On Shoes, so they tell us when we are buying. Perhaps we are. Nothing less than the very best obtainable is good enough for us, and the price must be right too. One hundred years ago clothing such as we show today was simply out of the question. We have sold a better suit all winter at \$15 than George Washington had when he was President. We know that the \$10 suits would be good enough for him—they're good enough for anybody.
