Stoves

In buying a heating stove,

you want the assurance that the stove will give you satisfaction and will prove to be as good, if not better, than you anticipated. This is natural, and we expect it. Consequently, the stoves we purchased for our trade this season, have been placed in stock with a view of giving all purchasers the best possible stove for their money. We have a very extensive line of all sizes and styles, and carry both wood and coal heaters. The prices of these stoves range from a few dollars up to \$30. We certainly have the stove you're looking for. Let's get our heads together and see.

The Mullins Boat and the Ferro Marine Engines

The W. H. Mullins Company of Salem, Ohio—widely known as the largest builders of small boats in the country—install Ferro Engines and no others. Before placing their order for the year they made very exhaustive tests of highest grade two-cycle engines made; the result was an initial order for 500 Ferro Engines—the largest single order ever placed. If such large on zinc buyery as the Mullins Co. stake their whole year's business on the Ferro after looking so carefully into all the engines made, certainly you ought to feel that this goes very far to prove that the Ferro Engine has in fact the superiority we claim for it.
The Ferro Machine & Foundry Co., Cleveland, Ohio.
