NORTH BEND, OREGON

Johnson's Mill and Camps.

No lack of activity marks the order of things at the Johnson saw-mill, two miles south of Coquille, or at the several camps from which the log supply therefor is obtained. A recent visit to the plant by a HERALD representative, and an interview had with the management brought out the following interesting facts:

The mill itself is running steadily and turning out about 40,000 feet of lumber per day. There are upwards of 35 men employed about the mill and yards, good wages is paid and excellent fare provided at the company's boarding-house. Alfred Johnson, Jr., fills the place of mill foreman, "Eck" Johnson that of head accountant, and Calvin Slag is the efficient store manager. The outlook for a brisk lumber market this summer and fall is so strongly in promise that it is about decided to add a night shift to the mill in the near future. If such is done it will mean an increased demand for labor as well as increased demand upon the present limited rolling stock of the railroad, as the output of the mill is practically all sold subject to delivery at Marshfield and must be regularly delivered at that point. Local wants in the lumber line, however, are not overlooked in the least by this concern.

The logging operations carried on this year for the supply of the mill are more extensive, in fact, than heretofore, and there will be abundance of logs to enable day and night sawing all season. Four small plants are running on a contract with Mr. Johnson, and one large camp is maintained by the gentleman himself. At the plant of Mast Bros. on the North Fork twelve men are employed, and fully 2,000,000 feet of fir will be put in this season. Morris & Doak are operating at what is known as Seven-Mile, and working a like number of men. They are getting out cedar and fir logs and telephone poles, the latter to consist of more than 5000 sticks for shipment to California. Three million feet of old growth, fine grade fir is the expected year's output of George Pike, on the B. F. Collier place. He works a donkey and bull team and about fifteen men, and has a very busy camp. Morris Bros. run a small crew and camp on the South Fork, but they are equipped for turning out a goodly quantity of excellent fir.

One of the busiest, perhaps, of the busy logging concerns on the Coquille is that owned by Alfred Johnson, Sr., himself. It is located at Seven-Mile, this side of Bandon, and about 35 men are employed under the capable foremanship of Nonda Anderson. Mr. Anderson expects to float from six to eight million feet of spruce and fir logs this year. His camp is equipped with two big Willamette donkeys—one 9½x11 yarding donkey and a 10x13 road donkey—as well as all the modern facilities for successful logging, including two miles of railway with adequate and substantial rolling stock. There was a record-breaking day at this camp on April 28th last, when, under the directing eye of Hooktender John Hudson, just 180,000 feet of logs were sent from the woods to the landing, with the yarding donkey's aid. It was a remarkable day's work in the history of Coquille logging, and Mr. Hudson, Mr. Anderson and the assisting force have since been very much complimented on their feat.

A visit to any of these camps, particularly to that of Mr. Anderson, is well worth the time and trouble in this active period.

WANTED: By Chicago wholesale and mail order house, assistant manager (man or woman) for this county and adjoining territory. Salary \$20 and expenses paid weekly; expense money advanced. Work pleasant; position permanent. No investment or experience required. Spare time valuable. Write at once for particulars and enclose self-addressed envelope. Superintendent, 132 Lake St. Chicago, Ill.

For a good pair of shoes, go to Drause's.

An Open Letter.

To the Voters of Oregon, Greeting:

Gentlemen: The undersigned beg leave to submit to you a few of our reasons for asking you to ratify, by your affirmative votes, the amendment granting equal rights to women, which has been placed before the voters through a petition numerously signed by the men of Oregon under the initiative and referendum.

This movement has grown under your management, from the small beginning known as the Married Woman's Sole Trader Bill, enacted by your Legislative Assembly in 1872, until it has reached such vast proportions as to attract the attention of the civilized world. A Constitutional Amendment proposing women's enfranchisement, submitted to you in 1884, brought us an affirmative vote of 11,223. This Amendment was again submitted to your suffrages by Legislative initiative in 1900, bringing us a vote of 26,265. Although the population of the commercial centers had more than doubled in sixteen years, the "No" vote was only increased by 226, while the "Yes" vote was augmented by 15,042. This, to us, is a palpable augury of the triumph which we confidently look to you to consummate for us on the 4th day of June by placing "X" between "302" and "Yes" on your ballots. Do this and you will honor our flag of truth, the only power we can offer in our defense against the balloted forces of the opposition. Do this, and you will honor Oregon, your mothers and yourselves.

And your petitioners will ever pray:

Abigail Scott Duniway, Honorary President Oregon Equal Suffrage Association and State Federation of Women's Clubs.

Mrs. Henry Woldo Coe, President Oregon Equal Suffrage Association.

Charlotte Moffot Cartwright, President Woman's Pioneer Auxiliary Association.

Sarah N. Evans, President Oregon Federation of Women's Clubs.

Esther C. Pohl, M. D., President Woman's Medical Association.

If you ever bought a box of Witch Hazel Salve that failed to give satisfaction the chances are it did not have the name "E. C. DeWitt & Co." printed on the wrapper and pressed in the box. The original DeWitt's Hazel Salve never fails to give satisfaction for burns, sores, boils, tetter, cracked hands, etc. For blind, bleeding, itching and protruding Piles it affords almost immediate relief. It stops the pain. Sold by R. S. Knowlton.

Bancroft Items.

(Crowded out of last week's issue.) We had a fine rain on Monday and Tuesday. The grain and hay crops are growing rapidly.

Mr. and Mrs. Shields, of Bandon, have been visiting relatives on the creek for several days. Mrs. S. has been sick a good share of the time.

Mr. E. Culver got his foot hurt by the saw carriage while at work Saturday, but is able to be around again at this time.

Mr. L. Stanford who has been working at the Frank Fish ranch for some time is on a visit to the lower river country this week.

Bob Hillis came up Sunday on his way to Eden Valley to see his mother and brothers.

Both of the schools in this vicinity are progressing nicely.

We were sorry to learn of the misfortune of Miss Alice Hillis who fell and broke a limb while playing ball at Myrtle Point recently.

Living indoors so much during the winter months creates a sort of a stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, dizziness, sallow complexion, etc. Sold by R. S. Knowlton.

Doings at Cody's Camp.

The casual visitor to Lampa creek, 12 miles down the river from Coquille, finds a scene of bustle and energy these days if he travels back up the creek for a distance of two miles. We refer to the plant of the Cody Logging Company, which, though established scarcely one year ago, is already in the front rank of the logging industry on our coast. L. J. Cody, president and general manager of the company, is a former successful lumberman of Michigan, and in transferring his capital to the forests of Coos county he brought with him all the best methods known to the business in that State, as well as some of his long-time employees and business associates. One of the latter is Mr. M. J. McKenna, who is secretary and treasurer of the company, and makes his headquarters at the plant. Both Mr. Cody and Mr. McKenna are affable gentlemen and give personal supervision to the general affairs of their plant.

The camp began existence in June of last year. It is working a good body of timber, and the first year's output of logs will likely exceed 20,000,000 feet. These are handled with the aid of steam donkeys, cables and railway, and are transported by rail to the river's banks, two miles distant. From here the greater portion are rafted to the Aberdeen mill, just this side of Bandon, and sold as per regular contract, the mill having a daily capacity of about 60,000 feet. Were there vessels and facilities generally for moving a larger lumber output the mill no doubt would take the entire product of the Cody camp, but under existing conditions the surplus logs find sale in other directions.

The model camp on Lampa creek employs at present about 45 men. It has an unexcelled water supply, the cook house is excellently conducted, and the buildings, including the quarters of the men, are all well built, warm and comfortable. A staunch locomotive, brought with difficulty from North Bend last summer, does service on the grades in the woods and between the camp and river. Such of the employees as have families are comfortably housed to themselves, and there are flowers and gardens and a home-like atmosphere everywhere.

The middle of last week saw the completion of logging in the north gulch, where but limited timber existed, and operations were transferred to the more abundant timber a little to the east. Here a new landing has been constructed and the main donkey moved from its old abode. With the object of logging farther to the east and southeast a new spur of railroad is being built out in that direction. This spur will be a mile or more in length, of standard-gauge as the other tracks, and unavoidably steep, as quite a height must be attained in traveling that way.

The Cody Company has ample timber for a several years' run, and is negotiating for the purchase of more. Since beginning last summer only eight days' time has been lost because of weather conditions, a fact proudly referred to by the Michigan-reared president and secretary.

Why Suffer From Rheumatism.

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett, of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by R. S. Knowlton.

It pays to use Stock Food at this time of the year. Better get a package at Knowlton's drug store and try it with your cow.

A big lot of sugar and fresh groceries just in from Portland at Robinson's.

A fine line of waists and wrappers at O. Wilson's & Co's.

Ashland Normal Notes

Miss Nora Beebe went to Central Point Friday.

Miss Esther Silsby, who is visiting Miss Esther Silsby of this city, visited the Normal Tuesday.

John Mulkey, who has been in Redland, California, for several months for the benefit of his health, returned to his home Wednesday morning. He was accompanied by his sister, Miss Nellie Mulkey.

The Ashland Summer Normal will open June 27th. All who wish to take the examinations in August should avail themselves of the opportunity of taking a review course under the able instruction of Prof. Van Scoy.

Rev. B. F. Van Dyke who has recently returned from Singapore, Asia, visited the Normal Wednesday. Mr. Van Dyke has been a missionary in that city for the past six years. He has also had much experience as a teacher in a school for boys. He said that there was a splendid opening for American teachers in the schools of Singapore. The salaries of these teachers range from ninety to one hundred dollars a month.

The Athena Literary Society has elected the following officers for the ensuing year: President, Miss Maude Rippey; vice president, Miss Edith McCune; Treasurer, Mae Anderson; secretary, Lillian Kaiser; sergeant-at-arms, Alice Fox.

Chapel Notes.

On Monday Prof. B. F. Mulkey gave a very instructive address on "How to be Popular." The English Literature class gave some quotations from Hamlet on Tuesday morning. Prof. Van Scoy also gave a talk on the "Art of Questioning." On Wednesday the students had the pleasure of hearing Rev. B. F. Van Dyke speak upon "Life and Conditions in the Malay Peninsula."

Two of our most popular young people, Mr. Gilbert Anderson and Miss Maude Minear, were married quietly in Jacksonville Monday afternoon. The students and faculty were ignorant of the fact until Tuesday evening when they serenaded the happy couple. A very enjoyable reception followed and the newly married couple were smiling when the students left. Mr. Anderson is manager of the dining hall at the Normal. Miss Minear is a student of music.

The Boys' Literary Society will hold a meeting Friday evening, May 25th, in the Normal chapel. The following program has been arranged: Solo, Clarence Burke; oration, Fred Peterson; solo, C. Hartley; recitation, Walter Horn; song, society; debate, Resolved That the National Expansion is Wrong; affirmative, O. B. Newton, Robert Jonas, Leonard Smith; negative, James Martin, Harvey Inlow, Clarence Benedict.

It pours the oil of life into your system. It warms you up and starts the life blood circulating. That's what Hollister's Rocky Mountain does. 35 cents, Tea or Tablets. R. S. Knowlton.

List your property with the Home Realty Co.

Full stock of A. A. Cutter shoes Lorenz's.

A good lot of cull lumber at the Coquille mill at \$4.50 per thousand.

Robinson's store has a big line of ladies' shirt waists, muslin underwear, corset covers, dress skirts and underskirts.

The cash customer has the advantage at T. H. Mehl & Co. They are now giving 5 per cent off of the regular prices to all who pay cash on the spot.

How is it we are able to offer advantages when selling Schilling's Best? We handle it in larger quantities hence sell under favorable circumstances. N. Lorenz.

A Creeping Death.

Blood poisoning creeping up towards the heat, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at R. S. Knowlton's drug store.
