Ferro Marine Engines

represent a distinct step in advance in marine engine construction. No outside water pipes, not an ounce of superfluous weight, all bearings adjustable to take up wear.

The Ferro works out the two-cycle problem in a way that develops a hitherto unheard of power, efficiency and reliability under all conditions. Yet the Ferro engines cost no more than other kinds.

Just what this Ferro construction is, you must read our free catalog. It is, you must read our free catalog on Marine Engines. 1, 2 and 3 cylinders; 1-2 to 25 H. P. Write us today. IMMEDIATE DELIVERY.

The Ferro Machine & Foundry Co., Cleveland, Ohio.
W. C. ROSE, Agent, Coquille, Oregon

We're Cranks

On Shoes, so they tell us when we are buying. Perhaps we are. Nothing less than the very best obtainable is good enough for us, and the price must be right too. Here's a shoe as easy as an old one, yet it fits perfectly, no surplus space, no rubbing, no pinching, no cramped toes, easy on the feet easy on the purse.

One hundred years ago clothing such as we show today was simply out of the question. We have sold a better suit all winter at \$15 than George Washington had when he was President. We are selling this suit now for \$10. Wouldn't George think he had struck something besides a cherry tree if he looked in our store today? We know that the \$10 suits would be good enough for him—they're good enough for anybody.
