The colonist rates go into effect September 1st and continue until October 31st. This is the rate that brings the actual settlers to Oregon and means that people can come to this state from Kansas City, St. Paul, Minneapolis, and all the great territory between the Missouri River and the Rocky mountains for \$25.00; To all points East of Umatilla, \$22.50 from St. Louis 30.00; from Chicago 33.00. It should be born in mind that the most important thing of all is that these people must buy their tickets direct to the town they want to reach. This is true with regard to Medford, Eugene, the Dalles, Astoria and every other city or town in Oregon. Many people get the impression that they can come to Portland and then continue their trip to the point of destination, and it devolves upon each and every community in Oregon to advise this fact, and through the correspondence and advertising of their people, get new settlers.

The Mullins Boat and the Ferro Marine Engines

The W. H. Mullins Company of Salem, Ohio—widely known as the largest builders of small boats in the country—install Ferro Engines and no others. Before placing their order for the year they make very exhaustive tests of highest grade two-cycle engines made; the result was an initial order for 500 Ferro Engines—the largest single order ever placed. If such large engine buyery as the Mullins Co. stake their whole year's business on the Ferro after looking so carefully into all the engines made, certainly you ought to feel that this goes very far to prove that the Ferro Engine has in fact the superiority we claim for it.
