He is working in a shop of the Arizona Turquoise Mines Co. at Denver, and when he goes to New York he will open up a shop for the company in that city.

APPALLING MARINE DISASTER
OVER 60 LIVES LOST
Passenger Steamer Columbia Sunk in Midnight Collision with Steam Schooner San Pedro
(Extracts from Special to the Times)
San Francisco, July 22.—In one of the worst marine disasters in the history of the California coast between 100 and 150 lives were lost, as far as has been learned, by the midnight collision between the Steamer Columbia and the steam lumber schooner San Pedro, in Shelter Cove, 12 miles southwest of Mendocino-Humboldt county line, between 12 and 1 o'clock Sunday morning. Only meagre information of the tragedy has been obtained, though every effort has been made to secure the facts. Scores of telegrams were sent to Eureka, the nearest point of importance and all remain unanswered. The facts known here were brought by the Steamer Roanoke and the Steamer Daisy Mitchell, which arrived in San Francisco this afternoon. The Columbia, while bound from San Francisco to Portland with 189 passengers and crew of 60 was rammed by the San Pedro, southbound for this city. The sea was smooth but the weather foggy. The San Pedro, looming out of the mist a few ship-lengths away bore down on the Columbia at a high speed, despite frantic efforts to avert the impending disaster, and with a crash sank her stem fully 10 feet into the Columbia's port-bow. Nearly all the Columbia's passengers, and many of her crew, were in their cabins and bunks when the crash came. As the San Pedro backed away the sea poured in through a ragged hole in the Columbia's bow and in five minutes the vessel sank to the bottom of the deep waters of Shelter Cove, which closed over the tips of her masts. According to J. S. Flynn, a passenger on the Roanoke, Captain Doran, of the Columbia, succeeded in launching four life boats and two rafts before the Columbia sank. Flynn, in an interview, stated that 88 passengers—all men—got away in this manner and were saved; that Captain Doran acted with great coolness in the face of death and went down with his ship. Flynn is further quoted as saying that no one of the hundred odd women passengers were saved. Shortly after the collision the steamers Roanoke, Elder and Daisy Mitchell, all southbound, came on the scene and stood by. The Elder took the San Pedro in tow and latest reports announce their arrival in Eureka. Near the scene of the wreck the Roanoke picked up a life raft and found underneath it the dead body of Edward Butler, of Portsmouth, N. H. LATER
Eureka, July 22.—Hoarily the death list of the marine horror shrinks. The best advices tonight are that 177 of the 249 souls on board the Columbia escaped death when that vessel went to the bottom near Shelter Cove, between midnight and one o'clock Sunday morning. A hundred and seven of the Columbia's passengers and 37 of the crew have been brought to this city by the Steamer Elder, which towed the schooner San Pedro from the scene of the disaster to Eureka. A late message from Shelter Cove says three more life-boats have been picked up, one containing 18 persons, another 15 and the third not reported. The survivors brought here are being cared for at the hotels and in private homes. Dr. Prentiss, of Marshfield, the dentist, has secured rooms in Bandon and will locate there permanently about August 1st. Mrs. J. E. Paulson of this city accompanied by her sister, Miss Josephine Lund, started for their old home at Superior, Wisconsin, Saturday where Mrs. Paulson will visit relatives and friends and we understand Miss Lund expects to remain, which will be deeply regretted by the many friends she has made while residing here. During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by E. J. Slocum.

Coquille Wins Again.
The ball game last Sunday on the local diamond between Bandon and Coquille was another easy game for the Coquille boys and they are still a good safe distance in the lead for the coveted pennant, although they did not play as good ball as usual, and had they put as ragged a game in previous contests with the bay teams they would have been up against the real thing. Hohn pitched a good game for Bandon but his support was weak at critical times, and Coquille's errors were made when they did not affect the score. Bandon had all the bases full twice and there they were—Collier would get busy and either put them out by the strike-out route or an easy out to the infield.

Score by Innings:
Bandon 0 1 0 0 0 1 0 1 3
Coquille 0 1 4 2 1 0 0 1 *9
Summary: Three-base hits—Howell, 2. Two-base hits—Lorenz, Prey, Peralta. Base on balls—Collier, 1; Hohn, 4. Double play—Nosler to Lorenz. Struck out—By Collier, 6; by Hohn, 6. Hit by pitched ball—Blackery, 2; Furman, Deverix, Fieger, L. Cox, Nosler. Umpires—Sneddon and Chapman.

North Bend and Marshfield had another try-out at Marshfield which resulted in a score of 15 to 5 in favor of North Bend.
Coquille goes to Bandon next Sunday and Marshfield to North Bend.

STANDING OF CLUBS.

| Name | P. | W. | L. | Pct. |

Extra trains will run on daily special orders. Trains to and from Beaver Hill daily.

The W. H. Mullins Company of Salem, Ohio—widely known as the largest builders of small boats in the country—install Ferro Engines and no others. Before placing their order for the year they made very exhaustive tests of highest grade two-cycle engines made; the result was an initial order for 500 Ferro Engines—the largest single order ever placed. If such large engine buyers as the Mullins Co. stake their whole year's business on the Ferro after looking so carefully into all the engines made, certainly you ought to feel that this goes very far to prove that the Ferro Engine has in fact the superiority we claim for it.
