IF YOU WANT CASH

or Your Real Estate or Business

I CAN GET IT

No Matter What Your Property is Worth, or in What Town, City, State or Territory it is Located

If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads?" I will not only be able to sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up-to-date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the past year, but it will first be necessary for me to "list" more properties. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan

Free of Charge

and term for handling it. The information I will give you will be of great value to you, even if you should decide not to sell. You had better write today before you forget it.

If you want to buy any kind of a Farm, House or Business, in any part of the country, tell me your requirements. I will guarantee to sell them promptly and satisfactorily.

The greatest thing George Washington ever did was to tell his father that he cut down the cherry tree. He set a good example. It is easy to tell the truth when telling the truth will do you no harm. But are there not many who tell falsehoods for immediate benefit rather than the truth? Is the man who tells you that he will sell you a suit worth \$20.00 for \$10.00 telling the truth? If it is worth \$20.00 why does he ask only \$10.00 We mark our goods in plain figures and sell you a \$10.00 suit for \$10.00 and charge you \$20.00 for a \$20.00 suit. Would you not rather do business this way.
