A very destructive fire broke out at Price's shipyard near Bullard's early last Wednesday morning and tow nice steamers in course of construction, the Daisy being almost ready to launch, while another was well under way, were completely destroyed. This is an exceedingly hard blow to what is becoming one of our leading industries, and entails a loss of over \$100,000, on which it is reported that there are \$90,000 insurance. The largest shed, machinery and the workmen's tools were all destroyed, causing a loss hard to replace. While it has been a terrible blow to Mr. Price, we are pleased to be able to state that he is not entirely discouraged, and that he will proceed at once to rebuild and go ahead with the work.

J. H. Thrush Killed

J. H. Thrush, of Empire City was instantly killed on Friday afternoon by the unexpected explosion of a charge of dynamite which he had placed under a large stump expecting to blow it out. Counterfeit Coins Passed.

Counterfeit money is making its appearance on Coos Bay and there is much excitement among the different parties who found themselves in possession of the spurious coins. The North Bend News Company of North Bend was the first firm known to have been victimized.

The first intimation received in Marshfield was in shape of a warning to Robert Marsden, proprietor of the billiard parlor on Front street. After being informed Mr. Marsden was on the lookout for the coins and on Saturday night one answering the description was handed in. The gentleman passing the coin was entirely innocent that he was in possession of a counterfeit coin and was nonplussed on being informed of its real character.

The North Bend News Company of North Bend has discovered five of the coins in its till. The money is in every case five dollar gold pieces dated 1903, and said to be an excellent imitation.—Times.

The W. H. Mullins Company of Salem, Ohio—widely known as the largest builders of small boats in the country—install Ferro Engines and no others. Before placing their order for the year they made very exhaustive tests of highest grade two-cycle engines made; the result was an initial order for 500 Ferro Engines—the largest single order ever placed. If such large engine buyers as the Mullins Co. stake their whole year's business on the Ferro after looking so carefully into all the engines made, certainly you ought to feel that this goes very far to prove that the Ferro Engine has in fact the superiority we claim for it.
