

Blacksmith Coal Found in Coos.

Mr. Wm. Anderson, accompanied by his estimable wife and two daughters Misses Laura and Ella, came to town last Monday. Mr. Anderson brought some coal from their claim which is about 10 miles from Eden valley and 26 miles above Myrtle Point.

The coal is of a very fine quality and on being tested by McAdams Bros. on Monday was found O. K. as they succeeded in welding some large pieces of steel without the use of sand, borax, or any welding compound, something which can very seldom be done with the Pennsylvania coal which is shipped here.

The only thing which keeps this coal from being perfectly satisfactory for blacksmith coal is that it throws out a large blaze. Expert coal men say that it will not do this when they get down deeper in the vein, as that tested was right off the surface.

If a coal mine can be opened in Coos county which will produce a coal suitable for blacksmithing it will be a fine thing for this county as the coal shipped from the East is both hard to get and very expensive as on account of the high freight rates.

This is far the best coal ever found in the county and efforts will be made to open a mine and put the product on the market in the near future.

Gentlemen, voters, sons, brothers: I am growing old, but I can not rest until you have given us the victory. Every hour I spend in this service is a labor of love. Every dollar I donate is a personal sacrifice. Have the faithful mothers of Oregon not earned your affirmative for their full enfranchisement? you ought not to be afraid of us.

You are equipped with ballots. We are not. We are depending upon you to honor our flag of truce by voting Yes in our behalf in this unequal contest. You know you would only compel us to repeat this struggle in 1910 if you should fail us now. But we believe you will not fail. You have but to unlock the door to the closed citadel of liberty, leaving us free to choose for ourselves, exactly as you do, as to whether to vote or not to vote, at every succeeding election. Thus only can you acquit yourselves as freemen and relieve us from further effort to secure equality with our sons before the law.

\$3,000,000 Mortgage Filed on Smith Timber.

Roseburg, Or., April 18.—Involving the sum of \$3,000,000 and covering immense tracts of timber in Southern Oregon and Northern California, the largest mortgage or deed of trust ever filed in the office of the County Clerk of Douglas has just been presented for recording.

The mortgagor is the C. A. Smith Timber Company, which is operating a large sawmill at Coos Bay, and the mortgage is the Central Trust Company of Illinois. The mortgage has been executed to secure a loan for the amount of money mentioned, and repayment is provided by 6 per cent bonds, issued on a sliding scale. The stated purposes of the loan are to meet obligations aggregating a total of \$1,000,000 and to finance lumber manufacturing projects. The lands embraced in the transaction are situated in Eldorado and Humboldt Counties, California, and in Coos, Curry, Douglas and Lincoln Counties, Oregon.

Woman's Study Club.

The club meeting held on the 11th inst. with Mrs. Nye, was for the purpose of considering the works of Rudyard Kipling, several selections of both prose and poetry being read. The next meeting held on the 18th was for regular Travel Day work, the subjects for the afternoon being Bermuda, Jamaica, the Bahamas and British Guiana and many interesting articles in regard to these possessions were presented.

On Saturday last the occasion of the club's annual business meeting the ladies met with Mrs. Belloni. After the transaction of business delicious refreshments were served by the hostess. As is the custom, no literary work was done.

EDITOR HERALD: In reply to Mayor Stanley in the last issue of your paper, I wish first to state that the best interests of Coquille demand that light be thrown upon the amendment question. I have made the assertion that the proposed amendments are not what they should be, nor have they been presented as yet in a proper and legal manner. There are requirements of law set forth in chapter 226, sections 8 and 10 of said act of 1907, session laws of Oregon, that have not been complied with. The authority cited explains the manner of how municipal legislation must be printed. Of how the arguments for and against are to be attached thereto, and how the city clerk, auditor or recorder shall, as far as possible, place a copy of said measures with said arguments attached, in the hands of each and every voter not less than eight days before the election. Now the time is short in which to comply with that part of the law and no pamphlets have as yet appeared. One who is not perfectly conversant with the present charter could not distinguish between the charter and the amendments thereto by reading the printed matter in the Sentinel, hence my argument. Now, what the people of Coquille want to know is whether or not these amendments are going to benefit them, or whether or not they are made in a manner to stand a searching investigation of the higher courts if the case should arise at any time. Not only that there is a growing demand that the people shall be consulted when laws are framed under which they must live and do business, it matters not whether a man is worth one cent or not. If he is a legal voter he has the same rights, granted by the constitution of the United States and no state can legally abridge or restrict or take those rights away from him. The right to vote at any and all elections, upon any and all questions that effect his welfare, cannot be taken away from him. He must have the right to a jury trial whether or not he has a cent, when accused of a crime. And no property qualifications can be legally enacted restricting his franchise or his ability to hold office, and I repeat that any and all measures whether of local or state origin in conflict with the constitution of the United States are null and should be condemned and repealed and the people should be careful not to fool away their time and means enacting patchwork legislation. The city charter in many respects could not stand for a moment in the supreme court, and at least one of the proposed amendments is in direct conflict with the supreme law, then why should intelligent people vote in its enactment? I reiterate the statement—Coquille needs a new, clear out and out charter, based upon more popular and scientific ideas.

A scheme is now on foot to bring forth such a charter. Before it is attempted to pass the same a fair consideration of it shall be had by the people as a whole. It cannot cost one penny more to grade, repair or maintain streets, sidewalks, alleys or sewers by direct taxation than it does now where the burden falls wholly upon the property owners, and in speaking of taxpayers we don't want to lose sight of the fact that all who purchase goods or commodities furnish the coin to pay the tax with. Now, don't try to make us believe that one man, although he be a millionaire, has any more rights here than the man in the overalls.

I feel that any further argument is not needed and would be out of order. The time limit fixed by law when the arguments shall have been filed with the recorder has passed, and as far as I am concerned, I believe that the people have been made to see the truth. I submit the case to them, believing that every question is safe in their hands.

Thanking you for your kindness, Mr. Editor, I remain yours for the best interests of Coquille.

PROF. ARTHUR W. SLEEPER.

He Got What He Needed.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing, of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at R. S. Knowlton's drug store. 50c.
