OLD RATES RESTORED

Lumbermen Win Victory Before Interstate Commission.

Washington, June 20.—In the cases of the Oregon and Washington Lumber Manufacturers' Association against the Union Pacific and other railroads the Pacific Manufacturers' association and others, against the Northern Pacific and others, the Southwestern Washington Lumber Manufacturers' association against the Northern Pacific, involving a general advance in lumber rates, in many cases 20 to 25 per cent, from the north Pacific coast territory to points east thereof, which became effective November last, the Interstate Commerce commission makes a geographic decision in its action.

On the ground of unreasonableness it orders a restoration of the previous rates west of a line drawn from Pembina, N. D., through Grand Forks, Council Bluffs, Kansas City, Sioux City to Port Arthur, Texas, along the Kansas City & Southern railway, and including all points east of that line "which now take the same rates as any point between and including Sioux City and Kansas City."

Parts of the increase to more distant markets, lying east of the Missouri river, is permitted to stand. The differential rates from the Spokane rate group points, and Hood River, Ellensburg and Lavenworth districts, which lie east of the Cascade mountains, embracing parts of Washington, Oregon, and all of Idaho, to the eastern territory, are established under a decision in the case of the Potlach Lumber company and others against the Northern Pacific and other roads.

Rates from Spokane districts are ordered lower than the Pacific coast. In the case of the Western Oregon Lumber Manufacturers' association, against the Southern Pacific the commission decides that the advance of \$5 per ton from all mills in the Willamette valley, not including Portland, is unjust and unreasonable; that from both east and west banks, south of Corvallis, the rate should not exceed \$3.40 per ton, and upon the east bank of the Corvallis, \$3.65 per ton. Because of the water rate the Portland rate is not reduced.

In the case of the Pacific Coast Manufacturing association against the Northern Pacific and other roads, the commission declines to name another through rate from Washington to Colorado common points and eastern destinations. It requires, however, that the Northern Pacific Terminal company of Oregon, the Oregon Railroad & Navigation company, the Oregon Short Line and the Union Pacific to establish through rates for lumber from the Northern Pacific line in Washington, north of Portland, as far as Seattle, through Portland to Ogden and Salt Lake City and Utah common points, and a 40-cent per hundred weight rate on fir and spruce lumber and 50 cents per hundred on cedar lumber and shingles perished through traffic.

Chairman Knapp and Commissioner Harlan dissented from the conclusions reached in a majority of these cases on the ground that most of the advance in rates is reasonable.

Jumps Through Window.

Cheyenne, Wyo., June 25.—While being taken back to Riverview, Wash., Clark W. Lawrence, wanted there for forgery, escaped from Sheriff E. E. Gilson by jumping from an overland train near Cheyenne. Lawrence was ironed, but made an excuse to have the irons removed. He then jumped through the window while the train was running at full speed and made good escape.

I will make postals very reasonably from any negatives taken by Mr. Owings in the old Wilkins gallery. I also make a specialty of new negatives for postals. RAY DEAN.

Six and 12-foot Lenolium at W. C. Laird's House furnishings establishment.

Richman-Gould

One of the most brilliant social events of the season occurred last Wednesday evening at the hospitable home of Mr. and Mrs. G. A. Gould of Allegany when their daughters L. Grace and Georgia J. were married to Cornelius N. Woodruff of Langlois, and Dr. James R. Richmond of Coquille, respectively. The alert and several gasolines made a special trip from Marshfield for the occasion, and lay along side a large lumber barge which had been carpeted and decorated for the ceremony. The Misses Lucia and Milla Gould, sisters of the brides acted as bridesmaids, and the groom's were attended by Messrs. E. C. Barker and Hermann Edwards.

As the Wedding March was played, Rev. W. S. Gordan, the officiating clergyman, led the bridal procession from the home near by, to the barge where the honored quartette and their attendants took their places under a giant, arch of green and white, from which was suspended a large wedding bell. The beautiful ring ceremony of the Methodist church was used, and every word was distinctly heard by the guests on the boats—probably about two hundred in all. The brides looked charming in their handsome gowns of white satin over taffeta in real point lace, with veils fastened with orange blossoms. They were almost deluged with costly presents from their large circle of friends in different parts of this state and California. After the refreshments were served, the party was serenaded by the passengers as they were embarking for Marshfield.

The brides are among the most popular young ladies of Coos County in both church and social circles. Mr. and Mrs. Woodruff will make their home at Langlois, Curry Co. where the groom is a highly respected citizen, having served for some time as County clerk. Dr. and Mrs. Richmond will reside in their new home in Coquille as soon as it is finished, where he will attend to the large practice he has established.

No Need of Suffering from Rheumatism
It is a mistake to allow rheumatism to become chronic, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Pain Balm. The relief from pain it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. 25 and 50 cent sizes for sale by R. S. Knowlton.

"Having tried it, I recommend the following mode of keeping ice water for a long time in a common pitcher," says a writer in Woman's Home Companion for July. "Place between two sheets of thick brown paper a layer of cotton batting about half an inch in thickness; fasten the ends of the paper and batting together, forming a circle, then sew or paste a crown over one end, making a box like a stovepipe hat minus the rim. Place this over an ordinary pitcher filled with ice water, making it deep enough to rest on the table so as to exclude the air, and you will be astonished to see the length of time that the ice will keep and the water remain cold after all the ice has melted."

W. R. Ward, of Dyersburg, Tenn., writes: "This is to certify that I have used Foley's Orino Laxative for chronic constipation, and it has proven without a doubt to be a thorough practical remedy for this trouble, and it is with pleasure I offer my conscientious reference." Sold by E. J. Slocum.

Detroit, June 25.—Fires in Northern Michigan forests fanned to great proportions by the gales of the last two days, have destroyed at least three villages, rendered hundreds homeless, swept over thousands of acres of timber land and caused damage estimated at about \$200,000.

CARPET WEAVING. Mrs. K. Holverson, Wickham residence east of the Christian church does fine carpet and rug weaving; Call and see samples of her work and get prices.

Cleveland Passes Away

Princeton, N. J., June 24.—Former President Grover Cleveland died here today at 8:40 a. m. The passing away of Mr. Cleveland was not immediately announced pending the preparation of the official statement by Dr. Joseph D. Bryant, George R. Lockwood and J. M. Carnochan, which was as follows:

"Mr. Cleveland for many years had suffered from repeated attacks of gastro-intestinal troubles. He also had long standing organic disease of the heart and kidneys. Heart failure complicated with pulmonary thrombosis and oedema were the immediate causes of his death." The oppressive heat of yesterday had much to do with the death of the former president. When asked for further details Dr. Bryant said, "the heart failure which caused death was induced within twenty-four hours of the end. Death was finally due to the heat."

Princeton, N. J., June 25.—Arrangements for the funeral of Grover Cleveland were practically completed today, and before the sun sets tomorrow evening the body will have been lowered into the grave in the family plot in old Princeton's Cemetery, where lies the body of Ruth, the first born of the Cleveland children.

Mrs. Cleveland is bearing her grief with the utmost fortitude, and is directing the details of the funeral.

Railway Plank to be a Short One.

Lincoln, Neb., June 25.—The Denver platform probably will declare for strict railway regulation. Friends of William J. Bryan predict that no Government ownership plank will be inserted. Six months ago Mr. Bryan issued a statement declaring the Government ownership would not be an issue in the campaign. Norman Mack and other close friends of Mr. Bryan do not believe that Government ownership will be discussed in the Denver convention.

Born in Iowa
Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea Remedy (made at Des Moines) for years. We know now good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. This remedy is for sale by R. S. Knowlton.

All trees with few exceptions should be pruned occasionally, but only by an experienced man. Cutting off the top of a tree leaving its limb six or eight inches in diameter is not pruning, but is working permanent injury to the tree and killing it long before its natural age. Well pruned trees will not need the cutting of a branch bigger than a thumb. Each tree has its own characteristic natural shape and the same should be observed in pruning. Examine all trees carefully for insects and scale. If affected, have the trees sprayed at once or apply the proper remedy as the case may be. Close up all wounds on trees air-tight. Do not forget that during summer all trees need water as much as any other plant.—Pacific Farmer.

Badly Sprained Ankle Cured
Three years ago our daughter sprained her ankle and had been suffering terribly for two days and nights—had not slept a minute. Mr. Stallings, of Butler, Tenn., told us of Chamberlain's Pain Balm. We went to the store that night and got a bottle of it and bathed her ankle two or three times and she went to sleep and had a good night's rest. The next morning she was much better and in a short time could walk around and had no more trouble with her ankle. E. M. Brumitt, Hampton, Tenn. 25 and 50 cent sizes for sale at R. S. Knowlton's.
