rats and mice, but the trouble is in getting them to take it.

An Illinois woman has been awarded \$139 damages by a jury for a kiss. The necessities of life are getting higher every year.

It has been suggested that the hero awarding societies send a big medal to the Indiana dare devil who recently married his mother-in-law.

The fact that President Morales of San Domingo has a broken ankle may possibly prevent his appearing on the lecture of freak platform.

Inquisitive people are wondering how much the Southern Pacific Railway Company paid Poultny Bigelow for his article denouncing the Panama Canal Commission.

President Roosevelt proposes to go to Central Africa at the close of his term to hunt lions and tigers. This disposes of the question for the time "What shall we do with our ex-presidents?"

Poultny Bigelow is going out of his way to blame Secretary Taft for dancing on the Isthmus. His object was doubtless to test the sufficiency of the ground as a foundation for a canal.

Secretary Shaw has again postponed the date of his departure from the Cabinet. Skeptical ones are now saying they will believe Mr. Shaw really means to leave when they know that Patti has made her last tour.

There are ninety honorable gentlemen in the United States Senate every one of whom is trying to prove that he is a better press agent for the Panama Canal than Press Agent Bishop who was voted a superfluity.

A Baltimore woman of seventy helps her husband in his work of sawing wood. Mrs. Burke Roche of New York has left the home of her merciless father who compelled her to live on sixty thousand a year exclusive of her board. Women differ.

The Washington Post asks "On what ground rests the assumption that the President of the United States is more directly the representative of the people than is the United States Senate?" The answer is that the assumption rests on the ground that the President is elected by the people while the Senate is elected by Trusts or too frequently, by legislatures controlled by Trusts.

President Roosevelt was more candid than politic in announcing on the night of his election that he would not again be a candidate for president. He might have kept this resolve to himself and if he had maintained a sphynx-like silence on the subject it would have been better for his administration and for his fame. There is a great deal of human nature in Congressmen, Senators, and Cabinet officers, and they are even now watching for the rising sun of the next president, and looking to a Foraker, a Fairbanks and Cannon, or a La Follette, to any man rather than the President, who has fixed the date of his political abdication. Roosevelt's popularity in the country is undiminished, and his power with Congress to carry out his really great and beneficent legislative programme, great as that power is, would be measurably greater and more potent if Congress knew he was half as willing to be elected for a third term as the people are willing to elect him.

For each 25-cents purchase at Mrs. Nosler's you will receive a ticket good for one guess at the number of beans, peas, coffee, etc. in a jar, winner to receive a gold eagle.

Those who have tried all kinds claim the Northern grown seeds the best. Three papers for 10 cents at Knowlton's drug store.
