We have received the first number of "The Village," a beautifully printed and illustrated magazine, published at Hyde Park Mass., and is intended to be an educator by and for those interested in Village, life, and surely starts out very promising. Its first effort is certainly a model of the printing art and all editorials and contributions are to the point. It shows the great advantages in village life over that in the country or in large cities. It should be liberally patronized and carefully read by all inhabitants of all small cities and towns.

Don't Cut a Corn.

Blood poisoning is liable to result when a corn is cut with a knife or razor. Cutting or trimming a corn affords but temporary relief because the corn comes back. The only safe and sure way to be free from corns and bunions is by the use of

Indian Corn Leaf.

This magic leaf applied to the corn causes the pain instantly after which the corn is removed entirely, permitting the foot to resume its natural shape. Recommended by all who have tested its merits. Send 20 cents for large size package and obtain from our booklet "HOW TO TREAT THE FEET." If bothered with piles, send 50 cents for "INDIAN FILE OINTMENT." Sent by mail on receipt of stamps or coin. Agents make money selling these guaranteed remedies. Write for terms. Address

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age, will occasionally eat too much or of some article of food not suited to his constitution, and will need a dose Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by R. S. Knowlton.
