But a very few people in this country realize what a tremendous factor the great crops play in our prosperity. Beginning with May of every year, our millionaires begin going to Europe and it has been ascertained that they take over to the old country about \$200,000,000 of our money. During the summer and fall of every year The Coquille is a neat little craft committees to aid them in making by European laborers working in this country. Then about October and November of each year a large number of foreigners who have been working here two or three years return to their European homes and carry in their pockets another \$100-000,000. This makes about four hundred million dollars transferred from this country to Europe bevent an era of great prosperity renothing to fear from the election of such able and honest men as either Mr. Taft or Mr. Bryan.
