## Gold Will Flow Westward

New York, Oct. 29.—The announcement that the Imperial Bank of Germany had raised its discount rate from 5½ to 6½ per cent in order to save its gold holdings was not unexpected by bankers here. It is thought quite likely that the Bank of England will follow suit by raising its rate at the regular meeting on Thursday. Last year, when the United States was absorbing English gold, the rate was raised by the Bank of England at a special meeting and it will be a favorable sign if the matter is not taken up until the regular weekly meeting of the directors.

The scramble for gold is such at all financial centers—London, Paris, Berlin and New York—that the metal will go to the highest bidder and under present conditions New York is likely to appear for a time in this role. Her ability to get gold is due not only to the need for it, but to the large credits which are being established by the movement of the crops and other staples and by the sale of American securities. It is believed this will be effective to place sufficient gold at the command of the New York market and to maintain credit and cause the resumption of banking operations in the usual manner within a few days.

## Burglary and Fire.

Roseburg, Or., Oct. 31.—Professional seafarers blew open a safe, robbed its strongbox and started a fire that totally destroyed the store of Abraham's dry goods house in this city last night. Prompt action by the fire department saved the city from a serious conflagration and hard work was required to stop the flames from spreading. The loss by fire is over \$25,000.

About 11 o'clock last evening, B. Brookway, a lodger in the building adjoining Abraham's store, heard a heavy explosion and a few minutes later he made an investigation, as he had noticed fire breaking through the roof of the dry goods store. An alarm was turned in, which was responded to by the police and the fire department. It was found that the burglars had bored a hole through the top of the safe and piled clothing and dry goods about the door so that the sound of an explosion would be deadened. A stick of dynamite was dropped into the hole and the safe door blown outward. Two hundred and fifty dollars in gold and several checks were then stolen.

The explosion must have set fire to the papers in the safe and this was communicated to the clothing. The building was soon a mass of flames and the roof of adjoining structures caught, but the fire was extinguished.

The alarm brought out nearly everybody in town, the entire police force and the sheriff and his deputies. Thirty hobos were rounded up, but none of them is regarded as a suspect. Other arrests will follow today. The council and business men called a public meeting at 9 o'clock this morning to devise means of getting rid of a number of tough characters who have been lounging about town of late.

The building, which was partly insured, burned as if it had been saturated with oil. The dry goods stock was totally destroyed.

## Card of Thanks

I wish to express my sincere gratitude and thanks to our many friends who so liberally contributed to a fund raised to defray the expenses of sending my daughter, Grace, to a Portland hospital for treatment for injuries caused by a fall from a bridge last spring, the sum being \$160.25

Most Sincerely,  
Mrs. C. O. GILKEY.

E. C. Barker & Co. have just received the finest lot of imported, hand painted chinaware ever brought to Coquille. There are some swell creations of art, both in the shapes of the articles as well as the painting. It will pay you to see them.

Have you tried **SOUND RING** flour?

## Seventy Made Big Money

From word received from Prineville it looks very much as if Johnny Herron will have to get an express car to bring home the money. Seventy was first in a field of eight on the first day, was entered in a three-eighths for the next day, which he won, and some of the people were still dissatisfied and thought they had a better horse. To clinch the matter a special race was arranged for and Seventy clenched up again on the bunch and by some people Jack is considered a bad actor.

Whether Jack will invest all of his money in Portland or bring it to Coos Bay, his first love is a debatable question with his many friends. The facts are that many people around Prineville, Crook County, will remember Coos Bay for many a day.—Coos Bay Times.

## B. Fenton Indicted and Fined.

B. Fenton was last evening indicted by the grand jury on a charge of assault and battery, alleged to have been committed upon Frank Fish, a rival stage man, near the Roseburg hotel last September.

Fenton was immediately arrested by Sheriff McClallen and appeared in court this morning for sentence. When called to enter a plea he stated that he was guilty of the offense as charged, but credited his action to losing his temper when called a vile name by plaintiff. Mr. Fish was then called to the bar and stated the story in detail, giving the facts as they were alleged to have occurred. After a brief consideration of the affair the court sentenced Mr. Fenton to pay a fine of \$200 and costs.—Umpqua News.

We are in receipt of a circular letter from the General Land Office, Washington, D. C., directed to the registers and receivers of local land offices, directing them to proceed to convey the information therein contained to the public as expeditiously as possible. The letter reads as follows: In all cases where homestead entries are after November 1, 1907, commutation proofs must show actual and continuous bona fide residence for the full period of fourteen months. In all cases where the entries were made before November 1, 1907, the rule heretofore existing that six months' consecutive residence following the date of the entry will be considered as a part of the required fourteen months will remain in force.

Madrid, Spain, Oct. 28.—The Spanish government may ask the United States department to take steps to investigate the story that 4000 Spaniards taken in battle or from stranded ships on the island of San Juan del Monte, of the Philippines, are held as slaves by the natives. The story has been brought here by shipwrecked Spanish sailors who escaped and reached Manila after much suffering.

Omaha, Oct. 29.—The Union Pacific railroad today discharge between four and eight thousand men from the construction department and every piece of construction on the entire system is abandoned.

The Steamer Bandon sailed from the Coquille on Thursday for San Francisco. This boat had no trouble in coming in or getting out, and we understand she will continue to come to this port.

FOR SALE. A span of mares, 7 and 9 years old. Gentle and well broke. Good drivers. Both in full. Also new harness and light wagon. A bargain if sold within the next 15 days. Call on or address this office.

The Central Real Estate Exchange has inquiries for burnt-off or cut-off lands. If you wish to sell, bring in your lists and prices.

B. B. PAUL, MGR.  
E. H. Rice, of Bannock, passed through to the bay Wednesday, going over to prove up on his homestead before Mr. Liljeqvist, U. S. commissioner.

The Latter Day Saints are making preparations for the construction of a church edifice at Bandon.

V. R. Wilson, "Expert Watch Maker." Over 29 years' experience. "Nough said."

## REVERSALS. MATT 19:30.

WILLIAM STEWARD GORDON.  
Judge not, with narrow mortal sense,  
The circle of God's providence  
By one small segment at your feet;  
Nor view a life as if complete,  
Until with heaven's chastened eye  
You see it finished in the sky.  
A twisted dwarf may there unfold  
A polio's form of classic mold,  
While some Luvois with title broad  
Leers, monstrous as a Chinese god.  
A Pilate that adorned his day  
May be an atom in decay,  
While one consigned to Calvary's curse  
Looms up across the universe.  
Upon His throne of thrones on high  
He towers, where angels Holy cry,  
And rolling spheres their plaudits raise,  
And seas of space resound his praise.  
Below, men scan the outer man—  
His garb and gold, his clique and clan;  
Above, the soul is all in all,  
Its trappings gone beyond recall,  
Through mirrors, darkly, now we see,  
But face to face it there shall be,  
The order here perchance reversed—  
"The first be last, the last be first."  
Then up, my soul, and higher climb  
Where thou canst see God's law sublime,  
Assured, somewhere in time and space  
All things will find their rightful place.  
Coquille, Oct. 31, 1907.

Occasionally the divorce courts disclose the story of a wife whose extravagance brought her husband to poverty. Yet very rarely is such a story heard. If all the stories of wastefulness were related it would be found that in a hundred cases the husband has squandered the family income where in one case the wife has thus spent it. Not only from choice but often from necessity, the wife practices the many small economies that make possible a scanty saving for a day of adversity. The husband carries the purse and his are not only the opportunities but the habit, that end in poverty.

Chas. H. Deere, son of the late John Deere the pioneer plow manufacturer of Illinois, and who amassed a great fortune in the manufacture of farm implements, died on the 28th inst. The junior Deere kept the fortune intact as well as the large implement factors, beside becoming a great leader in the Republican party.

Philip Guthardt, of the Salmon Mountain mines, was brought down to Myrtle Point Tuesday of last week with a broken leg. He was getting some lumber down the mountain out of which to construct flames when he got a fall with the above result.

J. C. Watson, the fancy chicken raiser, has a large lot of fine cockers for sale—Black Minorcas, White Rocks and White and Brown Leghorns. He also furnishes pairs and trios properly mated.

For a fine 80-acre place, 7 miles from town and 3 miles from the river. Nice home with fine orchard with big variety of fruits, call at this office.

## Historic Musket is Found.

Helena, Mont., Oct. 20.—A Rogan of this city is refusing high prices for an old flintlock musket which he picked up this summer along the Yellowstone river in the country of the same name, and, according to all accounts, on the trail of Lewis and Clark.

The weapon had a stock of mahogany which was badly rotted. Cabinetmakers declare that such a piece of wood should last 100 years' and it is the belief of Mr. Rogan that the musket was owned by a member of the Lewis and Clark party. The weapon was made in Lancaster, Pa., and persons who have examined it declare that no firearms like it have been made for over a century, all of which leads semblance to the truth of the belief that the gun belonged to some member of the Lewis and Clark party. The gun was lying 20 feet from the bank of the river and partly hidden in the soil. There is some talk of Mr. Rogan donating the weapon to the State Historical library.—Spokesman Review.

Albany, Or., Oct. 30.—minis—Rev. Dr. I. D. Driver, Methodist minister, well-known character in Oregon history, and theologian of wide reputation, died at 1:30 o'clock this afternoon at his farm home, near Tangent, six miles north of Albany.

Capt. Bergman of the bark Sen King reports that on Sept. 4, 1907, in Lat. N. 53 deg. 05', Long. W. W. 164 deg. 25', he sighted what was apparently a vessel bottom up, about 30 feet long at the waters edge and round topped to the height of about 10 feet. Captain passed about 2 miles to leeward of the derelict, character of which was impossible to make out owing to drizzling rain and a strong E. N. E. wind. This is dangerous to navigation.

**\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80**

Regular Price \$8.50 per pair. **\$4.80** NAIL TACKS OR GLASS  
**We Will Sell You a Sample Pair for Only** 10¢ OUT THE AIR  
(CASH WITH ORDER \$4.80)

**NO MORE TROUBLE FROM PUNCTURES.**  
Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.  
Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

**DESCRIPTION:** Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt squeezed out between the tire and the road thus overcoming all action. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented. If you send **FULL CASH WITH ORDER** and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once. Hence this remarkable tire offer.

**COASTER-BRAKES,** built-up-wool, saddles, pedals, parts and repairs, and every thing in the bicycle line are sold by us at half the usual prices charged by dealers and repair men.
