On Shoes, so they tell us when we are buying. Perhaps we are. Nothing less than the very best obtainable is good enough for us, and the price must be right too. Here's a shoe as easy as an old one, yet it fits perfectly, no surplus space, no rubbing, no pinching, no cramped toes, easy on the feet easy on the purse.

One hundred years ago clothing such as we show today was simply out of the question. We have sold a better suit all winter at \$15 than George Washington had when he was President. We are selling this suit now for \$10. Wouldn't George think he had struck something besides a cherry tree if he looked in our store today? We know that the \$10 suits would be good enough for him—they're good enough for anybody.

**With Every Sale we Strive to Win a Friend and Steady Patron**

We spend what other people call the dull days of March and April making customers—not money; building up business—not bank accounts. There's a well beaten path. It leads directly to our doors. Throng of buyers traverse it day after day. Shows that we are strengthening the friendly business relations between the store and the public without which there can be no success.
