Department of the Interior.

Washington, D. C. January 3, '07.
Commissioner General Land Office.
Sir: Referring to the circular of instructions agents of your office, approved by me on January 29, 1904, relative to their duties under the act of February 25, 1885 (23 Stat., 321), entitled "An act to prevent unlawful occupancy of the public lands," you are advised that said circular is hereby amended and modified as follows:

Strike out from said circular paragraphs 5 and 6, and insert in lieu thereof the following:
It shall be the duty of the special agent on receipt of any charge or complaint or upon information being acquired by him from any source, that unlawful inclosure is being maintained by persons or persons, association, or corporation, to at once procure sufficient data, including a description of lands inclosed, with reasonable certainty, not necessarily by metes and bounds, nor by Governmental subdivisions of surveyed land, but only so that the inclosure may be identified and the persons guilty of the violation, as nearly as may be, and by description if the name can not, on reasonable inquiry, be ascertained, and to at once submit such case, with the date thus obtained, to the United States attorney for prosecution.

It shall be the duty of the special agent, and he shall be so instructed, to be alert and vigilant to detect the existence of unlawful inclosures in his district and to proceed in accordance therewith as hereinabove directed, and that he is not to construe his duties as requiring that, before proceeding in the matter of an unlawful inclosure, there must first be filed with him a formal complaint by some person or persons acquainted with the facts, but it shall be his duty, as hereinabove stand, to take the initiative himself.

In this connected you are further instructed, by direction of the President, to at once notify all of the special agents and receivers and registers of local land offices throughout the United States, and to give the widest publicity thereto that the provisions of said act of February 25, 1885, for the destruction of inclosures and obstructions existing in violation of said act will be rigidly enforced on and after April 1, 1907. Respectfully,
E. A. HITCHCOCK,
Secretary of the Interior.

About thirty-seven nautical miles northwest from the island of Unalaska, in the Aleutian group, there lay before the earthquake of April 18 two small volcanic islands called in Russian Bogoslof. They are well known to geographers and scientists because they enjoy the distinction of having risen from the sea all hot and streaming during historic times. Now it is discovered that the two have become three. The third is the largest of the three and put in an appearance on or about the date of the earthquake. The newcomer was still hot when visited for the first time by an officer of our navy. The natural thought is to connect the appearance of this new island with the great seismic upheaval on the Pacific coast last spring.—Ex.

Little Rock, Ark., Jan. 14.—State Senator Reuben Adams, who unearthed the alleged graft in the Arkansas senate, was forced out of the senate today upon the convening of the legislature. Senator Adams was obliged to retire from the senate caucus or face a motion for expulsion. He announced that he will resign. It was owing to Adams' testimony that State Senator Festus C. Butt was convicted of bribery and sent to the penitentiary.

Bids on Panama Canal.

Washington, Jan. 12.—The proposals that were opened by the canal commission today for the entire construction of the Panama canal were as low as had been expected by the experts on the construction work. For some time it has been known that seven members of the commission believed 7 per cent on the estimated cost of construction would be a fair remuneration for the contractor under the form prepared by the commission.

The lowest proposal, that of William J. Oliver, of Knoxville, Tenn., and Anson M. Bangs, of New York City, who offered to do the work for 6.75 per cent on the estimated cost, is lower than had been expected.

Granting that the estimate of \$140,000,000 for the construction of the canal, which has been frequently spoken of in congress, is accurate, the remuneration of the Oliver Bangs combination would be \$9,450,000 in case it was to be awarded the contract. Much discussion has been caused by the great difference in the only four bids received, as they ranged from 6.75 to 23 per cent. William J. Oliver and Anson J. Bangs have been in the contract business many years, and the statements they furnished with their proposals show that they have done much important work. Mr. Oliver states he has completed \$18,000,000 worth of work in ten years, and now has \$31,500 worth of work in progress.

He gives his assets at \$3,000,000. Bangs gives his assets at \$2,000,000 and states that he was the contractor for the Soo lock at Sault Ste. Marie Michigan, the Delaware breakwater, the contract price for each of these being \$2,500,000.

Cured His Mother of Rheumatism.
"My mother has been a sufferer for many years from rheumatism," says W. H. Howard of Husband, Pennsylvania. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by R. S. Knowlton.
