Dairy and food Commissioner Bailey says that in Holland an acre of land supports more than there, cows. Notwithstanding the superiority of Oregon soil and climate, it is difficult to get the farmer in this country to believe that one cow to the acre can be maintained. It is less a question of soil than it is of management.

Do your shopping at home. Call phone 251 and Land & Lyons will deliver your order any time during the day.

How pleasant it is to be awakened in the early morning by several cattle adorned with cow bells, that parade up and down the thoroughfare raising a hideous din, and making a general nuisance of themselves. What sweet music for a visitor, and what a pleasing impression one must have that has just come from a country where a cow roaming about promiscuously is an unheard-of thing. Between the cows that keep the streets cleared of banana peel and the gulls that keep the river and banks clean we are indeed fortunate.—Bandon Recorder.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. E. J. Slocum.

On Saturday, October 7th, the S. P. locating crew under Chief Engineer Brown, established camp at M. Doyle's place at Wedderburn. One year ago this month this same crew was working in the streets of Marshfield, and the entire time intervening between then and now has been spent locating the best of the three surveys between these points. Seventy-five miles in one year, and this is the fourth crew to pass over the ground. Next will come the right-of-way man, that is, if any road is to be built. If not, this surveying business is certainly expensive bluffing.—Radium.

## Newspapers on Our Warships

It is not generally known outside of the service that many of the ships of the United States Navy have their own newspapers, published on board by the jacksies. The Kentucky Budget is issued on the battleship Kentucky, the West Virginia's bluejackets read the Ditty Box, the Pelican is the official organ of doings aboard the Louisiana, the Buckeye caters to the sailors on the Ohio, and the Wisconsin's crew is proud of the Badger. All the news of the ship and its company is condensed into these little sheets, and many an issue contains witty sallies at the expense of some comrade or a ditty descriptive of some feature of ship life.—Washington (D. C.) Herald.

Capt. Bergman of the bark Sea King reports that on Sept. 4, 1907, in Lat. N. 53 deg. 05', Long. W. W. 164 deg. 25', he sighted what was apparently a vessel bottom up, about 30 feet long at the waters edge and round topped to the height of about 10 feet. Captain passed about 2 miles to leeward of the derelict, character of which was impossible to make out owing to drizzling rain and a strong E. N. E. wind. This is dangerous to navigation.
