Why does one place become the right place? That is simple: Because at that place they treat people right. How? By giving good goods for the money they get. The goods we sell are good, better best—never trash. Whatever price we may charge you, you may depend upon it that you will at least get something good. You can no more afford to wear poor apparel than we can afford to sell them. If we sell poor goods it will hurt our reputation; if you wear poor goods it will hurt your reputation. Did you ever think about the value of what others think of you?
